MINES AND MINING

The Snowshoe Company at Phoenix have started up their compressor and put a few machines to work.

Work in the Yukon will begin three weeks earlier than last year.

The Crow's Nest Coal Co. and employees have entered into an agreement for one year.

The Nugget mine Sheep Creek, has sent out a \$7000 gold brick.

The Border Mining & Milling company, capitalized for \$10,000,000, full paid and non assessable stock at \$1 per share par value, has been organized in Washington, D. C. to operate in the Orient district.

Work is progressing satisfactorily in the Kamloops camp. The arrival of W. O. Young is awaited by many, and no extensive work will be undertaken until it is definitely known just what properties Mr. Young will take.

At the Phoenix Amalgamated, development is being temporary curtailed. A large amount of ore has been blocked out and the tunnel for shipping purposes is about completed.

At the Iron Mask a big staff is maintained and great success is attending the work. The owners of the mine will be back in Kamloops very shortly. They are now in Duluth.

The Golden Eagle mine on Volcanic mountain is making small shipments to the Granby Smelter.

A rich mineral strike between the Columbia & Seymour rivers is reported.

Work will be resumed on the Eva mine at Gambo this spring.

A rumor is current that M. K. Rogers will again assume the management of the Nickel Plate mine at Hedley.

The miners at Middlesboro Colerics have signed an agreement to work for thirteen months on the contract system.

It is claimed that with reciprocity in coal between Canada and U. S., that the latter country would lose east of Cape Cod and gain west of Montreal.

The Golden Zone of Camp Hedley will send a specimen of \$100 ore to Seattle Fair that weighs 240lbs.

Collector of Specimens Broad-bent of the Dominion Department of mines reports an excellent prospect for securing a representative collection of British Columbia minerals for the Alps exposition.

The temporary closing down of the Le Roi and the big fire in the Centre Star, gave things a blue look for Rossland, but there are still several properties there operating under lease and the big mines are expected soon to reopen.

A 20 Stamp mill has been ordered for a mine on Queen Charlotte Islands.

The Mc Gillivray Creek Coal & Coke will install a \$200,000 plant on their property.

Found Dead in His Cabin.

Alex. Wilson, carpenter, of Midway, was found dead in his cabin on Sunday last.

Deceased was a very respectable man of about 45 years of age, and had been ailing for some time.

Constable Aston telegraphed to his brother in Wyoming and the remains are being held at T. M. Gully & Co's, pending his arrival.

A period of depression is generally succeeded by an increased activity in mining. Greenwood, like other good camps, has felt the depression of the past year and a half, we have the mines and the period of activity has already begun.

With the Churches

The Sacrament of the Lord's Supper will be dispensed next Sabbath at the Presbyterian church at the morning service. Preparatory service on Friday evening.

Next week being Holy Week the services at St. Jude's church will be as follows: Monday and Tuesday at 4 p.m.; Wednesday, 7.30 p.m.; Thursday, 4 p.m. Good Friday, solemn service with sermon on the Crucifixion, at 10.30 a.m. Easter day, Holy Communion, 8 a.m.; matins and Holy Communion (choral) with sermon at 11 a.m. Festal evensong with sermon at 7.30 p.m. (special music). The church will be decorated for the festival, and gifts of flowers, etc., will be much appreciated.

On March 20th Mrs. R. K. Steven gave a farewell party to the infant class of St. Columba's Sunday school of which she has been the teacher for over three years. At the conclusion of a very pleasant afternoon spent in games, etc., Mrs. Steven was presented with a handsome cut-glass bowl from her class, as a mark of their affection and regret at her departure. Mrs. Steven has taken a great interest in the Sunday school work and has had such good results that she will be greatly missed.

The future of Greenwood appears to be full of promise; as the possibilities in development of our mineral resources are beyond all computation.

The old-time prosperity is about to return and Greenwood camp will prosper and flourish like the green bay tree. We have the goods and they are beginning to be produced.

Don't forget that at the Auditorium on March 14th the people of Greenwood will see for the first time the wonderful electric machine of Prof. Makeover in which the "Old Maids" enter to be ground up and made over into young and beautiful maidens who will entertain you with singing, dancing, etc. Seats can be had at Logan's Jewelry store. Admission 50c, children 25c. ad

You and Your Neighbor

Every property-owner in the City of Greenwood should turn out and vote for the Tramway bonus on Wednesday, April 7th.

The opportunity of a decade is knocking at your door, and you are expected to register your approval of the project that will make a busy city of the Camp of Greenwood.

The City aldermen have given their sanction by submitting the by-law and calling for the support of the rate-payers, and the business men of the city are a unit in its favor.

Everything is in readiness to commence work on the tunnel immediately the property-owners express their approval.

Make the Vote Unanimous.

FRIDAY, APRIL 2, 1909

The Victoria Colonist commiserates, and compliments, the people of Greenwood on their pluck and fortitude in what the Colonist considers are trying circumstances for the banner mining camp of British Columbia.

The Grand Forks Gazette ably abets the incorrect and misleading statements of the Nelson News, with their expressions of grief for the disastrous misfortunes they proceed to cook up for the mining center of the fabulously wealthy Boundary country.

Grand Forks is a pleasant place in which to live and produces a big red apple that may not be excelled.

Nelson is a place of some pretensions as a point of distribution for mercantile wares and rumors that do incalculable damage to the business interests of Southern British Columbia.

But Greenwood is a mining camp, and as such may not expect to receive due recognition from clam-beach journals that know so little about the mineral zones of the great mining belt of the Interior.

It would be futile to contradict specifically, and to try to correct, the many wrong impressions of Greenwood that are given to the suffering readers of the outside press.

Greenwood is surrounded by mines and material for mines, and Greenwood's great smelter has not shut down. Greenwood

is the place where the trails converge, and Greenwood is rapidly coming to her own.

Greenwood needs no sympathy at the present juncture of her history.

No camp in British Columbia has a brighter immediate future than the City of Greenwood, and all we ask is fair reports from the provincial press.

Immigration to the Canadian Northwest has already assumed large proportions.

The passenger trains are thronged with settlers from Eastern Canada and the United States.

Many of them have sufficient money to pay their way until they get returns from their harvests and will be independent of money-lenders. The acreage of grain will be immensely increased, and nothing but wheel of misfortunes can stay the progress of the prairie provinces.

British Columbia will be immensely benefitted by the prosperity of the neighboring provinces, and the overflow from the great population that is even now inhabiting the great stretches of the wheat belt will fill the fruitful valleys of this province with a myriad happy homes, where our genial climate gives greater comfort than may be had on the eastern side of the great divide.

Land values in this district are feeling an exhilarating effect from the success of the prairie farmer, and the time is fast approaching when the reasonable prices of land in this locality will attract so many people that the Boundary country will be one of the most favored sections of the province in which to live.

Perhaps the most graphic story of exploration is Lieut. Shackleton's narrative of his party's experiences in their search for the Antarctic pole.

The disappearance of their pony in a crevasse of unknown depth; the ascent of a great volcano mountain having a crater 8,000 ft in depth; the encountering of a temperature of 89 degrees of frost; the discovery of a glacier 120 miles long and 40 miles broad; the fact that they have beaten the record of the Discovery expedition by a distance of 354 miles and reach a point 111 miles from the South Pole, and learned that that long sought for goal is doubtless situated on a great plateau 10,000 feet above the sea where raging blizzards blow, make the story one of the most interesting explorer's tales that has ever been told, and will spur the adventurous on to carry the flag the few miles that are still to be

traversed to plant the Union Jack in the center of the Antarctic circle.

The Canadian Pacific railway company have issued a fine little brochure full of interesting information on British Columbia.

The only fault we have to find with the pamphlet is the absence of a photo descriptive of the alluring scenery of our Greenwood landscapes.

Edwin Banwell, defaulting bank clerk of the Crown Bank, has been paroled from Kingston penitentiary six months before the sentence of four years had been completed.

Considering the fact that his salary was only \$54 a month, and that nearly all the money was returned, the Department of Justice has shown a commendable spirit in giving the unfortunate young man a chance to rehabilitate himself as a responsible citizen.

The proposal of Sir James Whitney to give a bonus of 2,000,000 acres of the public lands of Ontario to the Canadian Northern railway is a disastrous departure from the trend of public opinion in Canada.

Too much of the public domain has been given to great corporations in the past, and if any subsidy should be given it should be in cash, with the control of rates and other matters thrown into the bargain.

Public feeling is decidedly against the idea of granting timber leases in perpetuity for a small annual sum per acre; and we believe that the provincial government is making a big mistake in considering the proposition of the speculators that the lumbering business should be placed in their hands.

The forests of British Columbia should remain under government control. The Toronto Globe is still in "a state of mind" because the Ontario Government insists upon selling mining properties and placing the revenue in the Treasury instead of giving such properties to speculators, and allowing them to get the cash. There can be no doubt that the Conservative policy of the mine for the highest bidder and the money for the people is a tremendous departure, and it is hard for persons who have been accustomed to the other system to become reconciled to it.—Mail and Empire.

That fact that the steamship trade between the Pacific ports of

Canada and Mexico is rapidly assuming large proportions is a matter of great importance to the commercial life of British Columbia.

In Ontario a man was sued for his subscription to the building fund of a Methodist church.

Copper HANDBOOK.

(New Edition issued March, 1908.)
Size: Octavo. Pages: 1228. Chapters: 25.
Scope: The Copper Industry of the World.
Covering: Copper History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology, Deposits, by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc.
The Copper Handbook is concededly the WORLD'S STANDARD REFERENCE BOOK ON COPPER.
The Miner needs the book for the facts it gives him regarding Geology, Mining, Copper Deposits, and Copper Mines.
The Copper Consumer needs the book for every chapter it contains. It tells what and explains how and why.
The Investor in Copper Shares cannot afford to be without it. The Copper Handbook gives statistics and general information on one hand, with thousands of detailed mine descriptions on the other, covering the copper mines of the entire world, and the 40 pages of condensed statistical tables alone are worth more than the price of the book to each and every owner of copper mining shares.
Price: \$5.00 in Buckram with gilt top, or \$7.50 in full library morocco.
Terms: The most liberal. Send no money, but order the book sent you, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?

SPRING Skin Troubles

Mothers who have used Zam-Buk know how it cures Spring Skin Troubles in Children or Adults. Mothers who have not yet tried it should note these facts—Zam-Buk was unknown ten years ago, yet such is its merit that to-day it has become the standard salve in the homes of four continents! Zam-Buk is purely herbal; contains no poisonous coloring matter; is used by leading medical men; used in the British Army and Navy; used by all best fitted to know the needs of the skin. Make it your family balm!

Mr. J. C. Bates, of Burks Falls (Ont.), says: "Zam-Buk cured my three children, who were all broken out in sores to such an extent that it was pitiable to see them. These sores had defied all remedies previously applied, but I am glad to say Zam-Buk healed them."

Miss S. G. Hamilton, of Alliston (Ont.), says: "My face and hands were one mass of pimples and blotches. These would itch, and when rubbed, broke out into sores. Whenever I put water near the affected parts it caused a stinging sensation and much pain—just as if I had been scalded. Nothing that I applied seemed to do me any good until I tried Zam-Buk. That gave me relief, and a few weeks of the Zam-Buk treatment resulted in a perfect cure."

Zam-Buk cures pimples, skin eruptions, cuts, burns, bruises, piles, festering sores, ulcers, blood-poisoning, eczema, ringworm, bad leg, diseased ankles, and all skin diseases and injuries. Rubbed well into the parts affected, it cures neuralgia, rheumatism, and sciatica. All Druggists and Stores sell at 50c. box, three for \$1.25, or post free from Zam-Buk Co., Toronto, for 50c.

GENERAL NOTES

Colonel Roosevelt has gone to hunt wild beasts in Africa. General Castro will return to Venezuela and seek to regain his lost power. Count Zeppelin's airship made flight of 153 miles carrying 26 passengers. Many people are leaving Ontario to settle in the Northwest. Contracts have been let by the P.R. for part of their new line from Weyburn to Lethbridge. It is said that the promoters of the Great Northern railway have already divided amongst themselves \$407,000,000 in profits. Fred. A. Lee, the absconding teller of the Northern Crown bank at Saskatoon, was captured at Los Angeles. The C.P.R. has started an immigration campaign in the United States to secure settlers for the irrigated lands in Alberta. Andrew Carnegie denounces the augmentation of navies by the world powers. C.P.R. mechanics at Winnipeg are asking for a clear 24 hour's rest during the week.

Dr. Pierce's Favorite Prescription

Is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women. It is a safe medicine in any condition of the system. THE ONE REMEDY which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants. THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle-wrapper and attest to the truthfulness of the same under oath. It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine of known composition. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. See that you get what you ask for.

Hon. Rodolphe Lemieux condemns the system of using political influences in appointments to positions on the Intercolonial railway. Until Anne of Bohemia's time, women rode astride. On account of her deformity, she had to use a side saddle, and the women of her court, to flatter her, adopted a saddle of the same make. Manitoba and the Federal government are unable to agree in respect to the enlargement of the boundaries of that province. Billie Whittie, the 8-year-old boy of Sharon, Pa., kidnapped from school, has been returned to his father after the payment of \$10,000 ransom. A man and woman have been arrested and charged with the kidnapping.

be widely separated by mountain ranges and the ores occur in different formations. These belts of mineralization continue for considerable distances in a definite direction, and the ores may occur in fissure veins where they lie in granitic rocks, and where the belts intersect, sedimentary rock, such as lime stone, they are irregularly deposited.—Mining Science.

NOTICE IS HEREBY GIVEN that, thirty (30) days after date, I intend to apply to the Hon. Chief Commissioner of Land and Works for a licence to prospect for coal and petroleum on the following described lands, situate in the Greenwood District. Commencing at a post about ten (10) chains south of the northwest corner of lot 422, pre-emption, thence east eighty (80) chains, thence south eighty (80) chains, thence west eighty (80) chains, thence north eighty (80) chains to place of commencement, and containing 640 acres. Dated this 15th day of March, 1909. D. A. MACDONALD

MINERAL ACT. Certificate of Improvements. NOTICE. Springdale and Mavis Mineral Claims, situate in Greenwood Mining Division of Yale District. Where located: 18 Skyline Camp. TAKE NOTICE that I, Edmund T. Wickwire, Free Miners' Certificate No. B14251, intend, sixty days from the date hereof, to apply to the Mining Recorder for Certificates of Improvements for the purposes of obtaining Crown Grants of the above claims. And further take notice that action, under Section 37, must be commenced before the issuance of such Certificates of Improvements. Dated this 20th day of February, A. D. 1909. EDMUND T. WICKWIRE.

WORTH TAKING One ounce Fluid Extract Dandelion; One ounce Compound Salatsin; Four ounces Compound Syrup Sarsaparilla; Mixed and taken in teaspoonful doses after each meal and at bedtime, as stated by a prominent physician to give most excellent results in kidney or urinary affections, and also in rheumatism and sciatica. The mixture opens the clogged pores of the kidneys, thus aiding them in the work of filtering all waste and poisonous matter from the blood, and expels these in the urine. To allow this poisonous matter to remain means that it will settle in the muscular tissues or joints, and cause the untold misery known as rheumatism. The mixture is composed of harmless vegetable ingredients which can be purchased at any good drug store, and mixed at home. Anyone suffering from any of these affections will be glad to be pleased to learn of so simple and highly recommended remedy.

Summary of Canadian North-West HOMESTEAD REGULATIONS. A Railway Belt in British Columbia may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less. Entry must be made personally at the local land office for the district in which the land is situated. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister, of an intending homesteader. The homesteader is required to perform the conditions connected therewith under one of the following plans: (1) At least six months' residence upon and cultivation of the land in each year for three years. (2) If the father or mother, if the father is deceased, of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother. (3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land. Six months' notice in writing should be given to the Commissioner of Pensions, Lands and Grazing of intention to apply for patent or transfer. Coal—Coal mining rights may be leased for a period of twenty years at an annual rental of \$1. per acre. Not more than 250 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined. W. W. CORRY, Deputy of the Minister of the Interior. N. B.—Unauthorized publication of this advertisement will not be prosecuted.

The oven does the baking, the fire-box controls the oven heat, and the grates hold the coal or wood that produces the heat, so THE GRATES are important. Sask-alta Range Double Duplex Grates. "Sask-alta" Double Duplex Grates are made in four pieces, each grate shaken separately. Ashes over one grate can be shaken without wasting good fuel over other grate. No poking necessary, thereby saving fuel. Dampers at both ends of fire-box secure perfect drafts. When grates are inverted for wood a patent clamp retains them in position. The easiest-working way is the surest-serving way—and that's "Sask-alta" way. McClary's London, Toronto, Montreal, Winnipeg, Vancouver, St. John, Hamilton, Calgary

Everybody Agrees that COD LIVER OIL and IRON are beyond question the greatest medicines known. Then why does not everybody take the Oil and Iron? Simply because most people cannot take the Oil and Iron in any ordinary form. These difficulties have been entirely removed by the introduction of FERROL, in which the Iron is scientifically combined with the Oil, rendering the Oil palatable and the Iron digestible. While FERROL is manufactured from the best quality of Cod Liver Oil (the whole of the Oil) and is richer in oil than any other emulsion, and while it contains just the right quantity of the best form of Iron and Phosphorus, it is so scientifically prepared that not one error in a thousand finds any trouble in taking it, and infants digest it without difficulty. Moreover the well-established value of the Oil and Iron is immensely enhanced by the process of manufacture, and as the formula is freely exposed it is not to be wondered at that physicians everywhere have fully endorsed FERROL and used it largely in their practice. FERROL is invaluable for the treatment of any kind of Lung or Bronchial troubles, while for wasting diseases it has no equal, and "You Know What You Take" BOVRIL the kitchen economist. Much of the left-over food that is thrown out can be turned into delicious dishes by the addition of a little Bovril. It gives warmed-over meats the juiciness of the original cooking. It gives body and strength to soups and gravies. It gives a delicious, piping flavor to cold meats and hashens. Every day you will find Bovril a help and an economy in your kitchen. Bovril contains the essence, flavor and nutrient substance of the very best beef. It gives strength and nourishment to the invalid, and happiness and economy to the cook. All good grocers sell BOVRIL.
