BUILDING OF Y.M.C.A. STARTS THIS WEEK

Smith & Buckland Will Supervise Construction Work—Day Labor Employed.

Construction work on the Westminster Y. M. C. A. building, for the erection and equipment of which the sum of nearly \$47,000 was subscribed three months ago, will be commenced this week, this having been decided upon at a meeting of the committee in charge of these arrangements held yesterday evening.

The preliminary work, including the taking of levels and the clearing of the lot, will be followed by the laying of the foundations and the building of the concrete and cement block walls. The work will be done by day labor, under the supervision of Smith & Buckland, contractors. C. H. Clow, architect, will act as clerk of the works.

The building will be 132 feet long by 54 feet wide, and will have a six-foot passage on each side, this space being left open for the admittance of light and air.

Treasurer E. L. Webber has at the present time something like \$13,000 in his care, and as another payment will be falling due shortly, this will be increased to well over \$20,000. A number of subscribers have offered, in order to facilitate building operations, to turn over the full amount of their subscriptions to the treasurer immediately construction work starts.

CANADIANS HOSTS AT BIG FETE IN BRUSSELS

Brussels, July 6.—W. Hutchinson, Canadian exhibition commissioner, and Thomas Cote, on behalf of the Canadian government, gave a brilliant fete in the Canadian section of the International exhibition last night. There were 800 guests in attendance. Cote made a stirring speech of welcome. M. Hubert, Belgian minister of labor, praised Canada as an immense and beautiful land of promise.

Automobile Driver Killed.

Indianapolis, July 6.—Thomas Kincaide, a well known automobile driver, was killed at the Indianapolis motor speedway this afternoon. He was on the track in a trial practice, when the car, a National, ran off the high embankment at the southeast corner of the course. He was caught beneath the wreck.

G. T. P. Engineer Killed.

Brockville, July 6.—Alex. Menzies, an engineer on the Grand Trunk, was killed this morning while oiling his engine. He was struck by an engine on the next track and cut to pieces. He belonged in Toronto.

NICKLE AND DIME STORE CAPITALIZED AT \$100,000

Toronto Men Who Started in Small Way Some Years Ago Have Amassed a Fortune.

Toronto, July 6.—There is money in small things. A few years since two young men by the names of Bowles opened up a little five and ten cent store in Toronto, and followed it up with another.

Their capital was very small and for a time they scrimped along on very meagre salaries.

Several days ago they measured up their success and concluded they could honestly capitalize the business at \$100,000. They spent a few days talking to brokers, but their careful souls balked at the idea of paying a commission. One of them took up the telephone book and called up a Toronto financier. The latter invited them to call.

The statements they put before this gentleman were of such a nature that he paid them par for a large stock of their shares, and suggested that they retain the stock control. He handed out a preliminary cheque for \$10,000. Five stores will be in operation within next week.

Russo-Japanese Convention is Part of Great Brotherly Love

St. Petersburg, July 6.—The Russo-Japanese convention, covering interests of the two nations in the far east, which was signed on Monday by M. Iswolsky, minister of foreign affairs, and Ambassador Monto, for Japan, expresses the sincere attachment of the two governments in the principles of the Russo-Japanese convention of July 13, 1907. It states that they desire, by the present instrument, to develop and perfect the arrangement of that treaty.

With the object of facilitating communication and commerce between the two nations, they pledge their friendly co-operation to the task of improving the service of the railroads

ROMAN COMES IN WITH RECORD CATCH OF HALIBUT

Speedy Boat Brings in 190,000 Pounds of Fish Caught in One Week—Unloading Today.

The Roman came in last night with about 190,000 pounds of fish, the largest catch she has so far made.

The boat was just out for one week, but the weather was exceptionally fine and the men were able to fish all the time.

The former catches of the Roman have mostly been in the neighborhood of 100,000 pounds, but the first trip she made she caught about 140,000 pounds.

This week's catch exceeds any former attempts by over 50,000 pounds. She will start to unload this morning and will probably leave again for the north tomorrow.

MACHINE SHOPS OPERATE WITH SMALL FORCE OF MEN

No Change in Strike Situation—No Proposition for Settlement Made by Either Party.

There were no new developments in the machinists strike situation yesterday, except that one or two of the strikers at the Schaake Machine works were reported to have gone back to work. Manager Henry Schaake, in speaking to a News reporter yesterday, stated that he thought that the men had been forced out by the union on the other side of the line and that any of the strikers who cared to come back at the old scale would be welcome.

The men on the other side of the boundary went out on June 1, but the British Columbia machinists did not want to go out and fought off the Americans for another month, but could come to no agreement either with the American union or with the shop proprietors by which they could stay in.

Mr. Schaake does not think that the strike will be of long duration. He has enough men now to handle all the absolutely necessary work and the spring rush orders have all been completed. He is firm in his stand and it is understood that the other employers here and in Vancouver have adopted the same attitude.

In the States, where the strike has been going on for a month, the employers are importing men from the east and claim that the back of the strike is broken.

The strikers, on the other hand, are confident that they will be successful. They claim that the shops cannot operate on a paying basis without them, and every day they are out means a big loss to the employers. All the non-union men available have been taken on in the States and the Canadian employers will have trouble in filling their shops.

CORRESPONDENTS LEAVE TO ACCOMPANY LAURIER

Ottawa, July 6.—Newspaper representatives who are to accompany Sir Wilfrid Laurier and party through Western Canada left today on the Imperial Limited, a special car being provided for them. They go as far as Port Arthur, where they will be joined by Laurier, Graham and others. The first meeting is to be held at Port Arthur. From there the party goes to Winnipeg over the Grand Trunk Pacific.

Sensation in Scandal Case.

Chicago, July 6.—A fresh sensation in connection with the legislative scandal arose today, when State Attorney Wayman announced that an indictment had been voted charging John A. Malloy, a grocer, with attempting to corrupt Oscar T. Morford, a juror, in the recent trial of Lee O'Neil Brown, who is charged with bribing legislators to vote for United States Senator Lorimer.

Laval Director Dead.

Quebec, July 6.—Manager Laflamme, a director of Laval university, died at noon today. He was born in 1849, and was recognized as an authority in educational affairs of the province.

and agree to abstain from all harmful competitions. They express the determination to observe the status quo in Manchuria as defined by their treaties, conventions and other existing arrangements between Russia, Japan and China.

The convention contains a clause providing that in case events occur of such a nature as to menace the status quo, the contracting powers will enter each time into communication with the object of agreeing on measures for the maintenance of the status quo.

The technical agreement regarding traffic rates and other details of railway administration is not yet ready for publication.

APPETITE FOR FRUIT BRINGS BOYS TROUBLE

Auditor Cotsworth, Annoyed at Depredations, Insists on Damage Being Settled

The letter from Thomas Turnbull which was read at the council meeting on Monday night, and which inquired about certain alleged actions of members of the police force, has not yet come before the police commissioners, but the facts of the matter referred to in it became known yesterday.

Boys Get Busy. Auditor Moses B. Cotsworth is mixed up in the trouble. It appears that he owns a house and lot in the vicinity of Seventh street. The house is unoccupied, but there are several cherry trees on the lot and during the past few weeks these have received much attention from the boys of the neighborhood. Mr. Cotsworth reported the matter to the police and Constable Pentland went up to investigate. He reported that about forty dollars worth of damage had been suffered by the trees, and he made inquiries which resulted in him finding out the names of about fifteen boys who had been patrons of the cherry trees.

These names were handed in to Chief of Police Bradshaw, who notified Mr. Cotsworth, and asked him if he wished to prosecute. Mr. Cotsworth is said to have stated that he did not wish to give the boys, who are very young, a police court record, but he wanted the business stopped and would be satisfied if the matter were called to the attention of the parents by requesting them to pay a portion of the damages. He is reported to have mentioned one dollar as the sum he would be willing to receive from each culprit.

Constable Pentland carried this ultimatum to the parents of the children. He is said to have told them that if they did not pay one dollar to Chief Bradshaw for Mr. Cotsworth, or to Mr. Cotsworth at the Russell hotel, the boys would be prosecuted.

One or more of the parents paid the amount asked but some of the others objected, and Mr. Turnbull's letter to the council was an evidence of one of the objections.

They claim that the trees on Mr. Cotsworth's lots had been damaged by bigger boys than those whose names Constable Pentland secured. The officer happened to catch some of the little fellows, who gave him the names of all the small boys, but did not tell or did not know who the others were. The parents further claim that the question of damages should be settled in the civil court and not fixed by the police or Mr. Cotsworth, and if the case were any damages to pay they should not be collected by threats to prosecute.

Chief Bradshaw claims that the money was not extorted by threats, but the matter of prosecution was optional with Mr. Cotsworth. The police acted in the matter in order not to have the boys appear in the police court.

The police commission will probably hold a meeting in the course of a few days, when the whole matter will be threshed out.

SECOND FIRE THIS WEEK DOES DAMAGE IN NELSON

Blaze in C. P. R. Oil Station Endangers Nearby Cars and Buildings. Damage About \$6,000.

Nelson, B. C., July 6.—Following yesterday's spectacular fire, another alarm was sounded at 12:15 p. m. today by the whistles at the C. P. R. shops. It was found that the Dominion government quarantine station for live stock was in flames, possibly started by sparks from a passing engine.

The buildings are situated in the C. P. R. yards and had been used as an oil station and the planking was oil soaked, making a fierce blaze for a short time.

A strong westerly wind carried flying embers cityward, setting fire to some of the cars and various C. P. R. buildings, but in every instance these were promptly extinguished without much damage being done. The city brigade, assisted by C. P. R. workmen, kept the fire within bounds and in an hour all damage was over. The loss is about \$6,000. No insurance was held locally.

Stove Founders Merge.

Hamilton, July 6.—A big merger of all stove founders here is now under way, with a combined capital of a million dollars. One of the great objects of the combine is to break the union, founders having had continuous trouble with the moulders. With a combine, the founders believe they can bring the union to terms.

MANY HOUSES ARE UNDER CONSTRUCTION

Building Activity in Residential District Shows Progress of City.

At the present time there are more residences in course of construction in the city of New Westminster than there ever was at past period in her development. The demand for houses is tremendous and seems liable to increase the more, as most of the houses going up at present are not for renting purposes, but are first class houses erected by the men who intend to live in them.

It is in the north end of the city, starting at Queens avenue that this development is most marked and there is scarcely a block in that vicinity without one or more first class houses in course of construction. The houses are all of frame but all of them are costly and some elaborate. As an index to the general prosperity of the city a partial list of the houses at present in course of erection is given here.

On Fifth street, between Third and Fourth avenues Joseph Mahoney, J. E. Brown, L. Gardhouse and D. A. Shiles are building residences. E. L. Webber, J. Carter Smith, R. Buckland are building on Queen's avenue, and close to them the new Methodist parsonage is being erected.

Thomas Blackledge is building a house on Sixth avenue, near Second street.

Captain James Croll is building on Regina street.

H. C. Mark is building a store and dwelling on Second street near Fourth avenue.

On Third street between Queen's avenue and Third avenue, Thomas Gifford, sr., is building a handsome home. R. K. Chapman is building a fine house on Third avenue, between Second and Third streets. D. S. Curtis has almost completed his new residence on the corner of First street, facing Queen's park.

On Royal avenue near Third street H. B. Davidson is erecting a residence. On Second street between Third and Fourth avenues there is a house going up for R. J. Rickman. Ex-Alderman W. W. Forrester is building on Sixth avenue between Fourth and Fifth streets, and James Clifford is building on Fourth avenue between First and Second streets.

Robert Lane is building on the corner of Tenth street and Eighth avenue and J. Newsome on Sixth avenue between Second and Third streets.

A fine house for E. N. Sutherland on the corner of Agnes and Merrivale streets is nearing completion.

This is only a very small proportion of the houses at present under course of construction. All over the northern end of the city, every day almost sees the beginnings of a new house and if the city had a system of building permits, the returns for this summer would show that there is unparalleled activity in the building of residences.

Although so many new homes are being built there is practically not an empty house in the city and the steady development shows that the population of the city must be increasing in numbers rapidly.

PLAN BIG CELEBRATION IN HONOR OF WORLD PEACE

Centenary of Peace Among English Speaking Peoples Will Take Place in 1914.

New York, July 6.—The movement for a world wide celebration in 1914 for the one hundredth anniversary of peace among English speaking peoples took form here today with the announcement of a committee selected to organize the work of preparation. The committee is headed by Andrew Carnegie as chairman, and an announcement of the present status of the movement was made by Chairman John A. Stewart, of the executive committee of one hundred.

The Treaty of Ghent was signed on December 24, 1814, and it is proposed to commemorate this event through an invitation, issued jointly by the citizens of the United States and Great Britain, to the new world at large to take part during 1914 in a common celebration.

The exact form which the celebration shall take has only been discussed. President Taft has expressed a sympathetic interest in the work.

Cyclone Wrecks Circus.

St. Paul, July 6.—A special from Watertown, S. D., says one is dead and a score are more or less injured, the main tent and menagerie tent of a big circus in ruins, and two horses killed, as the result of a cyclone storm here last night. The dead man was a circus employee and the injured are said to be performers.

FALLING TREE KILLS CHINAMAN AT DEER LAKE

Coroner Pittendrigh Will View Body This Morning and Decide Whether Inquest Is Necessary.

While employed cutting down trees near Deer lake, Burnaby, for the Deer Lake mill, a Chinaman was crushed to death, a big tree falling on him yesterday afternoon.

Details of the accident were not secured yesterday evening, the provincial police merely being informed that a man had been killed.

Coroner Captain Pittendrigh will go out to Deer lake this morning to view the body and decide whether it is necessary to hold an inquest.

INSPECTOR OF AGENCIES VISITING WESTMINSTER

F. W. Martin, of Medicine Hat, Here to Inspect Dominion Land Office—Likes British Columbia.

F. W. Martin, inspector of Dominion land agencies, with headquarters at Medicine Hat, is in the city on a tour of inspection. The Dominion land office here has charge only over the lands in the railway belt and as most of the desirable land in this strip was settled long ago the inspector has little to do at this office. He is thankful that he has not to inspect the provincial land office, where the entries are pouring in like they are in the prairie Dominion offices.

Mr. Martin states that there is marvelous development going on on the prairies. Immense irrigation projects are under way in the southern portion of the province and immigrants are coming in by thousands.

For the past two or three years the settlers on the irrigated lands have not found it necessary to use their captured water, but this season there has not been so much rain and the irrigation farmers are using all the water they have. In the northern portion of Alberta rain has been plentiful and the crop outlook is excellent.

Mr. Martin says that Calgary holds the record over all the prairies for the number of entries received, having taken the honor away from Moose Jaw during the last two or three years. While a resident of Medicine Hat, Mr. Martin is a great admirer of the Pacific slope and though his business takes him here two or three times a year, he finds himself waiting anxiously for the times of his western trips.

PORTLAND CANAL LINE.

Actual Construction Has Now Been Started by Contractor.

Stewart, July 6.—Sol Cameron, who has the contract for the Portland Canal Short Line railway, has established a large camp beyond the bridge with accommodation for 200 employees. Actual construction of the railway has started and every steamer is bringing in its quota of men for employment on the road.

Mr. Cameron, who went to Prince Rupert on Thursday and is due to return, stated that several subcontracts would be let and every effort made to rush the work.

NEW CANADIAN KNIGHT.

Major General Benson Will Raise Remounts for British Army.

Toronto, July 6.—A dispatch received here says Major General F. W. Benson has been knighted and that he will leave shortly for Canada, where with General Cook he will establish a ranch in the vicinity of Calgary for the raising of remounts for the British army.

The new knight was born at St. Catharines in 1849. He is the third son of the late Hon. J. R. Benson, of the Canadian senate.

Naval Plans Coming.

Ottawa, July 6.—The British admiralty has given its consent to have the plans for the Canadian naval vessels sent to Canada under guard.

Sister Ship of General Slocum Ablaze With Load of Excursionists

New York, July 6.—The steamer Grand Republic, which runs to Rockaway, caught fire off the quarantine station in the Narrows.

The Grand Republic is a sister ship of the ill-fated steamer General Slocum.

The Grand Republic was returning with a boatload of excursionists from Rockaway beach and was heading up through the Narrows when it was discovered that she was on fire.

Her captain immediately threw the wheel to port and headed the burn-

DEMAND FOR LUMBER HEAVY ON PRAIRIES

Inspection of Crown Lumber Agencies Stephenson Discusses Lumber Industry.

E. F. Stephenson, inspector of crown timber agencies, is in the city. He has just come down from Revelstoke, where he has been superintending the opening of the new office there and making all necessary arrangements to start business.

Mr. Stephenson's headquarters are in Winnipeg and he looks after all the crown timber in Manitoba, Alberta, Saskatchewan and British Columbia. The crown timber in British Columbia is all contained in the railway belt, a narrow strip forty miles wide along the main line of the C. P. R., but in the prairie provinces it is much more extensive.

According to Mr. Stephenson the lumbering industry is more active at the present time than it ever was before. This is due in a large measure to the expansion of the prairie settlements. Outside the lumber used in British Columbia, it is practically all shipped to the prairies, although no small amount of it goes through to Ontario. At the present time there are only three mills shipping lumber elsewhere.

Some interesting figures on the lumbering industry here and on the prairies were given by Mr. Stephenson. During the departmental year ending on March 31 there were 240,408,390 feet of lumber cut on Dominion lands, an increase of 58,980,930 feet over the output the year previous. This is but a small part of the total amount cut, as many of the millmen continue to draw their main supply of logs from their provincial holdings, the ground rent being higher and it consequently being more advantageous to clear them off and hold the Dominion leases intact.

In Manitoba, Saskatchewan and Alberta, last year, there were 943,843,098 feet of lumber marketed, but only about half of this came from British Columbia, the rest being cut in the northern portions of the prairie provinces. Of this the mountain mills, which term is applied to all those in British Columbia not situated close to the coast, shipped 324,829,325 feet, a large increase over the amount shipped last year.

The number of logs cut last year on Dominion lands is estimated at between 3,500,000 and 4,000,000 pieces and the lumber on hand at the mountain mills is 3,500,000 pieces.

Unless there is some great fire, the supply of lumber on the Dominion lands in the province will last for a great many years to come according to Mr. Stephenson. The government is going to considerable trouble to provide protection to the forests and a large staff of fire rangers are constantly patrolling the woods. So far this year the loss by this means has been unprecedentedly small.

Mr. Stephenson expects to finish his work here in a day or two. He is looking after the transfer of the files and records from this office to the one at Revelstoke.

ORDER MATERIAL FOR TWELVE BIG ELEVATORS

Manitoba Government Commission

About to Expend \$150,000 on Building of Grain Storage Houses.

Winnipeg, July 6.—The Manitoba Government Elevator commission today placed their orders for material for twelve elevators. The total amount of this order is over \$150,000. Work on these elevators will start at once.

Orders for more materials and machinery will be placed in a few days, as more cities are being inspected and approved every day and the commission is prepared to rush the work so as to have as many elevators as possible ready for the incoming crop.

Woman Dies in Henhouse.

Chatham, Ont., July 6.—Mrs. John Illingsworth, sixty-five years old, was found dead in a henhouse this morning. Last night she had been sitting up with Mrs. Collart, her sister-in-law, who died during the night.

Woman Dies in Henhouse.

Chatham, Ont., July 6.—Mrs. John Illingsworth, sixty-five years old, was found dead in a henhouse this morning. Last night she had been sitting up with Mrs. Collart, her sister-in-law, who died during the night.

All the passengers were landed safely. Thousands of people had gathered along the shores to watch the blazing vessel.

 Dated the 27th day of June, A.D., 1910.
 W. A. DUNCAN, City Clerk.
 Date of first publication the 27th day of June, 1910.

STREET IMPROVEMENT DEBENTURE OR REGISTERED STOCK BYLAW, 1910.

A Bylaw to enable the Council of the City of New Westminster to raise by loan the sum of One Hundred and Fifty Thousand (\$150,000.00) dollars for Street Improvements.
 Whereas, certain sums of money have this year been expended out of the general revenue of the city for the construction, improvement and repair of streets and sidewalks, and it is expedient that additional sums be spent in like manner, amounting in all (with the sums already spent) to the sum of One Hundred and Fifty Thousand (\$150,000.00) dollars;
 And Whereas, it appears that if the said sum of One Hundred and Fifty Thousand (\$150,000.00) dollars, be appropriated from the general revenue of the city for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the corporation, and that debentures or registered stock certificates should be issued for that amount;
 And Whereas, for the payment of interest on the debentures or registered stock certificates, proposed to be issued under this Bylaw, and for creating a sinking fund for the payment of the said debentures or registered stock certificates when due, it will be necessary to raise by special rate, in addition to all other rates, each year during the currency of the said debentures or registered stock certificates, the sum of Seven Thousand, Five Hundred and Ninety and 32/100 (\$7,590.32) dollars;
 And Whereas, in order to raise the said yearly sum of Seven Thousand, Five Hundred and Ninety and 32/100 (\$7,590.32) dollars, an equal rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster;
 And Whereas, the whole rateable property of the said city, according to the last revised Assessment Roll thereof, is Seven Million, Two Hundred and Forty-nine Thousand and Ten (\$7,249,010.00) dollars;
 And Whereas, the total amount of the existing debenture debt of the said city is One Million, Six Hundred and Seventy Thousand, One Hundred and (\$1,617,100.00) dollars, irrespective of the sum of One Hundred and Seventy-four Thousand, Five Hundred and (\$174,500.00) dollars proposed to be raised under the "Lulu Island Bridge Debenture or Registered Stock Bylaw, 1910"; the "Fire Debenture or Registered Stock Bylaw, 1910"; the "Schools Debenture or Registered Stock Bylaw, 1910," and the "Parks Debenture or Registered Stock Bylaw, 1910," of which none of the principal or interest is in arrears;
 Now Therefore, the Municipal Council of the Corporation of the City of New Westminster enacts as follows:
 1. It shall be lawful for the Mayor of the said city to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures or registered stock certificates hereinafter mentioned, any sum or sums of money, not exceeding in the whole the sum of One Hundred and Fifty Thousand (\$150,000.00) dollars, and to cause the same to be paid into the treasury of the said city for the purposes mentioned herein.
 2. It shall be lawful for the Mayor to cause any number of debentures or registered stock certificates to be made, not exceeding in the whole the sum of One Hundred and Fifty Thousand (\$150,000.00) dollars, for such sums of money as may be required, not less than \$100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of 4,866 to the pound sterling; and all such debentures or registered stock certificates shall be sealed with the seal of the corporation, signed by the Mayor and countersigned by the treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.
 3. The said debentures or registered stock certificates, shall be payable on the first day of July, 1910, at such place or places as the Council of the said corporation may from time to time appoint with the approval of the holders thereof, and shall bear interest at the rate of four and one-half per centum per annum, payable half yearly on the first day of January and the first day of July in each and every year, and the debentures shall have attached to them coupons for the payment of interest, which said coupons shall be signed by the said Mayor.
 4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all the rateable property of the city, sufficient to pay the interest upon the debentures or registered stock certificates, and to create a sinking fund for the payment of the principal thereof when due, subject to any act or enactment respecting the same.
 5. Subject as aforesaid, there shall be raised annually by special rate as aforesaid, during the currency of the said debentures or registered stock certificates, the sum of \$4,387.50 for the payment of interest thereon, and the sum of \$546.20 to provide for the payment of the principal.
 6. The proceeds of the sale of the said debentures or registered stock certificates shall be applied as follows, and not otherwise; towards paying the cost of the passing of this Bylaw and the issue and sale of the said debentures or registered stock certificates therein referred to, and all expenses connected with the issuance of the said loan, and the balance shall be paid over from time to time as required upon the order of the trustees by the city treasurer to the several persons to whom moneys are payable.
 7. This Bylaw shall take effect on the day of 1910, and may be cited as the "Schools Debenture or Registered Stock Bylaw, 1910."
 8. This Bylaw before the final passing thereof, shall receive the assent of the electors of the said city in the manner required by law.
 Received the assent of the electors on the day of 1910.
 Reconsidered and finally passed in open council the day of 1910.
NOTICE.
 Take notice that the above is a true copy of the proposed Bylaw which will be taken into consideration by the Municipal Council of the City of New Westminster one month from the date of the first publication thereof in the "Daily News" newspaper, which first publication took place on the 13th day of June, 1910, and that a vote of the electors of the city will be taken on the said proposed Bylaw on the 14th day of July, 1910, between the hours of nine o'clock a.m. and five p.m. at the following places, namely: The Council Chamber, Civic Building; the Fire Hall, Sapperton; and the Waterworks Storehouse, Eleventh street.
 W. A. DUNCAN, City Clerk.
 City Hall, June 11, 1910.
SCHOOLS DEBENTURE OR REGISTERED STOCK BYLAW, 1910.
A Bylaw to enable the Council of the Corporation of the City of New Westminster to raise by loan the sum of Ninety-seven Thousand, Five Hundred (\$97,500.00) dollars for School Purposes.
 Whereas the Board of School Trustees of the City of New Westminster have caused to be prepared and laid before the Council a detailed estimate of the sums required by the Board for the current year's ordinary expenses of maintaining the schools of the said City of New Westminster; and have also prepared a like detailed estimate of the sums required to meet any special or extraordinary expenses legally incurred by the Board, which last mentioned estimate is subject to consideration, alteration and final approval by the Council, and the same has been finally approved by the Council.
 And Whereas, the amount required under the said last mentioned estimate for schools amounts to Ninety-seven Thousand, Five Hundred (\$97,500.00) dollars, made up as follows: Thirty-five Thousand (\$35,000.00) dollars for the erection and equipment of the new Sapperton school; Two Thousand, five Hundred (\$2,500.00) dollars for the erection and equipment of a school on Lulu Island, and Sixty Thousand (\$60,000.00) dollars for the erection of a High school.
 And Whereas, by Section 40 of the Public Schools Act 1905, as re-enacted by Section 30 of the Public Schools Act 1905, Amendment Act 1905, any statute to the contrary notwithstanding, the Council of any city, town or rural municipality in the Province including the City of Vancouver and City of New Westminster, may in each and every year pass a Bylaw or Bylaws for levying special rate of not more than Five (5) mills on the dollar for school purposes, and the Council may in addition to such rate apply any portion of the ordinary revenue to school purposes.
 And Whereas, it appears that the amount required to meet the current year's ordinary expenses of maintaining the schools will exhaust the amount authorized to be levied under Section 40 of the Public Schools Act 1905, as re-enacted by said Section 30 of the Public Schools Act 1905, Amendment Act 1906, and it will be necessary also to apply a portion of the ordinary revenue for such purposes.
 And Whereas, it appears that if the said sum of \$97,500.00 be appropriated from the general revenue of the city for the current year, the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the corporation, and that debentures or registered stock certificates should be issued for that amount.
 And Whereas, for the payment of interest on the debentures or registered stock certificates proposed to be issued under this Bylaw, and for creating a sinking fund for the payment of the said debentures or registered stock certificates, when due, it will be necessary to raise by special rate, in addition to all other rates, each year during the currency of the said debentures or registered stock certificates the sum of four Thousand, Nine Hundred and Thirty-three and 70/100 (\$4,933.70) dollars;
 And Whereas, in order to raise the said yearly sum of \$4,933.70, an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster.
 And Whereas, the whole rateable property of the said city, according to the last revised Assessment Roll thereof, is Seven Million, Two Hundred and Forty-nine Thousand and Ten (\$7,249,010.00) dollars;
 And Whereas, the total amount of the existing debenture debt of the said city is One Million, Six Hundred and Seventy Thousand, One Hundred and (\$1,617,100.00) dollars, irrespective of the sum of Two Hundred and Twenty-seven Thousand (\$227,000.00) dollars proposed to be raised under the "Street Improvement Debenture or Registered Stock Bylaw, 1910"; the "Fire Debenture or Registered Stock Bylaw, 1910"; the "Lulu Island Bridge Debenture or Registered Stock Bylaw, 1910," and the "Parks Improvement Debenture or Registered Stock Bylaw, 1910," of which none of the principal or interest is in arrears.
 Now Therefore, the Municipal Council of the Corporation of the City of New Westminster enacts as follows:
 1. It shall be lawful for the Mayor of the said city to raise by way of loan from any person or persons, body or bodies corporate, who may be will-

ing to advance the same on the credit of the debentures or registered stock certificates hereinafter mentioned, any sum or sums of money not exceeding in the whole the sum of \$97,500.00, and to cause the same to be paid into the treasury of the said city for the purposes mentioned herein.
 2. It shall be lawful for the Mayor to cause any number of debentures or registered stock certificates to be made, not exceeding in the whole the sum of \$97,500.00 for such sums of money as may be required, not less than \$100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland at a value of 4,866 to the pound sterling; and all such debentures or registered stock certificates shall be sealed with the seal of the corporation, signed by the Mayor and countersigned by the treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.
 3. The said debentures or registered stock certificates shall be payable on the first day of July 1910, at such place or places as the Council of the said corporation may from time to time appoint with the approval of the holders thereof, and shall bear interest at the rate of four and one-half per centum per annum, payable half yearly on the first day of January and the first day of July in each and every year, and the debentures shall have attached to them coupons for the payment of interest, which said coupons shall be signed by the said Mayor.
 4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all the rateable property of the city, sufficient to pay the interest upon the debentures or registered stock certificates, and to create a sinking fund for the payment of the principal thereof when due, subject to any act or enactment respecting the same.
 5. Subject as aforesaid, there shall be raised annually by special rate as aforesaid, during the currency of the said debentures or registered stock certificates, the sum of \$4,387.50 for the payment of interest thereon, and the sum of \$546.20 to provide for the payment of the principal.
 6. The proceeds of the sale of the said debentures or registered stock certificates shall be applied as follows, and not otherwise; towards paying the cost of the passing of this Bylaw and the issue and sale of the said debentures or registered stock certificates therein referred to, and all expenses connected with the issuance of the said loan, and the balance shall be paid over from time to time as required upon the order of the trustees by the city treasurer to the several persons to whom moneys are payable.
 7. This Bylaw shall take effect on the day of 1910, and may be cited as the "Schools Debenture or Registered Stock Bylaw, 1910."
 8. This Bylaw before the final passing thereof, shall receive the assent of the electors of the said city in the manner required by law.
 Received the assent of the electors on the day of 1910.
 Reconsidered and finally passed in open council the day of 1910.
NOTICE.

DISCOVER NEGRITOS IN SNOW MOUNTAINS

Little People Known to Americans Found in Central Dutch New Guinea.

London, July 6.—News has just been received in England of a remarkable discovery made by one of the most scientific expeditions that has ever left these shores. The expedition, composed of a party of eminent British scientists, and which owes its inception and organization to W. R. Ogilvie-Grant, was dispatched by the British Ornithologists' Union, in October last, to explore the Snow mountains of New Guinea, or Papua, which is the largest unknown area on the surface of the earth.

The discovery is that of a strange new race of pigmies, of a color closely resembling that of a newly black-leaded stove. The discovery was made during the ascent of the Snow mountains in Central Dutch New Guinea.

At an elevation of about 2,000 feet the expedition came across a tribe whose average height is about four feet three inches. Although details are lacking, there seems little doubt that this tribe belongs to the division of the human race known as the Negritos.

The occurrence of the Negritos in the Papuan sub-region has, in the past, been a subject of much discussion, the view that they did not live there finding wide acceptance among anthropologists. The present discovery will account for the presence of various anomalous races in the remoter parts of the Lesser Sunda Islands.

But Three Inhabited Areas,

Heretofore these people have only been known to inhabit three widely separated areas, namely the Andaman islands, in the Bay of Bengal; the northern portion of the Malay Peninsula, where they are known as Semangs, and certain areas in the Philippine Islands, in particular the northern island of Luzon.

In all these districts the characteristics of this race are amazingly uniform, practically no adult over five feet in height being met with, the women rarely exceeding four feet in height.

The main feature of this marked type of the human race, apart from their small size, are: The extraordinary dark color of their skin; the extremely broad nose, the breadth of which is about equal to the height; and the frizzy hair, which grows in isolated tufts all over the scalp.

These people are in no sense dwarfs but convey rather the impression of small, but otherwise well developed men, the arms, however, being relatively longer than those of Europeans.

In habit they are nomadic, nowhere tilling the ground, but depending for their living entirely on their skill in hunting and fishing. Their chief weapon is the bow, their arrows generally being poisoned, either with the famous "upas" or some other analogous vegetable poison. But by far their most interesting weapon is an ingenious variety of "spring gun."

Passers-By Spring Traps. This is made by setting a flattened bamboo spear attached to a bent sappling, which is fastened to a trigger in such a way that it is released by the passer-by stumbling against an invisible string stretched across a track.

These spears are in reality set for game. In time of peace they are obvious enough to the initiate, for their presence generally is indicated by a curious sign, namely, a broken-off twig placed in a cleft stick. In war, however, this and other warning signs are removed. The wounds inflicted by these hardened bamboo spears are necessarily extremely serious.

The mental qualities of the Negritos are far from developed. Not one of them, for example, is able to express a higher numerical idea than three. All who encounter them none the less unite in saying that they are a merry little people, with strongly developed ideas of hospitality, when once their confidence has been won, and provided that they have not been ill treated previously.

Spider Veil Latest.

London, July 6.—After the "Chancellor" veil comes the "Spider" veil, a "creep-crawly" affair which itself is made to resemble a spider's web. The spider is almost an inch and a half in diameter, and the effect is decidedly more repellent than alluring.

CIVIL WAR IN CHINA MAY WIPE OUT DYNASTY

Recent Uprisings Signs of Storm Which May Spread Over Whole Empire.

London, July 6.—China is on the eve of a civil war, which promises to wipe out the present dynasty. In diplomatic circles, the authorities of the Chinese question are all of the opinion that the recent uprisings in the provinces of Hupeh and Hunan, in April and May, and the riots in Changsha, are but the first signs of a storm, which is soon to spread over the empire and carry death and destruction in its wake.

For ten years the numerous and powerful secret societies in China have been preparing for this rebellion. Large importations of arms have been made and a vast army of men have been drilling secretly. It is the avowed purpose of the organizers of the rebellion to overthrow the present form of government and establish a republic modeled after the United States.

Although the Tartar Manchus have reigned at Peking for six centuries, they are still regarded as foreigners by the Chinese, and innumerable efforts have been made in the past to drive them from the country. Concerted action was never achieved, however, and it was not until Dr. Sun Yat Sen, the organizer of the revolution, began to form his plans for welding the people into a nation and establishing a Chinese republic after the model of the United States that the dynasty was seriously threatened. If the anticipations of Europeans in China are correct, he has now perfected his preparations for overthrowing the dynasty and sweeping the whole posse of mandarins and officials out of existence.

It is by means of the vast organization of secret societies with which China is honeycombed from Mukden to Canton that he has conducted his campaign. Every Chinese rebellion and riot for the past 600 years has been inspired and aided by one of these societies, and they are all bound together by common sentiment and interest. All are violently anti-dynastic, and all are equally anti-foreign.

Dr. Sun Yat Sen has declared his intention of throwing every port open to the world when he becomes president of the Chinese republic, of which he dreams; but the watchword of the societies is "China for the Chinese," and the recent riots in Hunan prove that any general movement will at once imperil the lives of Europeans in the country.

Greatest of all the secret societies is the Sanhohu, or Triad, of which Dr. Sun Yat Sen is believed to be the "head center." Some authorities estimate the number of its members at 2,500,000, but others declare it includes at least 10,000,000 of the 50,000,000 adult males in China. Its power reaches as far as Liverpool, San Francisco and Sydney, and no delinquent member is ever safe from its emissaries.

It was founded in 1674 and its name signifies "Three United," referring to heaven, earth and man. When these three have united to drive out the Manchus and all other foreign devils, its members believe, the perfect triangle will be formed and universal peace will follow. Another name of the society is Thiantshui, or "Heaven-Earth League."

Its avowed object is to seek more light, or "ming," but Ming was also the name of the previous dynasty, and this ambiguous phrase never concealed the fact that its object was solely political.

Membership may be said to be compulsory, for when anyone is likely to be of service to the society, the local officials—after the manner of Silver's "black spot"—send him a paper bearing their seal. He is warned to present himself for initiation, and threatened with murder if he should reveal the message. If he shows signs of hesitation he is attracted to the lodge by a ruse, and once he takes the oath, terror ever afterwards prevents him breaking it.

Subscriptions are largely raised by levies on the keepers of gambling dens and the society is always well provided with money. Members swear to help each other in every way, and doubtful characters become members with the object of pursuing vendettas, receiving aid in smuggling and evading the law. One of the four lodge officials is an executioner, and instances are known of intruders—or "draughts of wind" as they are called

SOARING PRICES WORRY BRITISH HOUSEWIVES

Increase of Three Cents Per Pound in Beef and Other Foodstuffs in Proportion.

London, July 6.—Not only in America is the prospect of soaring prices for foodstuffs making housewives wrinkle before their time. Here in free trade Britain, into whose ports are brought the produce of the world, unhampered by tariffs and but little affected by trusts, there is the same problem.

Now and again detached items on the household schedule are cheaper, but taking the food table all around the last ten years have shown a marked increase in the British cost of living.

Here are some prices, compared with those of ten years ago: British beef has gone up three cents a pound. In the wholesale market frozen meat is thirteen cents a pound, or six cents a pound higher than ten years ago, and veal is up four cents in spite of better supplies from Holland. English mutton costs three cents more and about the same rise is shown in Argentine and Australian frozen mutton. Pork is two cents a pound up all around.

As to groceries \$4 in 1900 went further in a store than \$5 today. Bacon now at twenty-eight cents, has soared up six cents a pound. Cheese, three cents; sugar, one cent; tea four cents; butter, four cents; cocoa, four cents; canned fish and meats, four cents; flour, three cents.

Against these increases canned fruits are cheaper and the new Chinese pork and bacon supplies, exported from Shanghai by an American firm, are overcoming prejudice by offering good quality at lower prices. Bread is practically at the level of 1900.

All round the coast the fishing grounds have been extended and transit and storage have been improved. But prices have not gone up and the trade has enormously developed in consequence of the comparative economy of a fish diet. Enormous supplies of continental and colonial hares and rabbits have brought a decline in prices, and fruit and vegetables are also cheaper.

Poultry and eggs have gone up fifteen per cent in price, for international competition in the market, for Russian, Italian, Austrian and French supplies has grown keener right along, until lately the Chinese birds arrived to ease the strain.

One result of these conditions is that fish, fruit and vegetables are becoming more and more the mainstay of the mass of the people. To aid the movement there is plenty of social clamor and idealistic fancy. Tolstol has appealed to European workers to avoid even boots made of leather, and the Czarina is a vegetarian so far as diet is concerned. And in England, besides titled ladies and prominent politicians, there are athletes and aviators who seem more health and vigor in potatoes than in beef.

—being promptly killed for approaching meetings.

Such a vast organization might well turn the world upside down but it is only one of the many kindred societies.

In addition there are countless guilds of merchants and even thieves and beggars, which are in reality powerful secret societies.

It was the American Exclusion treaty, proposed in 1905, that gave the chief impetus to the federation of societies which has since increased so rapidly. Trade guilds combined to boycott foreign goods, and new anti-foreign societies sprang up everywhere. Then the Reformers took over the control of the movement and used it to bind all societies together.

Many efforts have been made by the central government to stem the tide. A reward of 10,000 pounds payable on delivery, was offered for Dr. Sun Yat Sen's head, and an effort was made to kidnap him in London. Leaders of the Atkwohul society were condemned to death, and the society was ordered to be dissolved. Endeavors were made to throw dust in the eyes of Europeans by explaining that the Boxers were really only an association of gymnasts, and that there was nothing to fear.

But although the government could threaten, it could not execute its threats. Arms have been smuggled across the Russian frontier, and gun-running has been common on the north coast. Only a few months ago a Chinese war ship captured a Japanese vessel filled with rifles and ammunition.

GREATEST OF VESSELS.

New Cunarders Are to Be of Sixty Thousand Tons.

London, July 6.—With the news that the Mersey Dock and Harbor Board has decided to commence the construction of a huge dock comes the important announcement that the Cunard company propose to build liners of 60,000 tons each. The new dock will be large enough to accommodate these vessels. The quay berths will be suitable for liners 1,000 feet in length. There will be deep-water entrances so as to avoid delay in docking. The work, which is to be carried out by contract, will be commenced in a few weeks and it is expected to be finished in three years.

LAND REGISTRY ACT.

Re Lots 5, 6, 7 and 8, Block 3 of part of the south-east quarter of Section 7, Township 8, Map 628, in the District of New Westminster, Cloverdale.

Whereas proof of the loss of Certificate of Title Number 12454 F, issued in the name of R. T. Wilson Herald has been filed in this office.

Notice is hereby given that I shall, at the expiration of one month from the date of the first publication hereof, in a daily newspaper published in the City of New Westminster, issue a duplicate of the said Certificate, unless in the meantime valid objection be made to me in writing.

C. S. KEITH.

THURSDAY, JULY 7, 1910.

MAKING THE MOST OF IT.

As might be expected, the editor of The Columbian has been making the most of the incidents that have recently transpired in connection with the government printing bureau at Ottawa. He would have it believed: first, that the unfortunate state of affairs which has been revealed by the strict and careful investigation instituted by the Secretary of State is the outcome of attacks and criticisms made by the Conservative party last session and, secondly, that the state of things which has been brought to light in connection with the Federal printing establishment is but an example of what prevails in every department of the state under the Liberal government.

As a matter of fact, however, Hon. Charles Murphy has been keeping tab upon the affairs of this particular department in question for the past two years, but not until the time was ripe for action was any strong step taken. Once in possession of the necessary evidence, the minister acted promptly and decidedly, and those guilty of malfeasance have been dealt with accordingly. As to there being a general prevalence of dishonesty in the government departments, this is a case of the wish being father to the thought on the part of the member for New Westminster. There is no evidence, no sign, not even the ground for suspicion that the various departments of the state are not well and properly managed under the Liberal administration. But there is this interesting and peculiar circumstance, that where evidence of dishonesty has hitherto been discovered it is invariably in departments managed by appointees of the late Conservative government, and not in such as have been in the care of officials placed by the present administration. This was the case in the printing bureau, the late superintendent of which was appointed to that position by the Conservatives.

The Columbian attributes to Mr. R. L. Borden and his party great zeal in unearthing "administrative shortcomings," and remarks that in consequence "the Laurier ministry has begun to look to its good name." Though we know only too well that Mr. J. D. Taylor has wasted hour after hour of the valuable time of parliament in chasing mythical scandals, for the most part conceived entirely in his own imagination, we were not aware that the Conservative leader and the Conservative members had been so busily engaged "in running to earth administrative shortcomings." Our impression was that, except in regard to the Naval bill, Mr. Borden had been almost silent during the last session. As to the Conservative "members," the term is probably meant to represent the unit in the person of the member for New Westminster in his frequent expeditions after delusive quarry.

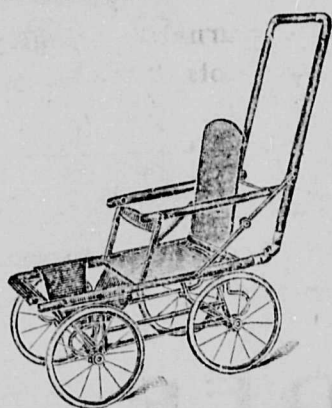

The good name of the Laurier administration is, we are thankful to say, of such sterling worth to the people of Canada as to be quite safe, in spite of the venomous attacks of The Columbian. It is not the fault of the editor of that journal that its reputation is not smirched and sullied to the uttermost extent. But Canadians know full well to whom the prosperity and greatness of the Dominion is due and they are not likely to allow the robbery of that which would make them "poor indeed."

Enter Halibut Industry.

Victoria, July 6.—In an effort to win from Americans an industry which they at present practically monopolize, the Pacific Whaling company, with headquarters here, will enter the halibut deep sea fishing next winter. All five whalers will be employed in the trade from the five stations.

FEAR COUGAR HAS TAKEN BELLINGHAM BOY TO DEN

Six Year Old Danny Kline Missing After Picnic—Frantic Searchers Have Given Up Hope.

Bellingham, July 6.—Hoping against hope, knowing the horrible truth but still refusing to allow themselves to admit it, continuing the search in order to save themselves from the intolerable anguish of not being in time, Mr. and Mrs. W. R. Kline are heading a party of 100 men and women, who for two days have been beating the bush in the vicinity of Canyon Falls, twenty miles north of this city, in the vain endeavor to find their six-year-old son Danny. That the child was snatched almost from the very arms of its mother by a great cougar is practically certain. Many of these animals roam the rough country through which Canyon creek flows and there seems to be no other explanation for the mysterious disappearance of the baby. Mother and father are fighting off the terrible truth, but they are almost exhausted as a result of their long search without food or sleep. Today they must give up, admitting that the baby's bones are probably now whitening in the den of the beasts.

Little Danny, with his mother and a party of friends, left on July 4 for an outing at Canyon Falls. About four o'clock in the afternoon the lad was missed. A search was made but no trace of the boy could be found.

Soon the parents became thoroughly alarmed and news was sent to the nearby towns for men and lanterns. All that long evening and all through the night the bush was beaten. The dense forest that spreads over the rough country was gone over by no less than one hundred men and women. Finally some one thought of the creek. The stream was dragged but the little body was not found. No one had spoken of cougars, although it was known they were plentiful. But while no one spoke it was believed down in the hearts of all that the baby had been carried away by the beasts. The peculiar thing about the disappearance of the boy is that not a shred of clothing could be found, nor was a single cry heard. It is thought by the searchers that a huge cougar must have pounced upon the child at the very outskirts of the camp, crushed the victim and carried him off before he could utter a note of warning. Bloodhounds were brought to aid the searchers yesterday, but after a night in the woods they were unable to get on the trail. Hope is gone now, but the searchers are still in the woods.

land begin to reign?" Who is his Prime Minister?"

In the first place such a question exposes the department to ridicule because it might as correctly have been asked the pupils "When did the present King of Chitlwaqa begin to reign and who is his Prime Minister?"

In the second place it is an insult to Scotland, Ireland, Wales, Canada, etc.

In the third place it is both illegal and unfair. The school act says the pupils will be examined as in the prescribed text book and the answer is not found there. It is also quite probable that many of the pupils have not even had the chance of knowing who the Prime Minister is.

If the Department wishes to persist in asking questions beyond the scope of the authorized text-books, should it not first get the Council of Public Instruction to change the above regulation, so as to make them legal? Should it not also publish a circular containing the answers to such questions so that every pupil might have at least, the opportunity of knowing them? Should it not then get some educated person to censor such questions, so as to protect the Department from ridicule?

A foreigner or an ignoramus might be excused for asking such a question in this country, but not the Education Department.

J. N. MUIR.

New Westminster, July 6, 1910.

Appointed to Dalhousie.

Halifax, July 6.—Dr. Howard L. Bronson, assistant professor of physics in McGill university, has been appointed to the chair of physics in Dalhousie vacated by Professor McKenzie. Dr. Bronson is a graduate of Yale, graduating in arts in 1909 and taking the degrees of philosophy in 1904.

BANK BOYS CHARM

SOCIETY FRIENDS

Dainty Applause of Ladies Greet Montrealers When They Humble Allcomers.

There was a full meeting of the Canadian Bankers association at Queens park yesterday, when an argument between the Bank of Montreal and the rest of the banks of the city was settled to the satisfaction of the Bank of Montreal and to the disgust of the sundries. It was a baseball game and turned out to be quite a society event. The bleachers were dotted here and there with charming groups of gay femininity, and one could almost smell pink tea.

The score was eleven to five, but the game was more even than that. Perhaps Doc Jones, who was base umpire, wanted to get an overdraft of a million dollars at the Bank of Montreal and that may account in some measure for the score.

It was a pitchers' battle from the outset. Peele, for the United Banks, put them over in great style, and Pete Cotton got one of the arm. After that Peele sent them in N.S.F., which, being translated, means "Not So Fast." Sperry, behind the bat, played a great game for the United and won prolonged applause by his sliding stunts while base running. Speaking of sliding, Cornwall, of the Bank of Montreal, pulled off a spectacular effort in that line, but dirtied his clothes something awful.

Starr pitched his way to victory for the Bank of Montreal, the amalgamation being unable to land on him to any effect.

The only double play of the encounter was started by Hill on second base when he caught Fletcher's drive and threw to first, catching Cornwall, who had started for second at a Longboat clip.

McPhail acted as umpire on balls and strikes and Dr. Jones officiated out in the field on the base decisions. The doctor was not overworked and only handed out one or two close ones. In the last inning he used up ten minutes in deciding whether Ironsides had turned to the left or right when he went past first. He finally concluded that Ironsides had no business getting as far as second anyway so he called him out.

The following are the teams: Bank of Montreal—Fletcher, c; Starr, p; Harvey, 1b; Shannon, 2b; Celery, ss; Ironsides, 3b; Turner, lf; Cornwall, cf; Cotton, rf.

United Banks—Sperry, c; Peele, p; Beatty, 1b; Hill, 2b; Keller, ss; Kydd, 3b; Howe, lf; Pratt, cf; Mavins, rf.

Score by innings—

R.	H.	E.					
Montreal	2	3	0	1	2	3	—11
Uniteds	1	0	3	0	1	0	—5
R. H. E.							
Montreal	11	1	0				
Uniteds	5	0	0				
Attendance	—12,579.						

SAPPERTONS WILL ATTEMPT TO WIN GAME THIS EVENING

Steady Losers From Suburbs Hope to Humble Reginas Tonnite, But Leaders Have Strong Team.

The Sappertons and Reginas clash tonight in a schedule intermediate game. The Sapperton players have not won a game yet but have had several narrow escapes and tonight they are determined to get on the map.

Both teams will be strong for tonight. Pearson will be back at point for the Reginas, but the leaders will be without the services of Fitzgerald, which ought to make a difference at center.

The following are the teams: Reginas—Keary, Pearson, Robertson, Cotton, Turnbull, Fletcher, Wright, Smith, Gifford, Kenny, C. Smith, Morrison.

Sappertons—Coutts, Stott, Patchell, W. Patchell, Atkinson, Carroll, K. McKenzie, Sclater, Archibald, R. McKenzie, Coutts, H. Sclater.

Americans Win in Australia. Sydney, N. S. W., The All-American football team, composed of students of western universities, beat the Orange team by a score of eleven to nine today.

SENTENCES VAGRANTS TO WORK IN WHEAT FIELDS

Kansas City, Mo., July 6.—"Hereafter I intend to sentence all vagrants to the Kansas wheat fields, while the harvest season is on," said Judge Burney in the municipal court yesterday. "If they refuse to go and are caught loitering around town I will send them to the workhouse for six months."

"JOSHING" ROOSEVELT.

London Star Tells Theodore to Take His Own Advice.

London, July 6.—The Star takes occasion to "josh" Colonel Roosevelt for his Guildhall speech, after commenting on the race riots, facing the colonel's statement that a nation's first duty is to preserve order.

"His complacency must be shaken," says The Star, referring to Roosevelt. "We await to see whether he will apply the criticism of Britain's conduct of affairs in Egypt in his own country. It is a pity that Americans are not cultivated in the art of taking sporting defeats in a dignified manner and in minding their own business politically."

The Star finds comfort in the fact that Sir Eldon Gorst is not to be removed from the position of British agent in Egypt, saying:

"Roosevelt allowed himself to become the catspaw of a cabal against Gorst, and did much to kill the liberals' confidence in him."

INCREASE OF MILLIONS.

C. P. R. Figures of Year Show Great Growth of Business.

Montreal, July 5.—Figures available show the results of the fiscal year of the Canadian Pacific ending June 30. Taking the company's approximate figures for June, along with the official statement of eleven months, the gross earnings are \$94,585,000, an increase for the year of \$18,272,000.

Estimating the net earnings at about the same level may make the net earnings for the year total \$33,522,000, an increase of \$10,767,000. The year's results exceed anything in the history of the road.

NO ONE TO BLAME FOR HERALD DISASTER

Montreal, July 6.—The coroner's jury has brought in a verdict holding no one responsible for the collapse of the building, on June 30, which caused the loss of thirty-four lives and injury to some twenty others.

The city council has voted the sum of \$10,000 to the fund for the families of the victims of the disaster.

FIGHT PICTURES BARRED IN SOUTH AFRICA

London, July 6.—The Jeffries-Johnson fight pictures will be barred in the biograph halls of Johannesburg, South Africa, according to a dispatch received here today. The officials fear that the pictures would cause the smouldering race feeling there to burst into flame and that fatal riots between whites and blacks would result.

CALL LAW UN-BRITISH.

Toronto Merchants Protest Against B. C. Companies Legislation.

Toronto, July 6.—Among the business men and members of the Toronto Board of Trade there is a strong feeling against the action of the British Columbia government in fixing the commercial tax on the basis of the capital of a company seeking to do business in that province, instead of allowing licenses to be issued, as in Ontario and the other provinces, on the amount of capital required to do business in the province where the license is sought.

The matter will be taken up by the Manufacturers' association and merchants and members of the Board of Trade who will wait upon the government and ask for a veto of the legislation which is declared to be un-British. In Ontario a man may sell goods without a license and still have a standing in the court. This is denied by British Columbia law.

RELIGIOUS DEBATES ARE RAGING IN SPAIN

Madrid, July 6.—Religious debates are raging in both houses of parliament.

The Bishop of Madrid, leading the attack, claimed that the laws of the church are the laws of the country, because the constitution makes Catholicism the state religion.

Premier Candalejas in reply declared that the invasion of state sovereignty by the church was no longer tenable.

"I know that a conspiracy exists to accomplish my downfall," he said. "Whether it succeeds or not does not matter, as the time has come when Spain will place herself abreast of modern nations."

PORTS ON GREAT LAKES.

Canadian Northern Awards Contract for Virginia-Duluth Line.

Toronto, July 6.—As the first step in the direction of securing two shipping ports at the head of the Great Lakes, the Canadian Northern Railway company has awarded to Foley, Welsh & Stewart, railway contractors of St. Paul, the contract for the construction of their line from Virginia to Duluth, in Minnesota.

This piece of construction, which will give to Messrs. Mackenzie and Mann a through line from Winnipeg to Duluth and excellent connection with Chicago, is to be completed within a year. It will cost roughly \$35,000 a mile, which will mean an expenditure of more than \$2,500,000 for the seventy-five miles.

WEDS HIS WIFE TWICE.

William Collier Has Second Ceremony Just to Make Sure.

Oakland, July 6.—William Henry Morenus, better known as William Collier, the actor, duplicated today his wedding ceremony of May 5, performed at Davenport, Ia., when he was again married here by Justice of the Peace Quinn. His wife was formerly Mrs. C. W. Gall, and secured a divorce from her husband some time ago.

The marriage performed today was for the purpose of forestalling any complications which might arise in the settlement of the estate which he desires to go to his wife upon his death.

3 p.m.—Cloverdale, Nicomekl, and Port Kells, daily, Clayton on Tuesday, Thursday, Friday and Saturday; Tynhead on Tuesday and Friday; Ban Accord, Tuesday and Friday.

4:00 p.m.—Vancouver and Burnaby Lake, via B. C. Electric railway. Saturday an extra mail is despatched to Victoria via Vancouver at this hour.

Blaine and Seattle, including all U. S. points, east and south, via the G. N. R. "Flyer."

ENGLISH BARONETS ON ANXIOUS SEAT

Sprigs of Nobility Await Production of Official List of Titles That Will Wash

London, July 6.—American heiresses with sprigs of the British baronet suit for their hands and hearts should scrutinize them closely before they are the real goods. There are crowds of worried baronets in England just now. They await with misgivings the production of the official list of the baronets which the kings of arms—the officials charged with keeping the record of titled folks straight—and preventing fraudulent assumption of rank—are to present to Home Secretary Winston Churchill.

Up to now no check has existed on anyone belonging to the order. Nor has there been any court or legal tribunal where claimants might appeal for recognition as claimants to the peerage, such as the American Lord Fairfax, have been able to do. As a result there are scores of Britishers styling themselves "Sir" or "Baronet" whose claims to their titles are very shaky.

The kings of arms have a tough job to sort out the wheat from the chaff and present an authentic roll. Baronets were originally created for England, Scotland and Ireland, and the representatives of the original creations existing at the union of these countries were created baronets of the United Kingdom. The premier baronet of England is Sir Hickman Beckett Bacon, the eleventh holder of a creation of 1611.

Primarily the order was created for the purpose of raising money for the king's exchequer, a certain Sir Thomas Sherley, of Wiston, being its actual inventor. Each new baronet contributed \$9,475 to the exchequer, exclusive of fees. This sum was ostensibly appropriated to the defense and maintenance of the new plantation in Ulster, but actually it passed into the king's exhausted cash box.

Qualifications for Honor. According to the instructions given to the commissioners appointed for admitting to the new dignity, none were eligible but "men of quality, state of living and good reputation, worthy of the same, and at the least descended of a grandfather (by the father's side) that bore arms, and who have also certain yearly revenue of 5,000 pounds per annum."

The number created was 200, and the king engaged for himself, his heirs and successors that this number should never be exceeded. So far as England was concerned, King James may be said to have adhered to his undertaking, but he found title selling unappealing to human vanity and was a profitable side line in the king's business, so in the eighteenth year of his reign he had recourse to the expedient of creating baronets of Ireland for the same purpose and with the same privileges within the kingdom of Ireland as had been conferred on the order in England.

A scheme for creating baronets for Scotland was also devised, which it was conceived would be no infraction of the original compact to confine the grants to a certain number. These Scottish baronets were to be created under the great seal of Scotland for the reduction of Arcadia or Nova Scotia. The scheme was not carried out by King James. Early, however, in the reign of his successor, several Scottish baronets were created, the first to receive the title being Sir Robert Gordon, of Gordonstowe, a younger son of the Earl of Sutherland. This title only became extinct by the death in 1908 of Sir Robert Glendown Gordon, ninth Baronet of Letterfourte.

Wear Orange Ribbon. The baronets of Scotland had a grant of land in Nova Scotia and had assigned to them as an addition to their armorial bearings the ensign of Nova Scotia. But in 1629, after Nova Scotia was sold to the French, this privilege was changed into permission to wear a badge on their necks pendulous from an orange tawny silk ribbon.

The original limitation of the number of the baronetage has long been obsolete. Their present number, exclusive of those members of the peerage who are baronets as well, exceeds 1,000. The claimant of an hereditary title must be prepared to prove two propositions, the creation and existence of the dignity, and the fact that he is heir to the person first created. A baronetage is created by the grant of letters patent. The enrollment of the patent on the patent rolls, or the actual production of the original, is, of course, the best evidence of the creation of the dignity; but its non-

The destruction of the house fly is a public duty. Almost every American State Board of Health is carrying on a crusade against him.

His filthy origin and habits, and the fact that his body is generally laden with disease-producing germs, makes him one of the greatest enemies of his human race.

If the housekeepers of Canada will use

WILSON'S Fly Pads

presently, this peril would be tremendously reduced.

PEACE ADVOCATES TO MEET IN STOCKHOLM

Much Interest Will Attach to Next Conference for Abolition of War—Famous Names to Attend.

Stockholm, July 6.—When the World's Peace Congress meets in August in Stockholm it is likely to attract exceptional interest. From all parts of the globe famous men and women are coming, among them four Nobel peace prize winners. Baroness Bertha von Suthner is prevented from being present through ill health, but Professor W. Oswald will speak on "Civilization and Peace." Professor O. Montelius on "Warlike and Peaceable Migrations of the Nations," and both of them, with a French and an English speaker, will address a public meeting August 2.

At the second public meeting two days later, the women will dominate the program. The eminent Swedish authors, Ellen Key and Miss A. B. Eckstein, will be chief speakers, at a third great gathering several famous international orators will deal with the subject of "Peace and the Social Question."

The special meetings will be held at the "House of the Knights," the headquarters of the Swedish nobility. "The Importance and the Development of The Hague Conference" will be introduced by Dr. A. Gobut (Switzerland) the question of a European peace federation by J. G. Alexander, the proposals as to international courts and uniform legislation by Dr. Emile Armand, "Legitimate Defensive Arms" by Gaston Moch, the French deputy, and the all important question of a general reduction of armaments by Herr A. Fried (Austria).

An international honorary committee has been formed in different countries for the advancement of the congress and its aims. It includes Former President Roosevelt, Baron d'Estournelles de Constant, the Swedish premier and foreign minister and the premiers of Denmark and Norway, the Italian Senators Pasquale Fiore and Ettore Ponti, the Ambassador Pomaroso Pitoni, the burgomaster of Rome, Ernest Nathan, Professor Masaryk (Prague), and Professor Quade.

As to the social side of the congress, no nation understands better how to give such functions style and heartiness than do the Swedes, who are renowned for their courtly and generous hospitality.

A representative reception committee is being formed in Malmo, where the continental members of the congress will arrive, and where a banquet will be given. In Stockholm a grand inaugural banquet is fixed for August 1, the first day of the congress, at the Grand Hotel Royal, and in the course of the week there will be an excursion by steamboat to Salt-sjohaden, concluding with a dinner at that beautiful spot. After the congress the members are invited to visit the famous and picturesque province of Dalecarlia, from where they will proceed to Gothenburg, where also a reception committee has been formed. In all, peace will have some rare junketing placed to her credit.

FIELDS FOR EMIGRANTS.

Japan Might Place Surplus Population in Siam and Morneo.

Tokyo, July 6.—It is stated that the foreign office has instructed the consuls in Borneo and Siam to investigate the condition in those countries with a view to decide whether they are fit fields for the settlement of Japanese emigrants, says the Japan Advertiser, and it adds: This is a news agency report and it is not confirmed.

enrollment by no means disproves its existence. It is curious to find that the patents of no less than twenty out of the 204 English baronetcies created by James I. were never enrolled. There never has been any doubt of the existence of these twenty baronetcies, although, with regard to nine of them, there is no signet bill or other document respecting their creation. Their names do not appear in the list of the Creation of Baronets, 1611-46. The names of the other eleven do appear, and the signet bills for their creations exist.

During the later years of the reign of Charles I. numerous baronetcies were created, the patents of which never found their way on to the patent rolls. Those whose titles are likely to be the subject of investigation are consulting "Foster's Baronetcie of 1883," where no less than sixty-five baronets are included in a section marked "Chaos" as being among "the more questionable assumptions." And those who find themselves in this list are hustling to find proofs of their dignity.

Registration Not Perfect.

In December, 1782, a royal warrant provided for the placing on record at the Herald's office of a series of baronets' pedigrees in confirmation of their titles, but this was resisted by an influential number of that order, who were successful in obtaining from King George III. a concession that it should not be deemed necessary for baronetcies of earlier date than 1783, and although there is at the present time a series of baronets' pedigrees at the Herald's college placed upon record in confirmation of their titles, this registration of pedigrees has never been carried out to such an extent as to become an effectual barrier to unfounded claims. Apart from the official records some claimants can make good reference to the archives of various families concerned.

But these are anxious times for members of "Chaos," for the kings of arms may think differently of their family records—and the rank of baronet is still too valuable in the world's estimation to be abandoned lightly.

LAND REGISTRY ACT.

Take notice that an application has been made to register Duncan Bell Hall as the owner in fee simple, under a Tax Sale Deed from E. A. Wilmot, Inspector of dykes, to Duncan Bell Hall, bearing date the 13th day of June, A.D., 1907, of all and singular that certain parcel or tract of land and premises situate, lying and being in the District of New Westminster, in the Province of British Columbia, more particularly known and described as part 3.60 acres of the southeast quarter of Section 18, Township 3, Range 29, west of 6th Meridian.

You and those claiming through or under you and all persons claiming any interest in the said land by virtue of any unregistered instrument, and all persons claiming any interest in the said land by descent, whose title is not reserved over the provisions of the "Land Registry Act," are required to contest the sale of the tax purchaser within forty-five days from the date of the first publication of this notice upon you and in default of a caveat or certificate of pending being filed within a period, or in default of redemption before registration, you and each of you will be forever estopped and debarred from setting up any claim to or in respect of the said land, and I shall register Duncan Bell Hall as owner thereof in fee. And I hereby certify that publication of this notice for thirty days in a daily newspaper published in New Westminster will be good and sufficient service thereof.

Dated at the Land Registry Office, New Westminster, Province of British Columbia, this 10th day of April, A. D., 1910.

NEW BRITISH COURT RELEASES PRISONERS

Year's Work of Criminal Appeals Tribunal Reveals Long List of Wrongful Convictions.

London, July 6.—A year's working of the court of criminal appeal in England has revealed a terrible picture of wrongful conviction. Every day while this appeal court has been sitting, glaring cases have been brought up and sometimes as many as three convictions a day have been reversed.

Before the appeal court was established there was no hope for anyone convicted in England of a criminal offense, though the judge might have misdirected the jury or allowed irrelevant evidence calculated to prejudice the mind of the jury towards the prisoner.

Some judges strongly opposed the institution of an appeal court. It is easy now to see why they felt nervous about it. Take the last day's session of the appeal judges. A Cornishman named Robert Rodda had been sent to five years penal servitude, though he had a bona fide defense, because he had reserved that defense in the police court—a common practice in England—and the judge at the assize court told the jury it was merely an afterthought. That was two years ago, but the court of appeal has decided the jury were misdirected, and the remaining three years of the sentence have been quashed.

In another well-known case, an antique dealer, Arthur T. Ellis, was charged with charging excessive prices for china sold to a millionaire dry goods merchant named Dickens, who had the collecting craze. The judge admitted a lot of evidence as to other offenses committed by Ellis, not connected with that charge, and a long sentence resulted. The judges have now decided that such evidence should not have been admitted and the conviction is annulled. This court of criminal appeal promises to become one of the busiest courts in England.

TREATED LIKE CHILDREN.

Ottawa, July 6.—Eight sergeants of the Second Field Battery have handed in their resignations to the commanding officer and asked permission to join the Boy Scouts. They say they were treated as children anyway in Petewawa with the "no beer" regulation and that they should therefore belong to a boys' brigade.

What they particularly have reference to is that when Colonel English returned to Petewawa before the militiamen left he allowed the permanent soldiers canteens to be opened, but would not allow any beer to be sold to the militiamen.

RESCUE 27 CHILDREN KIDNAPED FOR SLAVERY

Little Victims Taken for Sale in Swatow Returned to Shanghai in Pitiful Plight.

Shanghai, July 6.—Judging by the interest taken by hundreds, if not thousands, of the lower class Chinese, informed by some mysterious underground means, of the arrival of some twenty-seven kidnaped children from Swatow on the Hanksank, this business of kidnaping children from Shanghai must be a rather extensive industry in these settlements, says the Shanghai Times.

Among the passengers on the steamer named were three men and two women, who will appear before the mixed court charged with stealing these children, and offering them for sale at Swatow. The children themselves when taken from the customs jetty to the central police station were earnestly scrutinized by anxious fathers and mothers who had lost their off-spring on various occasions, but none of the youngsters were recognized or claimed during the day. The children did not seem to have been too well looked after by the kidnapers, and in one or two cases it is to be feared that death will result in a short time, as the hapless little victims are in terrible condition.

BOSTON NEWS BUREAU AGAIN IN LIMELIGHT

Boston, July 6.—The Boston News Bureau, that enterprising publication which performed the last rites over the dead hopes of Mr. Borden in the last general election, has been "seen" again. It has moved into new quarters; it looks prosperous. Its latest undertaking is to discredit the Grand Trunk, which is trying to cross the corner of Massachusetts to get to its Rhode Island prospective line.

The Bureau claims that the Grand Trunk is trying to unload the Central Vermont on the New York, New Haven and Hartford; the mere mention of which probably causes a broad smile around the general offices of the Grand Trunk.

Canadians will remember the result of the News Bureau's great slander of Laurier and the Grand Trunk Pacific. They will recall that a bundle of the Bureau was franked to the Hon. Robert Rogers, left upon his doorstep like an abandoned child and disowned by the father who was expected to adopt him.

The most interesting adventure of C. W. Barron, who puts himself on the front page as publisher, was when he went after one Thomas W. Lawson. His experience that time was like the experience of a stupid pig who lies down to sleep with a porcupine.

OPIUM-EATING HABIT IS GROWING IN KOREA

In One City of Sixty Thousand More Than One Thousand Are Drug Users.

Seoul, July 6.—Among the reports and the speeches of the recent session of the Methodist Episcopal conference there was one of great interest to all who have the good of Korea at heart. This was a short talk given by Dr. W. T. Reid, who is a missionary at Song Do, Korea, on the opium problem in Korea.

He stated that eight years ago there were very few Koreans who used it. In these eight years the number has doubled. For many years the gum only could be secured and the price being very high the rich only could use it. Eight years ago out of every ten who used opium there were no morphine users, but four years ago, six out of ten used morphine and four used the gum. Now the number who use the morphine is still larger.

In the city of Song Do alone, where there is a population of some 50,000 to 60,000, there are over 1,000 morphine and opium eaters. For the past eighteen months Dr. Reid has treated 284 cases of the morphine habit and while many have been cured and have not gone back to the habit, yet many of them have gone back to the old way. He pleads for some sort of institution where the patients may be kept until they are firmly grounded in the new life and given a chance to make men of themselves.

KING PETER STRICKEN BY INCURABLE DISEASE

Belgrade, July 6.—Sensational developments may be expected at any moment in this land of blood and crime, for King Peter is suffering from an incurable disease. Already another big dynastic trouble is brewing.

As the late King Alexander's murder practically exterminated the line of the Obrenovitchs, the Obrenovitch loyalists were at a loss for a successor worthy of their support. At first they searched the Continental capitals for a foreign prince to run as their pretender but the prospect of pretending did not please, the princelings who were approached.

Nothing daunted, the Obrenovitch loyalists transferred their allegiance to King Peter's eldest son, George, who, it may be remembered, was compelled to renounce all his rights to the succession a year ago. In spite of this young prince's record, however, the Obrenovitch hatred of the regicides is so strong, that they refer to him as "our unfortunate Esau." Several arrests already have been made of persons suspected to be implicated in the anti-dynastic movement.

CITY OF NEW WESTMINSTER SANITARY NOTICE.

All rubbish and garbage must be removed to the foot of Sixteenth street and Fifth avenue, where it will be burned by the corporation.

Any person or persons who dump garbage or rubbish of any kind on any other street or avenue or on any lane, vacant lot or public property will be prosecuted under the provisions of the Sanitary Bylaw.

By Order, S. J. PEARCE,
Sanitary Inspector.
City Hall, June 13, 1910.

A Summer Home or a Business Lot WHICH?

Here is a proposition which wants no thinking over.

Lots in the Main Thoroughfare of LANGLEY. Some have River Frontage, others have Trackage. All have lovely locations, lying on the gentle slope which falls to the Fraser.

You can make here now, a Summer Home with all the enjoyment of river and mountain scenery. Your lot, in the near future, will be sought after—any man after for business purposes.

This Sub-division is right in the heart of the town. The New Transcontinental C. N. R. runs through the Sub-division.

ONLY \$30 DOWN GETS YOU A LOT

Balance spread over two years.

CITY NEWS

The interior fittings of the new land registry office have nearly all been installed.

Try a "Want" ad in The News. It will bring results.

Mrs. J. E. Insley entertained a few friends at her new house yesterday evening in honor of her guest, Mrs. Garneau, of North Yakima, Wash.

Tan footwear is being slaughtered at Sinclair's big sale.

To discuss publicly the money by-laws to be voted on next Thursday, a meeting will be held in the council chamber tomorrow evening at eight o'clock.

The management of the Bohemian Cafe sees to it that the best only is served there.

On the B. C. Electric Chilliwack line, there is in use at present over 400 miles of aluminum cable varying in thickness from one sixth of an inch to one inch.

McQuarrie Bros. are specialists in New Westminster realty. Watch their advertisements for bargains.

Copies of The Graphic and Illustrated London News, showing pictures of the king's funeral, are on exhibition in the board of trade room. The Graphic contains an illustration of the wreath sent by British Columbia.

95c buys a pair of cool canvas shoes at Sinclair's.

Mrs. J. E. Insley last night visited Mizpah Rebekah Lodge No. 2, of Vancouver, where a meeting was held for the installation of officers. A feature of the evening was the presentation to Past Noble Grand Sister Dick of a beautiful Odd Fellows' jewel.

For a pleasant cool drink, try the Ice Cream Sodas at The Royal Cafe.

A meeting of the Citizens Temperance and Moral Reform league will be held at the residence of George Small, Third avenue and Second street, at eight o'clock this evening.

The B. C. Packers association has fixed the price to be paid fishermen for sockeyes this season at twenty-five cents per fish.

Carloads in and more on the way. See our stock. We defy competition. For Anything in the Furniture line come to W. E. Fales.

The Anglican mission boat Columbia II. will be formally launched at seven o'clock this evening from the ways at the Westminster Marine Railways plant. Bishop-elect de Penier will probably conduct the service, while music will be supplied by the united choirs of Holy Trinity and St. Barnabas churches.

McQuarrie Bros. are now ready to do business in the real estate and insurance lines. Office, 609, Columbia street.

Officers were elected at the first annual meeting of the Cloverdale board of trade on Tuesday evening as follows: Reeve Boze, president; S. Shannon, vice president; L. Carn-cross, secretary; D. Haddon, treasurer; members of council, R. D. MacKenzie, W. E. Laking, S. H. Shannon, Reeve Sullivan, J. T. Brown, H. T. Thrift, George Campbell, E. M. Cameron, H. B. Parr, B. R. Whitely and George H. Wales.

For Geraniums, Dahlias and all kinds of Spring Bedding Plants phone Davis' Greenhouse, R 208.

The Vulcan Iron works, of this city, has secured the contract for the assembling of the steel pipe for the Jordan River-Vancouver Island Power company. There will be about two miles of this pipe, which will be forty-four inches in diameter, with a thickness of three eighths of an inch. The pipe will be received from the old country in three curved plates, already rolled, and the Vulcan Iron works will have to rivet them together.

Lost, stolen or strayed, bay mare, between two and three years old, right hind foot white, white scar on forehead, foretop clipped, shod all round. Finder please return to C. Spring, 305 Queens avenue.

The Woman's Missionary Society of Queens avenue Methodist church will hold a garden party on the lawn at Mrs. J. Carter Smith's, 501 St. George street, Friday, 8th inst., from 4 to 10 p. m. Refreshments for sale. Good music and a good time.

Free excursion to Langley on Saturday first. See Wilson, Cook & Co's ad on Page 7.

Now is the time for canvas shoes. Sinclair is selling them at cost during his big sale.

Four drunks appeared in the police court yesterday, Magistrate H. L. Edmonds seemed somewhat inclined to deal severely with the offenders. Two of them had seen the police court from the dock before and were fined \$5 and \$10 and costs respectively, with the promise of a term in jail should they ever appear in the same capacity again. One was allowed out on suspended sentence. Another one was discharged with the understanding that he was to leave the city.

The annual picnic of Queens avenue Methodist Sunday school took place yesterday at Derby townsite, opposite Port Haney. The party, about two hundred strong, left in the morning on the steamer Paystreak, arriving at the picnic grounds about eleven o'clock. Baseball games, boys and girls' races and other sports were held during the day. The picnickers returned to the city early in the evening delighted with the trip and the courtesy shown by the officers and crew of the Paystreak.

Alteration Sale Prices For July

PRICES GO DOWN ANOTHER NOTCH TODAY

The greater the task the greater the efforts put forth to accomplish the object of your toil. We simply must have more room, at least the space occupied by thousands of dollars worth of over-stocks and odd lines. The time grows shorter until the contractors force us to shift our departments around. Prices are down another notch today. We realize that low prices is the greatest lever in accomplishing our object of reducing our stock. July Sale Prices mean much to our customers. Investigate these new offerings. Everything reduced in price.

Women's Outing Coats

\$1.95c Each

Regular values \$5.50 to \$7.50, 8 only, Linen and Indian Head Coats which have become slightly soiled, affecting the ready sale at the regular prices. We clear them out at a price ridiculously low. Coats are three-quarter and hip lengths; white only. Sale Price, each, \$1.95.

Women's and Misses' Wash Suits

\$1.95c Each

Regular values up to \$6.50. Another odd soiled lot of White and Colored Wash Suits and Coat Suits. Mostly last year's styles. Only 36 suits in the lot; all sizes. Your choice today, \$1.95 each.

New Shirt Waists

\$1.95 Each

Some of this season's newest Tailored Waists and Embroidered Front Blouses in a complete range of sizes. As everything else in the store, receives a lower price for our big Alteration Sale. These blouses are among the lines with big overstock, hence a much lower price than usual. White only. Regular prices \$2.25 to \$3.00. Sale Price, each, \$1.95.

Girls' White Muslin Dresses

\$2.95 Each

Regular values \$4.00 to \$6.75; 10 only, of the finest Muslin Dresses; nicely trimmed with fine laces and insertion. As we are no longer ordering goods of this make, we make considerable sacrifice to clear them out. In the lot are dresses suitable for girls 5 to 14 years of age. They are well made, fresh and clean, and are attractive in every way. Your choice, each, \$2.95.

All Untrimmed Shapes at Half Price

Flowers at the same reduction. For this week any Sale Shape will be trimmed for the low prices of 25c each.

W. S. COLLISTER & CO.

THE STORE FOR WOMEN'S WEAR.
