Insurance Bill is Hurried in Committee

PAYMENT TO GOVERNMENT

WILL COLLECT ON BUSINESS DONE BY FOREIGN COMPANIES IN CANADA—LIBERAL SENATOR'S CHEAP AND BILLY SNEER AT THE MILITIA.

OTTAWA, May 15—Rapid speed was made with the insurance bill this morning. Prior to taking it up Mr. Fielding introduced a resolution declaring it expedient that in the case of insurance on property in Canada, the company effecting such shall pay to the government a sum equal to 15 per cent of the total net cost of insurance so effected.

In the discussion which ensued doubt was expressed as to whether parliament had power to impose such a tax. The resolution carried and the house went into committee on the bill. Sixty classes out of 192 were passed by 1 o'clock.

In the senate yesterday senator Davis resumed the debate on his bill to transfer the chartering of railway from parliament to the railway commission and the state department.

HON. AUGUSTINE SIRRELL'S OPINION ON IMPERIAL DEFENCE—ONE COLONY HAS NOT YET ACCEPTED INVITATION TO THE PROPOSED CONFERENCE.

(Canadian Associated Press) LONDON, May 15—Hon. Mr. Birrell, secretary for Ireland, at a dinner given by the Bristol chamber of commerce, in proposing ships, colonies and commerce, and he rejoiced to feel that representatives of the colonies were coming over to consider the whole question of naval defences.

One of the speakers expressed the opinion that no help toward the desired end can be expected from the Roman Catholic church until the idea of a primacy at Rome supplants that of the papacy.

Bishop Doane of Albany thought that visible church unity is not likely to be realized.

A review of the congress was given tonight by Rev. E. T. Sullivan of Newton, editor of the Church Militant.

Mr. Sullivan said: "The congress was one of the most successful sessions of recent years, both in point of attendance and in the quality of the papers and addresses. Many views in one spirit rather than two were held in many spirits, as Phillips Brooks once said, is the only kind of unity that any church should have. This principle was abundantly illustrated at this congress. The Episcopal church showed that it held very many views in one spirit on every subject that came up for discussion. The two most live subjects were gambling and psychotherapy."

Dr. Dartnall of New York flatly declared that healing was no business of the minister and Dr. McCabe of St. Paul, declared that doctors were sending their patients to his church to be healed. He declared that the attitude of the doctors was that if people cannot be cured in the orthodox way they could not be cured at all. The clergy were in flat opposition to each other on this subject.

It was a unique feature of this congress that the operations on the stock exchange were put before the people of the Episcopal church as largely beneficent and orthodox and that it was only an exceedingly small part of the transactions that were illegitimate.

BRITISH BLUE JACKETS DEFEAT ALLIES IN REGATTA

VICTORIA, May 15—The British blue jackets outwitted their allies of the Japanese navy in the regatta held at Esquimalt this afternoon in the rain. Following a luncheon given by British naval officers at the navy yard to Admiral Ijichi and his staff a regatta was held on the harbor, and in the main events the crews from the H. M. S. Shearwater and Algeria were first and second. The bands of the flagship Aso and the fifth regiment played during the afternoon and an interesting entertainment consisting of imitations of Gaiasha dances and burlesques on old Japanese plays were given on a floating platform by Japanese blue jackets. Admiral Ijichi had planned to remain at Esquimalt until Tuesday morning, but owing to arrangements being completed for a reception at Vancouver on Monday evening it was decided to leave on Monday morning and a reception will be held by the Admiral on board the flagship Asoya tomorrow afternoon. Official calls were made by Lieutenant-Governor Dunsmuir, who proceeded to Esquimalt on his private launch Dolara and the American and German consuls today, the Lieutenant-Governor being received with a salute of ten guns and the consuls with seven guns. Tonight an official dinner was tendered to Admiral Ijichi and the staff of officers by Lieutenant-Governor Dunsmuir at government house.

NEW FREIGHT RATES TO SPOKANE DEFERRED TILL JUNE 1

ROADS TO SUBMIT PROPOSALS TO COMMISSION FOR APPROVAL

(Special to The Daily News.) SPOKANE, May 15—A Washington special says that under the last ruling of the interstate commerce commission the rates affecting Spokane will be simultaneously announced by the railroads affected and by the commission on June 1.

The Great Northern, the C. B. & Q. and the Northern Pacific, have been given to May 20 to formulate and submit to the commissioners for their approval a comprehensive rate list on commodities and upon class rates.

The commissioners, when this rate schedule is received, will digest it and approve or disapprove it, as may seem to be to the best interests of Spokane and vicinity in the judgment of the commission. They will render a decision on June 1.

Cornell Defeats Princeton

ITHACA, May 15—Cornell won a decisive victory over Princeton here today in track athletics making 76 1-2 points to the Tigers' 40 1-2. The feature was a record hammer throw by Talbot, 167 feet 4 inches. This feat beats the intercollegiate record but will not be allowed because it was not measured with a steel tape.

PROF. GRAHAM BELL DISCUSSES FORM OF FLYING MACHINES

WILL OFFER PERFECTED MACHINE TO BRITISH GOVERNMENT

NEW YORK, May 15—Professor Alexander Graham Bell, inventor of the telephone and experimenter in flying machines, called today on the aviator Cedric for England. "The Silver Dart will not be entered in the competition arranged by the London Daily Mail," the professor remarked, "because my fellow workers, Douglas McCurdy and W. P. Baldwin remain at Baddeck, N. S. for considering experiments. They are at present building a larger machine which they will offer to the Canadian government or to the government of Great Britain if the Canadian government does not need it."

"I believe the Silver Dart is superior to some mechanical points to the machine devised by the Wright brothers. It was due to the skill and experience of the aviator that the Wright brothers have had such admirable success with their machine." With regard to his experiments with tetrahedral machines, the professor said he had not been able as yet to give a successful demonstration because he was unable to secure a suitable engine, but that he had succeeded in showing that the tetrahedral machine could be floated as a kite. This afforded a platform in mid-air on which experiments could be conducted.

Discussing the type that will prove to be the airship of the future the professor said there was room for all types. "There is no reason why there should not be as many types of air ships differing in various respects as there are now different kinds of live creatures flying through the air," he said.

PROVISIONAL BOARD OF DIRECTORS ELECTED LAST EVENING

PLEDGES ARE STILL COMING IN—CO-OPERATION ASKED FOR

At a representative meeting of the friends and supporters of the Y. M. C. A. held at the campaign headquarters last night a provisional board of directors was elected as follows: J. Laing Stocks, E. B. McDermid, Dr. N. Wolverson, W. W. Waidie, Judge J. A. Forin, J. R. Hunter, W. A. Thurnham, H. E. Hill, Joseph Patrick, W. E. Davidson, R. W. Hulbert, A. G. Lambert, A. T. Walley, G. H. Playie and Fred Irvine.

The trustees met following the public meeting and elected J. Laing Stocks president; E. B. McDermid, vice-president, George H. Playie, recording secretary and W. Waidie, treasurer.

Pledges continued to come in and the trustees will proceed to get plans for the building as soon as the canvass is finished. Now is the time for all those who intend to give and have not to show their co-operation. More money must be raised to cover possible shrinkage. The directors ask every one in Nelson to assist in making this building and organization a credit to the city.

Paris Strikers Reduced in Numbers

BUT ARE STILL RESOLUTE

LEADERS FRANKLY AVOW THAT THEIR PURPOSE IS TO FORCE REVOLUTION—POSTAL STRIKE HAS FAILED BUT REMNANT HOLDS OUT.

PARIS, May 15—A tone of defiance, of desperation, marked the meeting of strikers tonight when despite the return of postal employees to work, they voted to keep up the strike struggle to the bitter end, at the same time calling on all comrades in France to strike on Monday.

Several speakers boldly declared the movement was now purely revolutionary. The meeting ended with an accompaniment of many shouts of "long live the revolutionary strike." M. Pauron, one of the postal leaders, issued a warning that all postal employees who refuse to work on Monday will be forced to pay dearly for it.

The federation of building workers and street diggers tonight voted for a general strike leaving the date to the committee. Notwithstanding the support promised from this end and other quarters the general opinion is that the situation will be normal on Monday unless the various labor organizations enter upon sympathetic strikes.

The cabinet today considered the strike of the postmen and approved the dismissal of 313 additional employees accused of inciting to revolt. According to official statistics 331 postmen in Paris returned to work today. This leaves 1817 still on strike out of a total of 24,466. There are less than 300 men out of work in the provinces.

NUMBERS EXAGGERATED

TOTAL OF VICTIMS IN MASSACRES ABOUT TEN THOUSAND

SUGGESTION CAME IN AN ORDER FROM CONSTANTINOPLE

ADANA, May 15—The estimate of from 19,000 to 25,000 Christians killed by Mohammedans in the province of Adana, made a fortnight ago, must be revised. It is now ascertained that the number was hardly more than 10,000. Thousands who were supposed to have been killed in the country districts have since come into some of the larger towns for relief. Nearly 60,000 persons have received assistance from the foreign and Turkish relief committees or officials at Adana, 22,000 at Marash, 14,000 at Hadjin, 3,000 at Mersin, 2,000 at Latakia, 4,000 at Laurus and a comparatively large number at Antab and Alexandretta. Fugitives from the villages and settlements exaggerated in their fears the extent of the slaughter. There still remains, however, the fact that frightful brutality was practiced especially towards the women. The Mohammedan figures of about 2000 Mohammedans killed in this province must also be reduced.

A total of 22,000 refugees were fed in this city yesterday. Four hundred wounded and other persons are being cared for at the American and other hospitals in Adana. It is estimated that 4000 out of the total number of refugees are ill and 400 of these are suffering from measles, dysentery and typhoid fever.

SCHEME HAS BEEN SUBMITTED FOR RESUMPTION OF OPERATIONS AT MARYSVILLE PLANT—ORE SHIPMENTS FOR PAST WEEK.

(Special to The Daily News.) FROZEN, May 15—The board of conciliation, composed of judge Wilson of Cranbrook, John McInnes, M.P.P. of Inverell and John Cronyn, a barrister of Toronto, appointed to investigate the differences between the B. C. Copper company and its mine employees, under the Lemoine act, concluded its sitting in Greenwood this week, the commissioners forwarding individual reports to the department of labor at Ottawa.

The arbitration has not resulted in a settlement. While no strike has been officially declared by the miners, the mine being closed at present, it is undoubtedly their intention to do so at any time the company makes an effort to resume operations.

H. B. Walkem, assistant divisional engineer of the C.P.R., arrived in town this week with a crew of assistants and immediately commenced work on the running of a line for a 12-mile spur to reach certain properties of the B.C. Copper company. The proposed spur will run from a point two miles east of Hazelton Junction, going south through Wellington and Central camps and across the international boundary line to the Lone Star mine in Washington state.

The grading for the track to the B.C. Copper company's Jack Pot mine, in Wellington camp, a distance of three miles, will be commenced as soon as the engineer has located the route and for which it is stated W. P. Tierney and company, contractors, have already taken the contract. There are some 75,000 tons of ore on the dump at the Jack Pot mine and as the ore is of good grade the company is anxious to commence shipping as soon as operations resume at the smelter.

The surveyors will also run a line to the No. 7 mine in Central camp and to the Lone Star in Washington. Comparatively easy grades can be obtained for the road and there are some 200,000 tons of ore in sight at the No. 7 mine, while the Lone Star has been a regular shipper to the Greenwood smelter but on account of the ore having to be handled by the two railroads the freight was too high. Under the proposed route the C.P.R. will handle all the ore via Elliot.

BOUNDARY SHIPMENTS

Quantity of ore shipped from the B.C. Copper company's mines in the past week was 2,721 tons, valued at \$1,022,000. The following are the ore shipments for the past week and year to date:

CHICAGO, May 15—Advancing civilization is bringing increased insanity in Japan according to Dr. K. Saito, director of the Aojama hospital for the insane in Tokio. "Fifty years ago," he said, "insanity in Japan was very rare. Thirty years ago it began to increase and after the China-Japan war there was a further increase. The increase was even more marked after the war with Russia. I believe that as civilization advances in Japan, insanity becomes more general, due to the struggle for existence."

AURORA BOREALIS

Something About the Northern Lights Frequently Seen Here

The Aurora Borealis, or Northern Lights, which was responsible for the strange illuminations of the sky on Thursday night is described in one of the latest works upon the subject as being a luminous meteor of great beauty which is seen in the northern sky, taking the form of streamers, arches, or patches which vary in shade considerably, being sometimes smoky black or steel grey, and at others brilliant yellow, green, violet or fiery red. As usually seen the aurora commences with the formation of an arch with its apex to the magnetic meridian.

Auroral displays are most frequent and brilliant in relatively high latitudes, the zone of maximum frequency being between latitude 50 and 60 north. Nelson is located between the 49th and 50th degrees and the city is thus just on the borderline of the zone where these displays are most frequently to be observed. Auroral displays are most often seen, states the authority quoted, in April and October and most seldom in June and December.

The generally received theory is that the phenomenon is due to the ascent of positive electricity from the inter-tropical surfaces, which flows towards the poles, whirled by the higher aerial currents. In the region of the poles it descends towards the earth and comes in contact, in a highly rarified atmosphere with the terrestrial negative electricity, which results in the luminous discharges. Intimate relations exist between sun spots, magnetic storms and auroras, the appearance of a large spot on the solar disk being almost invariably accompanied by a magnetic storm in all parts of the globe. During magnetic storms auroral displays usually take place but not all auroras are coincident with magnetic disturbances. An instance of the electrical disturbances which generally occur about the same time as the Northern Lights become visible is the telegraph. This instrument reflects electrical changes in a remarkable degree and the transmission of messages during the duration of an aurora becomes a matter of difficulty owing to the vibration and irregular actions of the magnetic needle.

PRINCE RUPERT, B. C.

The first sale of Prince Rupert lots will be held at Vancouver, British Columbia, May 25th to 29th, 1909. Prince Rupert is the western terminus of the Grand Trunk Pacific Railway. The sale will be held in the interests of the Grand Trunk Pacific Company and the Government of British Columbia; half of the lots offered being owned by each party. From 2,000 to 2,400 lots will be offered.

The sale will be held by auction and the terms of payment will be one-quarter cash and the balance in one, two and three years, with interest at six per cent. Agreements will be executed immediately on payment of the first installment and purchasers may enter into possession at once.

Titles are absolutely indefeasible, which means that the government of British Columbia guarantees all titles.

MODERN HOME DECORATION

A Series No. 5
 THE HALL.

Exclusive Rights Owned by This Paper

"A hall! A hall!"—Romeo and Juliette.

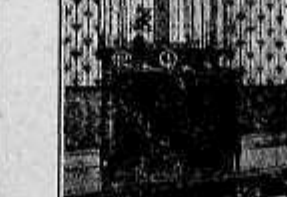

The hall is of very ancient origin. In earliest Saxon times the palace consisted of one large hall in which the king, his courtiers and all his retainers dwelt together, eating at the same table and sitting around the same fire and one other chamber in which the king and his courtiers slept while the retainers slept in the hall. In the 14th and 15th centuries when England was more prosperous and manners more refined, numerous apartments became necessary, the hall, however, still remaining the chief apartment. The lord of the manor and his guests dined at a table placed on a raised platform at one end of the hall while his retainers occupied a table which ran along the lower end and this too was their sleeping apartment.

Although the sanitary conditions of this lower end was not such as would be tolerated at a later date our forefathers appear to have been fully cognizant of the fact, for on account of the uncleanly condition of this portion of the room they facetiously dubbed it the "marsh."

With increased wealth and refining influences the various apartments which are now in common use in the

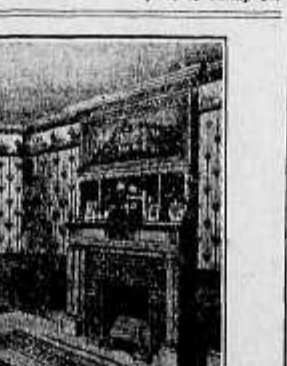

home were partitioned off from time to time till what finally remains of the hall is used only as a reception room or has in many cases degenerated into a wide passageway connecting the various rooms of the house and from the lower floor of which the staircase ascends.

One of the main features of the colonial architecture was the large reception room, also utilized as a living

room. In the revival of this style of architecture which has been so easily adapted to our modern requirements the square hall forms a very important component part. It contains a good sized fire place which diffuses warmth

and comfort throughout the house, a cosy loggie hook will add much to its attractiveness. On its hardwood floor of oak or maple Oriental or Axminster rugs are spread, which may be easily removed and cleaned, thus keeping the house clear of much of the dirt which is inevitable where carpets are used. In a country home the furniture may be of light willow, while the decorations may be of burlap for

the lower half of the wall, while above a brighter paper of unconventional design such as a forest or floral tapestry may be used. This will compose a delightful treatment. In the city hall more dignified and

stately effects are preferable. In this above all other rooms it is very necessary to use a durable material, especially for the lower part of the wall, for it is here that much wear and tear comes and damp clothing brushing on the walls will quickly ruin a delicate paper. Where the hall is reasonably well lighted the dark shades of red, green or brown are decidedly effective.
 A dado of burlap, German leather or the darker shades of sanitas are excellently adapted for use on the lower part of the walls and this may be "strapped" with vertical pieces of wood running from the baseboard to the chair rail which separates the dado from the paper above. The woodwork may be given any of the oak treatments or finished in walnut.

The paper in our illustration is an Art Moderne rendering of Gothic suggestion and one which is peculiarly adapted to use in the hall. Its exquisite colorings and the boldness and graceful treatment of the pattern are all that we desire both in tone and design. The hanging is cut out at the top along the most distinctive lines of the pattern and a filler of cream print grass cloth or burlap paper is run behind the cut out and this filler is carried up to the cornice or ceiling.
 The beautiful leather effects shown in similar designs are very suitable for the hall. These may be used for a dado or if desired can be hung over the entire wall as they will withstand the assaults of daily use better than the papers of ordinary finish.

The vestibule may be given an entirely different treatment to the hall within. A leather paper of small design may be used for the lower half of the wall and above may be another leather of contrasting color or a metal effect in rich tones of bronze and gold. A chair rail dividing the two papers.
 For an ordinary hall an appropriate design in ordinary paper in the darker colorings is often used and with this may be hung an 18-inch matching fringe. The staidness and character of these conventional designs find favor with many for the decorations of the hall.
 Above all make your hall bright and cheery or this to a greater extent than perhaps you are fully aware will help to welcome the coming and speed the parting guest.

N.B.—The last article of this series will appear next Sunday and will have to do with the parlor.

EMPIRE DAY CONCERT

Program of Entertainment to be Given by School Pupils

The arrangements for the Empire Day concert in the public school are now complete. The teachers and pupils had been disposed to charge only a very small admission fee, but the trustees having decided that there are many prospective users for the resulting revenue, have fixed the price of tickets at admission at fifty cents.

As will be seen from the program, the numbers are almost exclusively of the popular kind and are all of either the high or the public school.

The program will be as follows:

- PART I.
 1.—William's Graduation.
 2.—Mans 206, "Canada," Miss Maud Simpson.
 3.—Chorus, by school. Address, Rev. P. H. Graham.

LABOR PROBLEM

The action of the American Smelting & Refining company in posting a notice at its Murray smelter, where a strike is in progress, notifying all Austrians, Greeks and Italians in the employ of the company to draw their pay and consider themselves discharged, carries a significant warning to natives of these countries generally who have sought their fortunes in the new world. The mind of the average worker from southern Europe has been so trained in his native country as to give him the idea that any crisis committed in the name of liberty is justifiable and he is therefore more apt to take extreme revolutionary measures when involved in an industrial dispute than is a laborer of Anglo-Saxon origin.

Whatever may have been the motives of the American Smelting & Refining company in the action taken, there can be no doubt but that it is in the interests of law and order in that particular district. The course adopted, however, is of general interest and nowhere more so than in this country, for there is an ever-increasing number of laborers of the class referred to pouring into western Canada. These men are easily influenced by designing agitators and should the same degree of industrial unrest be created in this country that now exists in certain portions of the western states, Canadian employers may be forced to follow the example of the American Smelting & Refining company and rid themselves of a class of labor so easily stampeded by irresponsible agitators.

EASTERN IGNORANCE

Just how far the Montreal Star, the most widely circulated paper in Canada, understands the Asiatic question as applied to this country is shown by the following editorial utterance:

"The New Zealand journalist who expressed his amazement that we had permitted the Asiatics to get such a hold on our Pacific coast, and then added that in New Zealand they considered domestic interests before might else, pronounced his problem and gave his answer in a breath. The Asiatic problem is not the same thing in America that it is in Australasia. There is no real danger that America will ever become Asiatic, while there is a very real danger that the hordes of Asia may some day overrun the Australasian colonies."

The Star, while admitting that there is a possibility of Australasia being overrun with Asiatics, thinks there is no danger of the same thing occurring in America. This may be quite correct as applied to America generally, but how does it apply to the portion of North America west of the Rocky mountains? Who is there who knows anything about British Columbia and the western United States who will say that, were the Japanese, Chinese and other Orientals allowed to enter Canada and the United States, there would not be as much danger of their overrunning this wretched portion of

America as there is of their doing so in Australasia? Because that, even with the free entry of Asiatics, Montreal and eastern Canada generally would not be likely to be overrun with these races. The Star apparently thinks there is no danger whatever to this country from this source no matter what restrictions there are on immigration of this class or whether there are any at all.

The Star sees fit to disregard the fact that, even with what restrictions there are in force in this country, there are no less than 35,000 Asiatics in this province out of a total population of 200,000 and that, were it not that public feeling in this province made itself felt a year ago, there would now be many thousands more. As it is, Asiatics have driven white labor out of many of the humbler forms of employment. For example, Japanese have driven white labor out of the coast fisheries, while the Chinese largely control the domestic labor market and Asiatics generally provide a large portion of the labor in the sawmills of the country, particularly at the coast. Were Asiatics allowed to come into this country as they desired, as The Star seems to think they should, white labor would be actively driven out and it would be only a question of time until British Columbia would become a yellow man's instead of a white man's country. A little thought would convince The Star of the danger to this country which would follow the free admission of Orientals.

EDITORIAL NOTES

The Montreal Star forgets that there is such a province as British Columbia on the map when it undertakes to discuss the question of Asiatic exclusion.

The people of New Zealand and Australia have the same problems to face in regard to Asiatic exclusion as have the people of British Columbia and their views on the matter are identical with ours.

The appearance of many lawns in Nelson is spoiled these days by the number of dandelions in bloom which they contain. Owners of lawns so affected should take steps to eradicate the pest.

The suggestion has been made, and it is one worthy of consideration by the city council, that the four blocks east of Kootenay on Baker street, instead of being swept, should be cleaned with hose. This, it is said, is done in other cities and, with the excellent water pressure and the abundant supply of water for the purpose that Nelson possesses, should be a success here.

The Canadian Press association has abandoned its proposed excursion to British Columbia this year. This is too bad. If the editor of The Montreal Star and some other pen wielders of the east who hold opinions on the question of Asiatic immigration had visited this province as was proposed they would have had an opportunity of looking into conditions as they exist and might have been led to change some of the conclusions which they have in ignorance of the facts arrived at.

Strikers Clash With Police

CLEVELAND, May 15—Two hundred strike sympathizers battled with 15 special policemen and seven patrolmen on south Water street today to pre-

vent the latter from escorting 20 strike breakers from the Erie station to the shipping headquarters of the Lake Carriers' association. Thirteen of the strike breakers refused to abide by their agreement and joined the strikers. Three men were injured by sticks thrown during the struggle and it was necessary to turn in a riot call before the crowd dispersed. Six men are under arrest.

Seized Vessel Sold

VANCOUVER, May 15—After some spirited bidding the former American fishing schooner Francis Cutting, was bought at public auction at noon today by George Dingham for the sum of \$1250. The vessel was seized last year by the Keenel while poaching halibut and was sold by the admiralty at Heatley avenue wharf.

Five small children in the family of Harold G. Clarke of 1244 Haro street, were taken seriously ill on Thursday night with ptomaine poisoning, the result of eating ice cream in cones which they bought of a Greek peddler. The police were informed of the matter and will round up the peddler.

Superior's Toll of Life

SAULT STE MARIE, May 15—Capt. A. A. Hatten of the steamer Cariboo, which arrived here from the north today reports that Robert McMenomy, keeper of the light house at Otterhead on the north shore of Lake Superior, and a man named Wilson, who started a week ago for Herron bay for supplies are missing. A fierce gale came up soon after they left the light house and they are supposed to have been lost. Capt. Hatten also sighted on Thursday what appeared to be the captain's cabin of the lost steamer Aurora.

Murder and Suicide

SOUTH BEND, Ind., May 15—Chas. Rapp, who had considerable local fame as a baseball pitcher, tonight killed his mother and then committed suicide. He had been drinking and when ordered to leave off liquor, he got a hammer and after hitting her on the head, stabbed her with a butcher knife which he snatched from a table. When she fell Rapp gashed his throat with the same knife. The police found Rapp still conscious. At the hospital he stated that he had intended to kill the entire family.

Fast Time across Pacific

VICTORIA, May 15—The Holt liner Ning Chow, reached port tonight composing the fastest voyage she ever made across the Pacific, the time occupied from Yokosama being 13 days 20 hours. She brought 314 Chinese for Canadian points. Advice brought by the vessel state that another Holt liner of the Keenan class has been laid down on the Tyne and will be ready in 18 months for the Liverpool-Puget Sound service.

Economy

vs.

Extravagance

On the word of one of the wisest philosophers of the age, you may set it down as truth—that a man can better afford the most economical of extravagances than the most extravagant of economies.

It's Extravagant Economy to wear your old Glasses if they are not exactly suited to you.

We can show you whether they are, and it won't cost you anything to know.

YOUR BACKACHE WILL YIELD

To Lydia E. Pinkham's Vegetable Compound

Rockland, Maine.—"I was troubled for a long time with pains in my back and side, and was miserable in every way. I doctored until I was discouraged, and thought I should never get well. I read a testimonial about Lydia E. Pinkham's Vegetable Compound, and thought I would try it. After taking three bottles I was cured, and never felt so well in all my life. I recommend Lydia E. Pinkham's Vegetable Compound to all my friends."—Mrs. WILL YORNO, 6 Columbia Avenue, Rockland, Me. Backache is a symptom of female weakness or derangement. If you have backache, don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so safely and surely as Lydia E. Pinkham's Vegetable Compound. Cure the cause of these distressing aches and pains and you will become well and strong.

KELLY'S LIGHT IS OUT

BEATEN IN WHIRLWIND TIME BY BILLY PAPKE

FIGHT WENT ONLY HALF OF THE FIRST ROUND

SAN FRANCISCO, May 11—One minute and thirty seconds of a scheduled forty-five round contest was sufficient to demonstrate that Hugo Kelly of Chicago is no match in speed or skill with Billy Papke, the Illinois thunderbolt. At the end of this brief period, after half a dozen short rallies Papke stood unmarked, while Kelly lay unconscious in the centre of the ring, with a deep cut over his right eye and his chances for the middle-weight championship gone.

Time was called at 2:45 p.m. Papke knocked Kelly against the ropes and the latter hooked his right to the stomach. They went to close range, both fighting carefully at close quarters. Kelly swung short arm lefts and rights to stomach, Papke forcing Kelly to the ropes. A hard fight to the law put Kelly to the floor for the count of nine. A deep gash was cut over his right eye. The Chicago fighter came up very groggy. Papke lost no time in finishing matter. He laced out a right and left, catching Kelly in the point of the jaw. Kelly's head struck the floor with a smack. He lay prone, blood streaming from his right eye. He was quickly counted out by the time keeper but it was at least ten seconds before he regained his faculties.

Charles Kottly of San Francisco was given the decision over Jim Foley of Victoria at the end of ten rounds of fighting. This was the only preliminary to the Kelly-Papke contest.

GUN CLUB SHOOT

George Wells Again Gets Gold Button and C. H. Ink Silver

The gold button at the Nelson Gun club shoot yesterday was won by George F. Wells with a score of 45 out of a possible 50. C. H. Ink was the winner of the silver honor with 41 hits. The full scores were as follows: 50 birds—G. F. Wells, 45; C. H. Ink, 41; W. A. Ward, 34; G. Tierney, 38; C. Larson, 35; W. Davidson, 34; A. C. McCall, 32; R. Grubb, 34. 25 birds—J. Irwin, 18.

American Golfers Win

LONDON, May 15—The Meadowbrook polo players who have challenged the Hurlingham club for the American cup won a brilliant victory at the Froehampton grounds this afternoon. They defeated a team representing the Hurlingham club 13 to 2. This was the first appearance of the Americans in a match, and their play aroused great interest.

O'Brien and Johnson

PHILADELPHIA, May 15—Confident that he will be in fine physical condition for his bout with Jack O'Brien at the National Athletic club in this city next Wednesday night, Jack Johnson, the negro pugilist, today began the final preparations for the fight.

Wins Amateur Marathon

JERSEY CITY, May 15—James F. Crowley of the Irish-American Athletic club, New York, showed his remarkable powers as a distance runner again today by winning the New Jersey Marathon, an amateur event over the full distance, 36 miles and 860 yards from a field of 18 starters at West Side park. He finished a full mile ahead of Harry Jansen, of the Pastime Athletic club New York, in 3 hours 7 minutes and 18

seconds. Jansen's time was 3:14:41.

James Clark of the Xavier Athletic club, New York, finished third, half a lap in front of Frank Devlin of the Mott Haven Athletic club. The time was slow under the circumstances. To Crowley goes the double bronze figure representing "Conquest" valued at \$400 and donated by the New Jersey Athletic club. The trophy is a silver cup valued at \$200 and the third a bronze valued at \$175.

Fit Audience Found

NEW AVEN, Conn., May 15—Miss Emma Goldman was booked to deliver a lecture here last night on "Anarchists." The police decided that if she insisted upon speaking that she must talk to herself. Accordingly she was admitted to the hall where the meeting was to be held but her words were not allowed to enter. After waiting for some time she disgustedly left the hall and returned to her hotel and the outside crowd dispersed.

Coquelin's Son Injured

PARIS, May 15—Jean Coquelin, son of the late Renot Coquelin (Coquelin Aime) was seriously injured in an auto accident today.

"One Touch of Nature Makes the Whole World Kin."

When a rooster finds a big fat worm he calls all the hens in the farm yard to come and share it. A similar trait of human nature is to be observed when a man discovers something exceptionally good—he wants all his friends and neighbors to share the benefits of his discovery. This is the truth of nature that makes the whole world kin. This explains why people who have been cured by Chamberlain's Cough Remedy want to be the manufacturers for their neighbors, that others similarly suffering.

Object to Strong Medicines. Many people object to taking the strong medicines usually prescribed by physicians for rheumatism. There is no need of medicinal treatment in any case of muscular

or chronic rheumatism, and more than nine out of every ten cases of the disease are of the or the other of these varieties. When there is no fever and little (if any) swelling, you may know that it is only necessary to apply Chamberlain's Liniment freely to get quick relief. Try it. For sale by all Druggists and Dealers.

Worthless Notes for Any Amount Cash-ed in Quebec

ST. JOHN'S, Que., May 15—An amazing series of manipulations of the funds of the Banquet St. Jean was brought out today at the trial of Hon. P. H. Foy on a number of charges in connection with the wrecking of the bank. A "black list" of worthless paper was produced amounting to \$574,915, much of which was made up of notes discounted by Foy to his own credit, and which were signed by men of little worth. One transaction was exposed in which a bill for which had formerly been in Foy's employ had given the bank president notes to the extent of \$75,000, which had been cashed by Mr. Foy but were worthless. The bill when called stated that when he made

Friday afternoon the pupils of principal Sullivan's class in the public school presented their teacher with a pair of gold cuff links as a testimonial of their appreciation. The presentation was made by Miss Margaret McPherson. Harold Taylor expressed the regret of the class at Mr. Sullivan's retirement, their gratitude for his past service to them and their congratulations and good wishes for his future. Inspector Sullivan replied in a happy and cheerful manner, and thanked the class for their kind wishes and offering them of his own.

limited interest in their welfare and progress.

In yesterday's Princess Star appears a story of how a cow acted as mother to four lambs belonging to J. Thorne of that city. The mother of the little animals died and the cow, apparently touched by their condition, adopted them as her own and supplied them with the necessities of life.

J. A. Erickson and William Lynch answered to the roll call as representatives from Nelson at the twentieth annual session of the grand lodge of the Knights of Pythias which opened at Hazelton last Wednesday. Mrs. Martha Walker was present from the Nelson Pythias Sisters.

W. J. Pritchard, manager of the Aurora mine at Moyie, has made arrangements with the Canadian company for the use of their barges to carry ore across the lake from the mine to where it will be loaded on the cars for shipment. The barge will carry a carload of ore at a trip.

The following program will be shown at the Grand Theatre on Monday night in aid of the Y. M. C. A. building fund: "Dear Hunting in Canada," an excellent picture, very interesting to hunters; "A Mountain Feat," "Bostack's Monogote," showing all kinds of wild animals; "Electric Hotel," "Push Cart Race."

The big tunnel on the C. P. R. line near Field was successfully finished last week. The new tunnel has cost a sum of \$1,000,000 and will be handed over to the operating department of the railway in time for the inauguration of the double service on June 4. The grade by means of this tunnel is reduced from 6 per cent. to 2 1/2 per cent.

In yesterday's issue of The Daily News reference was made to "Judge" Tasse. This was a typographical error, the well known and popular Joseph Tasse being the person referred to. Joseph is not a Judge, although he has taken up the study of law in his early days there is no question but what he would have attained that honor. Perhaps this fact was in the mind of the printer when he made the mistake.

The revival services in the Salvation Army chapel by brigadier Adby, who is conducting a campaign through British Columbia, will be continued today. At 11 a. m. there will be a holiness service, at 2 p. m. the evangelist will preach on "Four

Small Things of the Bible," and at 7 p. m. on "The Worth of the Soul." Brigadier Adby is a fluent speaker and an excellent singer and the services so far have been well attended.

The Empire is getting on a very fine program of pictures Monday and Tuesday when "Over the Buck," a very fast and exciting horse race will be depicted. "Australian Sports" is another very fine picture showing log cutting competitions, etc. "Isaac, Pawawaw" is a very good biographic subject, and other pictures are "The Corvet and the Dove" and "A Leap Year Proposal," both splendid pictures. Alan Stewart will sing.

"The body of Michel Lohamp, an Indian who was murdered on Sept. 25 last, was found floating in the lake at Tranquille a few days ago in a terrible state of decomposition, since the Kamloops Standard. The Indians, however, had no difficulty in identifying the corpse as that of Lohamp. The body was buried and cut up and there were several marks which suggested violence. The police are making energetic efforts to find the murderer.

What might easily have been a verdict of "death from poison" was happily averted by prompt action in the case of Mrs. C. Steinfeld last week, says the Prince Rupert Star. It appears that she some canned fish food which had been allowed to remain in an open tin over night, resulting in decomposition. In a short time after partaking of the food the lady was seized with violent stomach pains which were relieved and danger removed by prompt attendance of the doctor, who employed the usual remedy in such cases.

Tomorrow evening there will be a meeting under the auspices of the Girls Mission branch and the Y. P. S. in St. Paul's Presbyterian church. Rev. Thorvald Præser and E. C. Lowery, string evangelists, who have been conducting a campaign in New Denver, will be present. Mr. Præser will deliver a special lecture on "China" and there will be a costume presentation of a missionary class in India. In addition, dialogues will be given and Mr. Lowery will take part in the proceedings. A hearty welcome is extended to all who may care to attend. A liberal contribution to the collection in aid of the funds of the missionary branch is requested. The prayer service will commence at 7:30.

Senate Protects Standard WASHINGTON, May 15—The senate committee on finance has decided to take action on the question of trade petroleum which was placed on the free list in the house bill and which was reported to the senate in that form. The house included the products of petroleum in the same case and the senate committee will recommend that the words "and the products" be stricken out. The effect of this if the amendment is adopted will be to make such products of petroleum dutiable in the Dingley law, the house and senate having specially fixed such rates on certain products of petroleum in each instance naming the articles.

Killed by Derrick SALT LAKE, May 15—Two men were killed and another seriously injured today when a large derrick employed in pile driving collapsed and fell across a high tension wire of the Utah Power company. The accident occurred at the Jordan river transfer station of the Utah Electric railway company. The derrick of a pile driver gave way and fell to the ground carrying with it a wire of 4000 volts. This wire fell upon Martin Waseion, employed at the station as assistant operator, and burst him to death while the frame of the derrick caught W. D. Prockleson and Andrew Weston, engaged in driving piles. The former sustained a fractured skull and died a few hours later. Weston escaped with serious injuries.

Death of F. Marion Crawford

"F. Marion Crawford died seated in a big armchair, gazing out of a window. Before him spread the beautiful Bay of Naples, into which a blood-red sun was sinking. It was one of those rarely beautiful Italian sunsets and the novelist drank in its superb coloring with all the appreciation of his artistic nature. His mind was perfectly clear. He was oppressed by no rocking pains. One of the family was reading in a low voice Plato's Dialogue on the Immortality of the Soul." In an interval they heard the novelist murmur: "I die with Jesus Christ" For

some time after that he sat quietly in his chair. Then as the sun was about to sink out of sight his family heard him sigh and say: "I enter peacefully into eternity." The sun disappeared. Marion Crawford was dead. The family was much affected by the solemnity of the scene. All were present except the novelist's eldest son, Sorrento shared in the family grief. All shops were closed and business is practically suspended. Everywhere are these manifestations of deep feeling. Eloquent articles appear in all the leading Italian papers."
