

SENATE DEMANDS EXPLANATION FROM AMBASSADOR TO BRITAIN

Walter Hines Page in Hot Water Over Speech He Made in London.

Spoke in Reference to Panama Canal and Monroe Doctrine.

Washington, March 12.—Walter H. Page, American ambassador to Great Britain, was made the target of inquiry in a resolution adopted today by the senate calling upon the secretary of state to investigate alleged public assertions by the ambassador relative to the Monroe doctrine and the Panama canal.

Senator Chamberlain, aroused over the reports of a speech by Ambassador Page in London last night before the Associated Chambers of Commerce, introduced the resolution of inquiry and his request for immediate consideration resulted in its adoption without debate.

The resolution requests the secretary of state to procure a copy for the use of the senate of Ambassador Page's address and to call upon the ambassador for evidence upon which he based the alleged statement that "it added greatly to the pleasure of the people of the United States in the building of the Panama canal to know that the British would profit most by its use."

Particular request is made in the resolution for a verbatim report of that portion of the ambassador's address in which he is reported to have defined the Monroe doctrine as meaning merely that "the United States would prefer that no European governments would gain more land in the new world."

Not Reported Verbatim.

After the resolution had been adopted senators heard of dispatches from London saying the ambassador's address was delivered extemporaneously late in the evening and not reported verbatim and quoting Mr. Page as explaining that his reference to British use of the Panama canal was in a light vein. It was taken for granted that in response to the state department's request the ambassador would furnish his recollection of "just what he had said."

No attempt to oppose the resolution was made when Senator Chamberlain offered it, the usual custom being to pass such measures as a matter of course. Later in the day a similar resolution was introduced in the house by Representative Murray of Oklahoma, a Democrat, but it did not get before the body for discussion.

Monroe Doctrine.

There was no official comment upon the speech or the action of the senate. In an informal discussion at the White House, however, President Wilson indicated that the Monroe doctrine was as much a part of the American foreign policy today as a hundred years ago. He did not express an opinion concerning the ambassador's address but when asked whether he considered the Monroe doctrine obsolete, replied he had not heard that it was "falling in any way."

The senate resolution had not reached Secretary Bryan tonight. According to custom, if Ambassador Page does not forestall the action by voluntarily forwarding an explanation of the incident, the resolution will be tabled tomorrow as soon as it is sent to the state department.

Representative Murray's resolution sets forth that the remarks of Ambassador Page seem to "portend the policy of the state department to abandon, upon demand, the Monroe doctrine and to invite European violation." It would ask the state department whether a new American policy of subjecting American wealth to the selfish interest of the nations of Europe is the fundamental reason for the demand to repeal the law now in force exempting American vessels conducting a coastwise trade from canal tolls.

It was recalled at the capital that Senator Chamberlain last November introduced in the senate a petition of protest against reported remarks by Ambassador Page from members of the Confederated German societies and the Robert Emmett society of Portland, Ore. These protests, which also were forwarded to President Wilson and Secretary Bryan characterized as "un-American" remarks attributed to Ambassador Page to the effect that the United States was "English led and English ruled, and that the obligation of government and civilization rest with the people who speak the language of Shakespeare."

RECOVER SEVEN MORE BODIES FROM ST. LOUIS FIRE RUINS

St. Louis, Mo., March 12.—Eight bodies were recovered today from the ruins of the Missouri Athletic club building, destroyed by fire Monday, bringing the total number recovered to 18. Of these 11 have been identified.

The bodies of 13 are believed to be in the ruins. Finding of the club register and a comparison of the names therein with lists already prepared confirmed the club officers in the belief that the death toll would exceed 30.

A joint committee of the municipal assembly began today inquiry into the cause of the disaster.

PREPARE FOR ATTACK.

Federals Construct Entrenchments at Tampico—U. S. Hospital Ship, Vera Cruz, Mex., March 12.—A wireless dispatch received today from Tampico reports that the federals are busy entrenching on the outskirts of that city in anticipation of a rebel attack. The United States hospital ship Solace and the cruiser Des Moines are lying in the Panuco river at Tampico ready to embark refugees.

The German steamer Kronprinzessin Cecilie, which leaves tomorrow for Tampico, will be detained there in order to embark the Germans. All the American warships will remain at Tampico pending developments of the situation. The yacht Dolphin will proceed thither from Vera Cruz as soon as the heavy northerner subsides.

WORK FOR YEAR NOW UNDERWAY

Council of Board of Trade Completes Committees—Ewen Avenue Extension.

The following committees were completed at a meeting of the board of trade council yesterday, the first named being chairman:

Fisheries—M. Monk, J. Anderson, George Lockie-Brown.

Legislation—A. E. White, J. A. Motherwell, J. R. Grant.

Market and produce—D. S. Curtis, J. W. Cunningham, L. M. Richardson, W. F. Butcher.

Lumber—George Small, J. R. Robson, L. A. Lewis.

Home reunion—D. S. Curtis, George Small, L. M. Richardson.

Commerce and industry—L. M. Richardson, L. B. Lusby, W. L. Darling.

Municipal—J. W. Cunningham, E. Goulet, R. Sutherland.

Roads and bridges—R. Sutherland, T. S. Annandale, J. W. Cunningham.

The recommendations in the annual reports were ordered to be tabulated and will be considered at the next meeting of the board.

The special committee regarding the Pacific Coast Ad club's convention reported and was given more time, the members being united in favor of entertaining the delegates in New Westminster.

Ewen Avenue.

The question of connection between Ewen avenue and No. 19 road, Richmond, was referred to the roads and bridges committee for further action. Richmond has secured an estimate of the cost of grading the new portion and putting the balance of the road to No. 5 road in good condition. The estimate was \$27,708, and Richmond municipality will assist the city in securing a grant from the government towards the work.

Removal of C. P. R.

The question of the removal of the C. P. R. terminals from New Westminster to Port Coquitlam was referred to the transportation committee for investigation.

The action taken by the commerce and industry committee, asking for the appointment of a customs officer at New Westminster was confirmed.

The question of the operation of the C. N. R. line between New Westminster and Steveston will be again stirred up by the special committee appointed for that purpose last fall.

Line of Steamers.

Captain Yates addressed the council on a proposition to operate a line of steamers from New Westminster to the orient and to erect coal bunkers and a steel plant on the Fraser, and asking that the board of trade assist in securing concessions from the city. The matter was referred to the commerce and industry committee, which will report when a definite plan is submitted by Captain Yates.

Hotel Built by Baldwin Burns.

Truckee, Cal., March 12.—The Hotel Tallac, at the southern end of Lake Tahoe, has been destroyed by fire, according to a report reaching here today. The Tallac was built by the late E. J. (Lucky) Baldwin. The loss is estimated at \$50,000.

Man Who Stopped Train By Air Dies After Wonderful Career

New York, March 12.—George Westinghouse, a foremost figure in the world of engineering and inventor of the air brake that bears his name, died late today at his residence here of heart disease. The end came a few hours after it became publicly known that Mr. Westinghouse was seriously ill. He was in his 68th year. Funeral services will take place at the Fifth Avenue Presbyterian church on Saturday and the burial will be in Woodlawn cemetery.

Mr. Westinghouse became an inventor at the age of 15, when he produced a rotary engine. Four years later he constructed a device for replacing derailed steam cars. Then, when 21 years of age, he sought the finan-

RUSH PILING TO COMPLETION

All Obstacles to Harbor Work Removed—Amicable Arrangement.

B. C. Packers' Association Gives City Right to Drive Piles in Front of Its Plant.

The final obstruction to the progress of the harbor works was swept out of the path yesterday when at a meeting with the members of the harbor committee General Manager W. H. Barker, of the B. C. Packers' association, gave authority in writing to the city to drive piles in front of the Columbia cold storage plant. The agreement entered into between Mr. Barker and the committee was a confirmation of the arrangement made between G. Cassidy, the local manager of the B. C. Packers, at a previous meeting when permission for the prosecution of the pile-driving in front of their wharves was given by the Brackman-Ker Milling company and Joseph Mayers, coal merchant.

The pile driving and filling in connection with the harbor works can now be completed to Sixth street without delay. Although the B. C. Packers have granted permission for the work to go ahead, it is expected that they will later file a bill for compensation with the city, but, according to Alderman Annandale, such action will not be taken until the cold storage plant is removed, to Steveston, lock, stock and barrel.

The members of the harbor committee are highly pleased with the early settlement of the difficulties in respect to the waterfront leases.

CONSTABLE REID IMPLICATES HAGEL

Winnipeg, March 12.—Constable Reid, one of the guards of Kratchenko when he escaped from prison, was brought from Soney Mountain penitentiary today and placed on the stand in the Hagel-Westlake trial. Reid corroborated the evidence given yesterday by John Buxton, Jr., in every detail implicating Percy Hagel in the conspiracy. Reid was on the stand most of the day and there were few sensational features.

STORMY MEETING OPENS CAMPAIGN

Aspirants for Positions on Burnaby School Board Talk to Ratepayers at Edmonds.

Burnaby was initiated into another election campaign last night, a fair attendance greeting and heckling—school board candidates at a meeting at Edmonds. With the apparent intention of making a demonstration, a large body of ratepayers made the trip from the Central Park district and started, they kept Chairman P. B. Brown busy.

Rumors that the stormy school board session several weeks ago, when the secretary was accused of entering minutes in the book after it had been signed, had not been lost sight of, was verified by ex-Trustee Coulter who mentioned during last night's gathering that his solicitors were bringing action against those concerned.

REACH VERDICT AFTER FIVE HOURS

Tony Cierello Convicted on Both Counts of Indictment—Jury Deliberates Long Time.

It took the jury in the Tony Cierello case five hours yesterday, including the dinner period, to arrive at a verdict of guilty on both counts of the indictment entered against the prisoner.

The Cierello case did not promise at the outset to be anything out of the ordinary or different from the other number three riot cases from Nanaimo, but the jury retired from the court room shortly after 4 o'clock and did not show up again, except for dinner, till close on half past nine at night.

By the time they did get back court officers and counsel were beginning to wonder if it meant an all night vigil for the judge had gone home, but a clapping of hands in the jury room about 9:20 told that some decision had been reached and a few moments later the twelve men filed into the court.

As the judge was absent, Court Registrar Cambridge presided and the verdict of guilty on both counts was entered on the books.

REBELS SURRENDER.

Panama, March 12.—Details of the capture of Esmeraldas, Ecuador, by General Elonadis Plaza, president of Ecuador, show that the rebels yesterday quietly stole away from the town without fighting.

Colonel Carlos Concho, who with his rebel followers, has been in possession of Esmeraldas since December, realized that further resistance was hopeless as the government forces were much superior. He therefore ordered the evacuation of the town and General Plaza took possession without firing a shot.

SHIFT BLAME FOR BENTON'S DEATH

Major Fierro Said to Be the Slayer of British Subject.

Relative of Villa and Expected He Will "Disappear" or Face Other Charge.

El Paso, Texas, March 12.—Information that evidence thus far gathered on the Carranza commission indicates Major Rudolf Fierro as the slayer of William S. Benton, a British subject, assumed importance here today with the arrival of American passengers from Chihuahua with reports, not confirmed, that Fierro had been arrested, charged with the murder of two Mexican railroad men.

That the railroad men murdered is known, and it is believed the slaying was done in cold blood. Whether Fierro really has been arrested in connection with the case is only a report, but the information is regarded as probably correct by those who have been conversant with the fact that the Carranza commission started work with information that Benton was killed by Fierro.

It is said also that the commission has gathered convincing evidence that Colonel Fidel Avila, in command of the garrison at Juarez, ordered the execution of Gustav Bauch, a German-American who was tried as a spy, but in whose case no verdict was rendered. Other officers at Juarez and at Chihuahua repeatedly have denied that he was killed.

In the case of Fierro, whose cruelty is notorious, those familiar with the situation have looked for some charge unconnected with the Benton case to be brought against him as a cloak on which he could be held, or for his disappearance or apparently accidental death. While investigators have been convinced for the last two weeks that it was he, and not General Villa, who killed Benton, they did not expect that he would live to face that particular charge. He was in Villa's office when Benton was killed and is said to be a distant relative of the rebel chief.

The Mexican railroad men are said to have been killed in a resort at Chihuahua where Fierro appeared in an intoxicated condition. They were members of a union and agents of the organization that made the complaint to General Villa.

Bauch, it is said, was not executed until two days after Villa had left Juarez. Whether Villa had orders for the execution is not known, but it is known that evidence thus far gathered indicates that he ordered the execution of the German-American.

ARRESTED FOR BANK ROBBERY NOW ACCUSED OF OTHER CRIME

VIOLIN WORTH \$35,000.

Old Instrument Purchased for Nominal Sum May Be Stradivarius.

London, March 12.—An old violin purchased by Charles Randle, of Tempo, many years ago for a nominal sum and now believed to be a Stradivarius, was submitted last night to the judgment of Jan Kubelik, the noted violinist, who was giving a recital in the city, and the latter after playing on it, declared it was one of the finest he had ever handled. While he would not put a value on it, he thought it possibly might be worth as high as \$35,000. The owner of the instrument was advised to send it for examination to Hill, of London, whose judgment in such matters is considered to be unequalled.

FIND NO TRACE OF BANK ROBBERS

Search for Five Men Who Held Up Bank at Abbotsford Is Kept Up—May Be in Canyon.

No results were obtained yesterday in the search for the five robbers who held up the Abbotsford bank on Tuesday morning. The search was kept up yesterday and several additional provincial constables were on the scene, but no sight of the five foreigners was obtained.

All roads leading towards the international boundary are still closely guarded while pickets are stationed north of the canyon in which the robbers are supposed to be in hiding. Tired and weary of the long vigil, many of the volunteers returned to their homes yesterday after having kept on guard for two whole days. The \$500 reward offered by the Royal bank is keeping many on the job, however, in the hopes of capturing the wanted men.

SCHOOL BOARD.

Trustees May Adopt System to Save Time at Meetings.

The suggestion that the school board adopt the time saving method of having copies of the minutes of previous meetings and reports circulated among the trustees previous to regular meetings in order that they might be acted upon peremptorily was made by Trustee Murray at the meeting of the school board last night.

The system advocated by Trustee Murray is similar to that adopted by the city council some time ago and is the means of eliminating the delay of reading the minutes and having the chairmen of committees give long explanatory reports on matters dealt with by their respective committees at each regular meeting.

The suggestion of Trustee Murray was made after it had been noted in the minutes that the previous regular meeting had ended at the late hour of twenty minutes to one o'clock. It is probable that action will be taken on the proposal later.

Very little business was up for transaction by the board last night. A report of the management committee recommending that printed forms be supplied; that the fire alarm bells be used only in case of fire and that 600 chairs be purchased at 56 1/4 cents each, was adopted after prolonged discussion.

FOR BETTER RELATIONS.

Berlin, March 12.—The organization was complete today of the new German-American Economic association which is to devote its efforts to the cultivation of the business and economic relations of Germany and the United States. About 150 men prominent in various interests was present.

Signs Alaska Railway Bill; Commence Operations at Once

Washington, March 12.—President Wilson today extended what he termed "the hand of real helpfulness and brotherhood to Alaska" when he signed the bill authorizing the expenditure of \$35,000,000 for the first government owned railway constructed by the United States.

Secretary Lane, a group of senators and representatives and members of the Seattle chamber of commerce stood by the president as he affixed his signature to the act which passed both houses of congress by substantial majorities.

The president was in a happy mood as he signed, and in laying one souvenir pen aside to use another, smilingly remarked:

"I'll change engines."

When the bill had been signed, the president made a brief speech.

Secretary Lane immediately afterward had a long talk with the president about the selection of engineers for the task. Although Colonel Goethals had been mentioned for the work, it is unlikely that he will be through with the Panama canal in time for the present undertaking.

Men Taken at Blaine not Implicated in Abbotsford Affair.

Released and Taken Again at Request of Vancouver Police.

George Miller and John Smith, the two men arrested on Wednesday at the boundary on suspicion of having been implicated in the sticking up of the branch of the Royal Bank of Canada at Abbotsford, turned out yesterday to be innocent of the crime, but, by a curious twist of the fate which makes the way of the transgressor hard they are now lodged in the Vancouver jail with a theft charge against them.

For a few brief minutes yesterday afternoon the pair enjoyed their freedom at Abbotsford, but they made the mistake of stopping for a drink at a bar in the little town near the border and before they could make their way across the line, Senior Provincial Constable Stephenson of this city, had them handcuffed once more.

Another Charge.

When the Vancouver police heard that two suspects had been stopped at the boundary line with Royal Bank of Canada five and ten dollar bills in their possession amounting to close on ninety dollars, they connected Miller and Smith up with exactly that sum of money which had disappeared from a room in a Terminal City boarding house last Monday evening. At the same time they departed from that lodging place a couple of short Englishmen whose description tallied wonderfully well with that of the pair taken at the line on suspicion of having had something to do with the Abbotsford hold-up on Tuesday morning.

The Vancouver police phoned Senior Provincial Constable Stephenson of this city that if they wanted the men they would let him know, but up to the time he left yesterday morning with the pair for Abbotsford to have them identified as the bank robbers or relieved of that suspicion, he had not heard anything from Vancouver police headquarters. At Abbotsford it was easily established by confronting the pair with the bank officials that they had nothing to do with Tuesday's holdup, so they were released and the eighty odd dollars taken from them was returned.

In the Nick of Time.

Constable Stephenson was beginning to think of coming back to New Westminster when a rush wire arrived from Vancouver stating that Miller and Smith were the men wanted there for the boarding house robbery and asking that they be brought back to New Westminster where a Vancouver officer would be on hand to take them over. Just how quickly Constable Stephenson made tracks down the road isn't recorded, but he instituted a hurried and thorough search, finally locating the wanted pair of Cockneys in a bar quenching their thirst.

He brought them back on the electric train, arriving here at eight-thirty last evening, where they were met by Detective Jack Thompson of Vancouver and the two men from whose room the ninety dollars had been stolen. These latter identified the pair as soon as they laid eyes on them and they were removed to Vancouver to come up in the police court there this morning.

The curious feature of the case is that they probably would never have been stopped at the border if the money they carried had not been in Royal Bank of Canada bills. That threw them under suspicion of having had a hand in the Abbotsford affair and the Vancouver end of the game unfolded naturally.

RECOVER SEVEN MORE BODIES FROM ST. LOUIS FIRE RUINS

FRIDAY MORNING, MARCH 13, 1914.

ORIENTAL LABOR.

The question of leaseholders from the city employing orientals for certain classes of work has been raised in connection with the granting of a site to a company which already has carried on business in New Westminster and the Trades and Labor council has taken the stand which was to have been expected of the guardians of the white labor cause, viz., against the use of Asiatics at all. This action is consistent and commendable, but at the same time it would appear to be faulty policy to do anything drastic at the present juncture which in any way would embarrass the council in its negotiations for industrial leaseholders.

The members of the city council must be fully alive to the popular desire for white labor and white labor only, a demand, which, if such a thing is possible, is more insistent during a period like the present when labor conditions are not at their best. On this question, then, the council may be given credit for knowing what is expected of it by the ratepayers. Further, if the businesslike manner in which the affairs of the harbor improvement scheme have been handled so far this year is any indication, the members of the city council may also be given credit for knowing what is in the best interests of the city and acting accordingly.

Industries and industries only will satisfy the demand of labor for work for the men in its ranks, therefore industries we must have. That being the case, it would seem folly to antagonize industries by a flat ultimatum, instead of leaving to the already proven diplomacy of the elected representatives of the ratepayers a free hand in the matter. Also, it is well to remember that the interests of the ratepayers as a whole are the interests of each individual member of the council and no business man worthy of the name is going to commit the city to an agreement which will work out to the detriment of such a large proportion of citizens as that represented by the Trades and Labor council.

In the east there's a movement on to banish the slums Here we're lucky in not having any slums to banish.

In Saskatoon the other day a man was killed when a block of ice fell on his head. His relatives are hot after the company he worked for for damages.

Once again Coquitlam municipality has decided not to move its municipal offices. Looks as though those same offices were about due to stay put.

Burnaby has established her right to a foreshore and the next thing we hear the neighboring municipality will be building a navy.

If you have any Royal bank bills in your jeans you had better get them changed before you're arrested on suspicion of holding up the financial institution at Abbotsford.

Down at Crescent they're going to build a dyke to keep the oysters at Blackie Spit from biting the summer boarders.

The United States federal fish commissioner advises his countrymen to eat more salmon. Sure, eat all the salmon you can. Look what the diet did for a certain lacrosse team not far away.

Across the border "tip collectors" are forming a union. If they ever go on strike they'll have the backing of the whole civilized world.

Somebody has stolen a British navy code book. If Winston Churchill would only try the want ad. columns he'd likely get it back.

Back east the shivering householder still is shovelling snow. In Westminster he has forgotten what snow looks like, has his coat off and is guiding the lawn mower about the garden between the crocus blooms.

Following the fire in St. Louis when a number of lives were lost, there will likely be an "official investigation," and it will be "discovered" that the regulations were not lived up to as regards fire protection. Such hind sight comes expensive.

STOWS AWAY TO BE WITH DADDY

Little Daughter of Marine Engineer Calmly Breaks Laws of the High Seas.

Seattle, March 12.—When the liner Congress of the Pacific Coast Steamship company docked in Seattle Monday night from California ports, she brought to Puget Sound the youngest stowaway in the history of the sea—little Miss Juliet Benjamin, 4½ years old, who successfully smuggled herself on board the huge vessel at San Francisco and revealed herself to the crew only after it was too late to return her to shore.

News of the remarkable adventure of the winsome tot was disclosed today, when the Congress, after discharging cargoes and completing a short side trip to Tacoma, returned to Seattle preparatory to its departure for San Francisco, Los Angeles and San Diego.

With agility and strategy far beyond her years, the youngster ran away from her mother at the San Francisco pier just as the Congress was ready to leave for Seattle, hid herself in a clothes closet until the Golden Gate had been passed and permitted discovery only when it was impossible for the big steamship to retrace her route.

The last whistle had been sounded and the crew was about ready to haul in the gangplank and cast off when Juliet released her mother's hand and slipped away into the throng waving good-bye to friends and relatives.

The mother, waiting on the dock, was almost frantic with alarm and anxiety at the disappearance of her daughter. While she searched fearfully through the crowd and along the edge of the dock, dreading to see a tiny blue dressing bobbing in the

water, the tot was securely hidden away in the closet of the third stewardess, Mrs. A. Stewart.

Excitement reigned when the wee Miss demurely stepped out of the closet and announced that she had run away from her mother. The awestricken members of the crew took the stowaway before the captain and there Juliet explained the reason for her extraordinary exploit.

"I wanted to be with daddy," she said.

Investigation showed that her father was a junior engineer on the Congress, and he took charge of the venturesome little one. A wireless was sent forthwith notifying the worried mother that the babe had been found and Juliet was given the right of way in every part of the vessel.

The dark-eyed stowaway at once became the pet of everyone aboard the vessel. She frolicked on deck without a trace of feishness, and played tag with members of the crew, rewarding those who captured her with a hearty "Congress" kiss.

OH, THAT LOVELY SEATTLE COAL!

Here's a Beautiful Yarn About that Washington State Fuel That Refuses to Burn.

After the sad experience British Columbians have had since the coal strike on Vancouver island trying to burn the low-grade Washington state substitute, the Seattle Times has the nerve to get off the following collection of bunco news conversation:

Approximately 1,340 tons of Washington hard coal, the first mined in the Nanaimo and South Wellington, B. C. mines since last May, were brought to Seattle yesterday by Frank Waterhouse & Co. This shipment marks the renewal of a tremendous business carried on between the British Columbia coal ports and Seattle, which died out upon the declaration of a strike last May. It is now reported that all labor troubles have been satisfactorily settled.

A lively business sprang up between Seattle and British Columbia in the exportation of Washington coal during the strike period. The local exporters sent approximately 77,000 tons of Washington coal to Vancouver, Victoria, New Westminster and Prince Rupert, B. C., in hopes of establishing a permanent market across the line. Little profit was made on this huge quantity of coal, as it was sold to the Canadians for \$3.50 a ton, a little more than cost, but the local dealers now feel justified by the results.

Oh, That Beautiful Coal. British Columbia gas works were compelled to import tremendous quantities of the Washington product and it was discovered that the Washington lignites were capable of producing a greater quantity of gas than the hard coals of British Columbia. The gas production from the local coal was so much greater that it pays the gas works of Vancouver, Victoria and New Westminster, and even of Prince Rupert, many miles further north, to continue the importation. It is estimated as a result that Seattle has a permanent exporting business worth thousands of dollars a month.

While the Canadian mines were closed down the market for hard coal in Seattle demanded a large importation from Utah and other states. Waterhouse & Co. alone brought to Seattle 9,000 tons from Utah between July 14, 1913, and March 10. For this they were compelled to pay \$8 a ton, or \$72,000, and the Seattle consumer paid \$9 for its use. It is estimated that fully 40,000 tons of Wellington coal would have been brought to Puget Sound ports during the same period and sold at \$7.50 a ton, had there been no strike.

NEEDY HORDES IN GOLDEN GATE CITY

Workmen and Professional Men Throng to California City With Fair Intentions.

Seattle, March 12.—"The great problem that San Francisco faces is how to employ the vast number of impetuous adventurers who are flocking to the city in the hope of getting into business before the opening of the Panama-Pacific exposition," asserts Dr. James Leek, a physician of the Golden Gate city, who is in Seattle on a business trip.

"Hundreds of workmen, skilled and unskilled, arrive in San Francisco each week from all parts of the country," said Dr. Leek today. "All expect to obtain work at once, and failing in this many of them become public charges, swelling the already large army of the unemployed and often resorting to lawlessness. Not only workmen, but small tradesmen and professional men are in the ranks of the jobless, and while there is an unprecedented activity in business, the number of men out of work is the largest in the city's history.

"In an effort to relieve the unemployed laborers the city is putting some of them to work tearing up the foundations of buildings that were destroyed by the great fire of 1906. In many cases after the destruction of the buildings, the broken brick, stone and other debris was cleared away for the sake of appearances, but the foundations were left untouched. As in the case of the old city hall, many of these buildings stood on valuable property, which cannot be utilized for new construction until the foundations of the old structures are torn up and removed. Many of the unemployed were given work at \$3 a day clearing the old city hall site and at similar tasks elsewhere, offering considerable relief.

"But many of the discouraged fortune seekers have refused to remain in face of the poor prospects and are

tramping north and south to other cities. Seattle, no doubt, will get its share as warmer weather comes on."

Dr. Leek says that San Francisco is "putting her best foot foremost" in preparing to receive the hundreds of thousands of visitors who will be her guests in 1915, and that buildings are being rushed to completion and miles of streets paved and improved to wipe out evidences of the disaster of eight years ago. The hotels of the city, he says, already are beginning to feel the influx of pleasure seekers who are coming to the Golden Gate to be early on the ground when the great fair opens.

DEVELOP PLANT TO ITS FULL CAPACITY

B. C. E. R. Will Install Third Unit at Jordan River Power House—Costs Big Sum.

Victoria, March 12.—Further additions to the Jordan river plant of the Vancouver Island Power company, will be commenced within a short time to provide for the third unit. This will bring the aggregate capacity of the plant to 25,000 horse power and complete the installation of the 13,000 horse power increase authorized to the original plant of 12,000 horse power. The machinery is already on the ground and as soon as the building, to cost about \$75,000, is complete, the plant can be installed.

The great increase in the use of power for lighting, heating and power purposes in Victoria is indicated by the increase in the plant at Jordan river. Two years ago the plant was opened with a capacity of 12,000 horse power, but hardly had it been in operation before the growing demand for power forced the company to decide upon an increase, and this work has been steadily carried out at an expenditure of approximately \$3,000,000, or just double the amount which the B. C. Electric company, in its agreement with the city, promised to expend on the development of the Jordan river plant. A large part of this expenditure was made in increasing the storage capacity, a dam, the highest in Canada, having been erected. Recently a large addition to the storage reservoir was completed, giving a capacity of 10,000,000 kilowatt hours. The new pipe line from the forebay to the power house cost \$200,000.

The new installation will be made and placed in operation in August, when the full capacity of the plant, as it was first designed, will be in operation. When the work was first commenced, the belief of the directors of the company was that it would be years before the plant would be running to the full capacity of 25,000 horse power.

To Restore Good Health

The first thing to do is to correct the minor ailments caused by defective or irregular action of the organs of digestion and elimination. After these organs have been put in good working order by timely use of

BEECHAM'S PILLS

(The Largest Sale of Any Medicine in the World) better digestion results, and then the food really nourishes and strengthens the body. The first dose gives relief and sounder sleep, quieter nerves, and improved action of all the bodily organs are caused by an occasional use of Beecham's Pills. They give universal satisfaction and in safety, sureness and quickness of action Beecham's Pills

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING rights of the Dominion in Manitoba, Saskatchewan and Alberta in the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty years at an annual rental of \$1 an acre. Not more than 250 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated. In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory, the tract applied for shall be staked out by the applicant himself. Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton. The person operating the mine shall furnish the Agent with sworn return accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the leasee will be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to an Agent or Sub-Agent of Dominion Lands. W. W. CORRY, Deputy Minister of the Interior. N. B.—Unauthorized publication of this advertisement will not be paid for.

WELSH COAL MAGNATE WAS A POLITICIAN

D. A. Thomas, Who Has Eyes on Peace River Country, Is Napoleon of Welsh Coalfields.

London, March 12.—The information that Mr. D. A. Thomas is backing the newest Canadian railway project is of far more significance than appears on the surface. This railway, as already stated, is to run from the mouth of the Naas river easterly through the Rocky mountain region and the Peace river plains. Mr. Thomas is taking it up because of his confidence in the coal resources of the region. There is no man in Great Britain whose judgment is more valuable in this respect, and none who has a greater spirit for carrying through a coal mining scheme. Mr. Thomas is the Napoleon of the South Wales coalfield. He is the brain of the Cambrian combine, a powerful trust with a capital of over two millions sterling. It owns twenty-two of the most valuable pits in South Wales, and employs some sixteen thousand workmen. The annual output is over four million tons of steam coal. Much that is supplied to the admiralty for the navy comes from here, and many contracts are held with steamship companies.

The personality of the man is highly interesting. It is said that he made a huge fortune at the time of one of the most memorable coal strikes, when he refused to join in with the other coal owners and got the benefit of the trade. In the last tremendous struggle between the owners and the trade unionists, he was at the head of the capitalists—the master mind who proved far too strong for the men who, as a matter of fact, were indirectly led. It was he who prevented them from getting the whip hand and producing a terrible industrial crisis. His position was exceedingly delicate, for the government obviously had an interest in the matter on behalf of the nation, and if he had carried matters too far there would have been intervention by parliament. The mining world was in a ferment of excitement, but Mr. Thomas pursued his way doggedly, determinedly and with a smile.

It is one of the ironies of his life that having great political ambitions, he utterly failed to gratify them. He was a rival of Lloyd George for the leadership of the Welsh parliamentary party. In education, in training, in business ability, he was immensely the superior of the young aspiring lawyer. But he showed none of the shrewdness and political capacity that distinguished Lloyd George, and his speeches in the house were curiously feeble and unconvincing. He had no political flair, no instinct for political situations. Yet all the while people knew that he was one of the smartest business men in the world, and his opinion was as eagerly sought in the lobby as it was disregarded in the audience chamber.

This is the man whose mind is now directed to the coalfield possibilities of Canada, and it may be said with confidence that whatever he takes up, he carries through with energy and quiet enthusiasm.

CAN JOHN PLACE BE EXPELLED FROM HOUSE?

Much Speculation as to Relation of M. L. A.'s Sentence to Seat in Legislature.

Victoria, March 12.—The conviction of John T. W. Place, member of the legislative assembly for the city of Nanaimo, of an indictable offence, raises some questions and is causing speculation among those connected with the legislature.

The junior Socialist member of the house was found guilty by a jury in New Westminster on Monday of being one of a number of persons concerned in an unlawful assembly, which is an indictable offence punishable by imprisonment for one year.

There is no statutory provision for such a case as that of a member of a legislative body convicted of a felony or a misdemeanor. If he were not a member, but desired to be a candidate at an election he would be precluded by the statute from doing so. To be a candidate a man must be an elector, and to be an elector, entitled to register or vote, he must have certain qualifications. He is disqualified if he has been convicted of "any treason or indictable offence, unless he shall have received a free or conditional pardon for such offence, or have undergone the sentence passed upon him for such offence."

This is a matter to be dealt with by the particular body of which the convicted man is a member, and according to the precedents which have been established during the centuries of British parliamentary history. That some action along these lines will be taken at the next session of the legislature, providing there is not a dissolution before then, is possible, but meanwhile the member for Nanaimo apparently holds his seat even if he goes to jail.

"The power of parliament to expel a member is undoubted," says Bourinot. The power has been repeatedly exercised by the English and colonial parliaments, either when members have been found guilty of a positive crime, or have offended against the laws and regulations of the house, or have been guilty of fraudulent or other discreditable acts which proved that they were unfit to exercise the trust which their constituents reposed in them, and that they ought not to continue to associate with the other members of the legislature."

The allegations. It is the proper course to lay the records of conviction before the house when a member has been convicted before a court of justice. The house is not, however, bound to the necessity of a conviction for it may, apart from mere legal technicalities, acting upon its moral conviction, but at the same time cautiously, proceed to the expulsion of a member.

In all cases, however, it is necessary that the member should have an opportunity of being heard in his place before proceeding to expel him. In cases of minor gravity the house may be satisfied with ordering the speaker to admonish or reprimand the offender, and the remarks of the speaker, the authorities say, ought always to be entered upon the journals after motion duly made. This was done in the case of Daniel O'Connell in 1838 in the British house.

Whenever any question arises affecting the right of a member to his seat and involving matters of doubt, either of law or fact, it is customary to refer it to a committee for consideration. This was done in several cases in the Canadian parliament since confederation. John Sandfield Macdonald and Christopher Dunkin were so dealt with when it was claimed that they were disqualified to sit in the house of commons because of their holding office in the executive councils of Ontario and Quebec, respectively; R. B. Cutler, elected member for Kent, New Brunswick, while he was a paymaster on the government railway; Pierre Delorme, member for Provencher, Manitoba, in 1871, charged with complicity in the Red River rebellion; and Thomas McGreevy, member for Quebec West, charged with grafting and expelled from the house in 1892.

Whether or not the case of the member of Nanaimo in the thirteenth legislature of British Columbia will become historic evidently will be for the house itself decide a year hence.

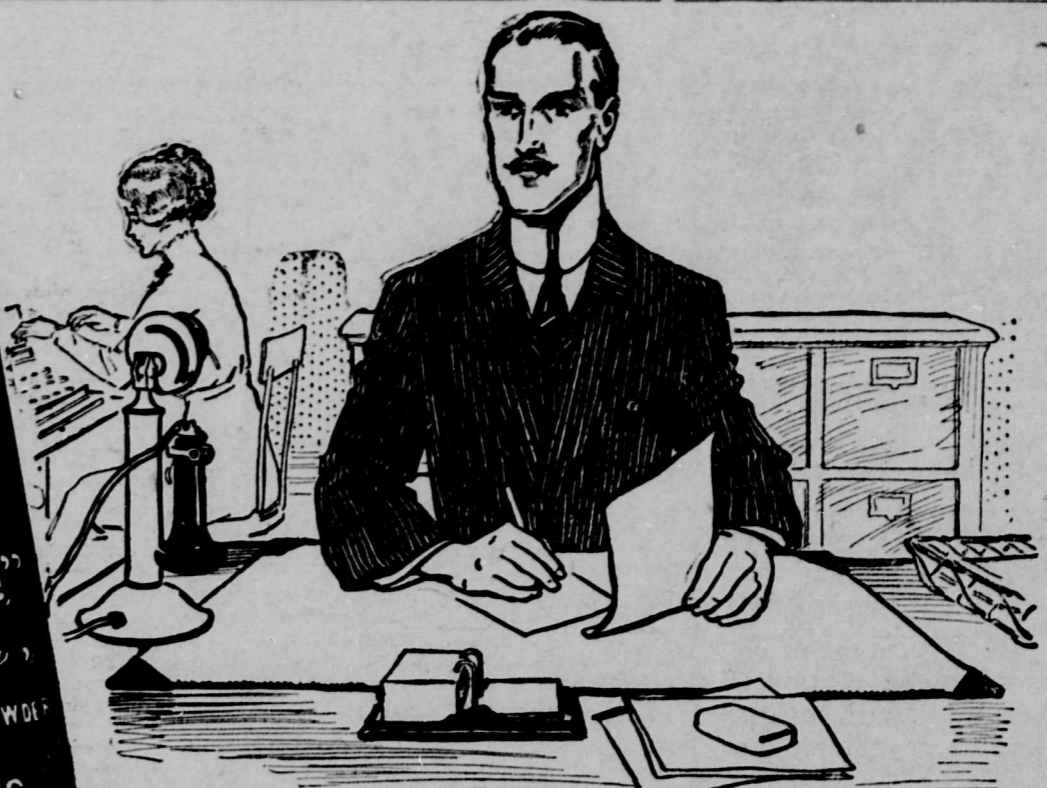

"HANDS UP," SHOUT ROBBERERS AND WOMAN FAINTS

Seattle, March 12.—Confronted by two masked and armed burglars when she entered her home shortly after 10 o'clock last night, Mrs. William Flynn, 3816 Aurora avenue, fell in a faint and while in an unconscious condition had her fingers stripped of two rings by the thugs. The robbers afterwards ransacked the house, obtaining \$25.

Mrs. Flynn noticed nothing unusual about the premises when she reached home, but the moment she entered the front door, two men, masked with handkerchiefs, and both flourishing revolvers, ordered the woman to throw up her hands. Mrs. Flynn was too terrified to obey and stood as in a trance for a moment, then toppled to the floor in a faint.

Just how long she was unconscious Mrs. Flynn was unable to inform the police. When she awakened the frightened woman found her rings missing and later, when a search was made, it was discovered that \$25 had been stolen.

Although Mrs. Flynn saw but two men, she heard the voice of another man in an adjoining room.

Men of Powerful Personality Recognize the Value of Health

It is not from what a man swallows, but from what he digests, that blood is made. Pure blood means perfect health. Imperfect digestion and assimilation causes impure blood, bodily weakness and mental apathy. Unsuitable food is a frequent contributory cause of indigestion and consequent stomach and intestinal disorders. Errors of diet can be quickly and safely corrected by the prompt use of

ENO'S "FRUIT SALT"

the natural remedy for preventing and relieving all functional disorders of the body's filter—the liver, enabling it to separate from the blood those carbonaceous matters which are dangerous to the health.

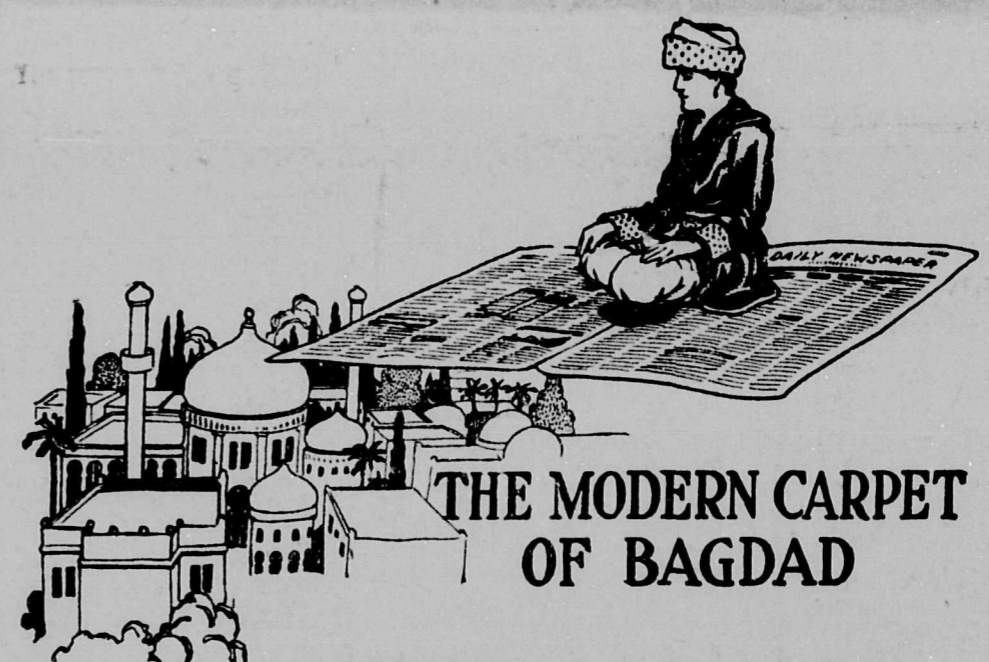

Eno's "Fruit Salt" contains the valuable constituents of ripe fruit in a portable, agreeable, and simple form, and is in every respect as harmless as the juices of the fruits from which it is obtained.

For sale in all the principal towns and cities of Canada. Order a bottle TO-DAY from your dealer.

Prepared only by

J. C. ENO., Limited, "Fruit Salt" Works, London, England

Agents for Canada: Harold F. Ritchie & Co., Limited, 10 McCaul St., Toronto

THE MODERN CARPET OF BAGDAD

THERE are few people who do not know the story of the wonderful carpet on which the owner had but to sit, wish to be at some place and, lo! immediately he found himself there.

Some agents of this nature would be appreciated by many a manufacturer in jumping the demand for his product into a thousand places, a thousand miles away from his factory. Apparently to such a man there is no means of "getting there" and placing his name and his goods right into that territory, except by slow, laborious bit-by-bit acquaintance—ship—and mouth-to-mouth testimonials.

But he has overlooked the modern Carpet of Bagdad.

It is Newspaper Advertising.

Fanciful! you say? Did you ever hear of Edwards' Soups? Well, the genial old cook who forms the trade mark just jumped right from Ireland to a thousand places in Canada in a week—on the Carpet of Newspaper Advertising.

Ever hear of Tillson's Oats? The "braw Scot" who stands for this product stepped over night, as it were, from a small town in Ontario to practically every town and village in Canada.

Wrigley's Gum—Sunshine Furnaces—Comfort Soap—all have taken advantage of this Modern Carpet of Bagdad—Newspaper Advertising.

TO THE MANUFACTURERS OF CANADA:

If you have a name and a product that you wish placed in demand throughout Canada, take advantage at once of the modern carpet of Bagdad—Newspaper Advertising.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency.

A list of capable advertising agents will be sent you on request, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Luaudden Building, Toronto.

Canned Salmon Day

The Salmon Canning industry will be celebrating its arrival at the half century mark this year. To mark the place, as it were, the canners are spreading broadcast throughout Canada information concerning canned salmon as a food product. Boosting a B. C. Product.

Today—Friday—has been selected to be canned salmon day. The leading railways and hotels, it is said, will feature salmon on this day. Let us do likewise. Sockeye Salmon, Fraser-river Salmon is the best on earth. Very tasty and easy of digestion.

W. A. of R. C. H. Meeting.
The regular monthly meeting of the women's auxiliary of the Royal Columbian hospital will be held in the Y. W. C. A. next Monday afternoon at 3 o'clock.

Weather Today.
New Westminster and lower mainland: Light to moderate winds, mostly easterly and southerly; chiefly cloudy with occasional rains.

You score every time you take home a box of Hill's Saturday Special Chocolates. (3074)

Exciting Runaway.
A runaway caused a little excitement in the vicinity of the B. C. E. R. depot yesterday afternoon when a team owned by the Brackman-Ker company ran away, dashing through the train shed to Columbia street. It was captured at the intersection of Columbia and Eighth streets.

Burbank's Seeds. Sole agency for the city, Hill's Drug Store. (3067)

Endorse Candidates.
At a meeting of the Burnaby Central Ratepayers' executive Wednesday evening, the following candidates for school trustees were endorsed: C. A. McLane, J. Herd, M. Lumsley, E. E. Winch and W. Coulter.

Fred Davis will sell by public auction today, Friday, March 13, at 1:30 p.m. sharp, the household furniture and effects of three residences, removed for convenience of sale to the City Auction Mart, opposite the Bank of Montreal, on Columbia street, where sale will be held. Among other items sale will include a very fine full compass Heintzman piano in handsome mahogany case and cost \$550. Every article must be sold regardless of price offered. Don't forget the time, the place, and the man. (3078)

C. P. R. Favors Ladies.
The C. P. R. has granted the Port Coquitlam women's institute permission to use a vacant triangular piece of property at the corner of Flint and Dewdney trunk roads. It is the intention to convert the plot into a garden or small park.

Observe Salmon Day.
"Salmon Day" will be celebrated in various American states today, this being the second annual event. Prominent railway systems will prepare a special menu on the trains, while a monster banquet will be held in Seattle tonight.

Reserved seats for St. Patrick's concert can be obtained from W. H. Keary, 451 Columbia street, or A. L. Lavery, Columbia street. (3030)

Will Visit Sandheads.
The members of the harbor commission together with Alderman Annandale, chairman of the harbor committee, and other members of the city council intend making a trip of inspection to the mouth of the river on the Paysireak on Monday. The improvements being made at the sandheads will be examined.

Insure in the Royal, the world's largest fire company. Agent, Alfred W. McLeod, the Insurance Man. (3009)

Pay Teachers Today.
An announcement was made at last night's school election meeting at Edmonds that the government grant to the Burnaby teachers would be ready for distribution this morning. It had been rumored that same would not be paid out until the first meeting of the new school board to be elected on Saturday.

Mrs. J. H. Diamond will sing "Kerry Dance" at St. Patrick's concert, March 17. (3030)

Refuse License Renewal.
The Surrey license commission on Wednesday refused to renew the license of the St. Leonard hotel, situated near the boundary line. Three petitions favoring the renewal were received, but were not considered sufficiently signed. A strong temperance deputation was present to oppose the granting of the license.

day. She is completed all but the final coat of paint and the installation of the engines from the old Samson. Work on transferring the engines will probably be started today. As soon as she is ready to travel under her own steam the new vessel will be placed in service on the river.

Money to loan on first mortgages, improved city and farm property, 9 per cent. Alfred W. McLeod. (3009)

Big Rock Slide.
A large gang of men is engaged in clearing away a big rock pile near Hell's Gate, a narrow gorge in the Fraser canyon on the Canadian Northern railway. A slide amounting to about 15,000 yards of debris occurred last week and this is being removed. Chief Engineer T. H. White, of the C. N. P. R., left yesterday for the scene of operations.

We serve light lunches. Grant's Bakery, 737 Columbia St. (2995)

Relatives Wanted.
Chief of Police Bradshaw yesterday received a letter from San Francisco requesting him to locate the sisters of W. H. Garson, who died in the Californian city a few days ago. The two sisters are Mrs. Lizzie Ferguson and Mrs. Gregg, both said to be residing in this city. Mrs. R. White, 2475 Bush street, San Francisco, the writer of the letter, states that deceased left some property.

Body Not Found.
Hearing of the finding of a body in the Fraser, Mrs. McLennan, of Port Hammond, visited the local police yesterday for information. Mr. McLennan lost his life last November by falling out of a rowboat while crossing the Fraser. Chief of Police Bradshaw suggested to the woman that it was probably the finding of the McCaskill body at Pitt Meadows on Wednesday she heard of.

Inquest Not Necessary.
An investigation was held into the circumstances leading to the death of the workman named Johnson at Bradford & Taylor's mill, Burnquitlam, Wednesday, and Coroner A. L. McQuarrie decided an inquest was not necessary. There is still considerable mystery attached to the man as nothing is known of him except that his last name is Johnson. The body is being held at Murchie's parlors pending an inquiry being conducted by the Burnaby police to find out whether he has any relatives or friends in the district.

Wedding Bells

STAPLE—STANSBRIDGE.
Charles Staple and Mrs. Ellen Stansbridge were quietly married at St. Andrew's manse on Saturday evening last, Rev. F. W. Kerr officiating. Mr. and Mrs. Staple will reside in New Westminster.

C. A. WELSH LIMITED.

Social and Personal

The pianoforte students of Miss C. M. Smith, A. T. C. L., and the local pupils of Miss Mabel B. Winters, A. T. C. L., are to give a recital in the assembly hall, Columbian college, tonight at 8 o'clock.

Miss E. Teskey, Simpson street, entertained a large party of friends who dropped in as a surprise on Tuesday evening.

The fourth annual ball given by the young ladies of the B. C. Telephone company will be held in Lester hall, Vancouver, on Friday evening, March 20. It is expected that the operators and officials on the local exchange together with friends, will make the trip that evening.

Man Who Stopped Train By Air Dies After Wonderful Career

(Continued from page one)

traffic systems, and inaugurating a notable era of railway development.

Electrical Inventions.
Mr. Westinghouse did not confine his genius to railroading. For half a century he continued to make other contributions to electrical as well as engineering advancement.

His inventions and improvements had to do with railway signaling; the development of the alternating current system for electric lighting and power, devices for safety and for economically conveying natural gas over long distances and using it for industrial and domestic fuel; air springs for motor vehicles and a gear ed turbine system for the propulsion of ships, developed in collaboration with the late Admiral George W. Melville, U. S. N., and John H. MacAlpine.

Highly Honored.
In return for his many achievements, the highest honors in the gift of technical societies and institutions of Europe and America were bestowed upon him. European sovereigns conferring distinguished orders. As recently as last December he received from the principal engineering society of Germany the celebrated Grashof gold medal.

Mr. Westinghouse founded many manufacturing companies in this country and abroad. In these plans some 50,000 persons are employed and the many companies have a capitalization aggregating \$200,000,000.

Mr. Westinghouse's mental alertness and activity remained to the last unimpaired. The final few years of his life were among the most productive. For several months he had, however, limited his activities, placing greater responsibilities on his associates. It was stated tonight on behalf of his many interests that there will be no change of policy in connection with any of the industries, which will be operated on a plan long ago thought out by the inventor himself.

STORMY MEETING OPENS CAMPAIGN

(Continued from page one)

claimed Mr. Burnes. "He forgets to tell you that I forced him to resign. I have found chaos in board business and there is a lot more to uncover too. During the past few days I have seen papers peddled around the municipality which did not belong to the person who was carrying them, papers which should have been on file in the board offices. I am in the race to make a clean-up."

James Herd, a running mate of Mr. Burnes was the first speaker and he dealt mostly with real estate transactions of the 1913 board. Mr. Herd claimed that a site had been purchased in December, 1912, upon which \$500 had been paid on account, but that in April of the following year the board purchased a site for cash in East Burnaby. The owners of the first mentioned site were awaiting their money and threatened to sue.

Mr. Herd further claimed that the 1913 board had had plans prepared for a \$75,000 school building in Vancouver Heights, but that the 1914 board had estimated the cost of such a school at \$45,000.

Teachers Inefficient.
C. A. McLean was the next speaker, explaining that he had served as a school trustee years ago and that he was well qualified to be elected. He was for the general advancement of the schools and claimed that several of the present teaching staff were inefficient.

E. E. Winch, a Socialist candidate, was in favor of giving the children better education and paying little attention to what the increased cost would be. He maintained that \$50,000 ought to be tacked on to the school estimates.

Questioned by J. R. Wilson whether he would see that the children were taught loyalty to the king and country, Mr. Winch answered, "As man to man, yes. As a superior being, no."

John Churchland, one of those unseated following the January election, was running on his past record. He was very brief, ending by stating he was fully in accord with Messrs. Herd, Burnes and Campbell.

William Coulter criticized Mr. Burnes and the other members of the present school board. Mr. Coulter claimed that he and Mr. Deckert were spending considerable money getting views of the different education systems in vogue in other countries.

W. Dingle, another Socialist, made a brief speech, standing upon the platform laid out by his confere, Mr. Winch.

Otto Deckert closed the meeting so far as candidates were concerned although D. C. Patterson was given time to defend the 1913 school board.

Newspaper Man Dies.
St. Johns, Que., March 12.—E. R. Smith, editor and proprietor of The News, died today at his home here. He was 73 years of age and practically all his life was connected with The News.

OPPOSE CANADIAN FISHERIES TREATY

Washington State Claims Bargain is Unfair—Fraser River and Gulf Exempted.

Seattle, March 12.—Governor Lister yesterday sent a vigorous protest against the ratification of the fisheries treaty with Canada to the Washington delegation, saying the bargain sought to be made with Canada was entirely one-sided and that, if enforced, it would seriously cripple the fishing industry of Puget sound. Puget sound fishing and canning interests have been fighting hard against the ratification of the treaty through the necessary legislation, and believed that they had the ill-starred bargain of 1908 beaten.

Until President Woodrow Wilson, prowling around in the musty archives of the secretary of state's office, discovered the Canadian fisheries treaty, everybody engaged in the fishing business believed that the treaty had been abandoned. It was highly satisfactory to all the border states to forget the treaty and omit the legislation necessary to make it effective, for the American commissioners surrendered on all important points to the Canadian arbiters. Canada passed the legislation necessary to give force to the treaty, but the American congress listened to protests from the fishing interests and refrained from any action. After a short period of expectancy the Canadian fishing interests apparently dropped the fight.

The position in which this state is placed by the treaty is illustrated by the fact that practically all the waters of Puget sound and the Straits of Juan de Fuca are made treaty waters, while the Fraser river, a boundary stream, is wholly exempted, and the Gulf of Georgia practically exempted from the operations of the treaty. Under the provisions of the treaty a closed season for pink and hump-back salmon would be provided from August 25 to September 15 in American waters, while in certain British Columbia waters fishing could begin after September 1. The effect of this provision would be to destroy 65.84 per cent of the American pack, while not interfering in any way with the British Columbia fishermen, as the Fraser river fishermen would not be interfered with and other fishermen in British waters are granted a convenient permit to begin taking fish as soon as the run begins.

Puget sound fishermen and canners declare that the treaty was a complete surrender of all American rights and an agreement to respect every privilege the Canadian fishermen enjoyed. It is declared that the Great Lakes fishermen are treated with the same courtesy, but that on the Atlantic sea coast the American rights are recognized more clearly.

The entire Washington delegation has been asked to lead a fight against the ratification of the treaty, which, if congress ever approves it, could not be changed for four years and only could be repudiated then after a year's notice and an effort to readjust differences. In the meantime a large part of the Puget sound fishing industry would have been transferred to British Columbia.

VANDALISM OF MILITANTS.

Public Buildings Closed as Precaution—any Measure—Protect Treasures

London, March 12.—The vandalism of the militant suffragettes caused the closing today of a great many of the public buildings in addition to those which locked their doors yesterday. The Victoria and Albert museum, the Crypt and galleries of St. Paul's Cathedral, the royal stables at Buckingham palace and the charter house, were among those affected.

Popular resentment in connection with suffrage outrages urged Reginald McKenna, the home secretary, not to release such a dangerous character as May Richardson, who was sentenced to six months' imprisonment for damaging the "Rokeby Venus."

Premier Asquith announced that he was making inquiry into the question of the best way of protecting the nation's art treasures.

Died on Way to Hospital.

Los Angeles, March 12.—K. K. Trask, 58 years old, former superior judge here, was stricken with apoplexy today during the trial of a probable suit in which he was attorney, and died in the ambulance on the way to the hospital. Since retiring from the bench he had been a member of the board of education. At one time Judge Trask practiced law in San Francisco.

Prof. Prince, Organizer.

Ottawa, March 12.—Prof. Prince, Dominion commissioner of fisheries, left last night for New Zealand to organize a fisheries service for the active and progressive little dominion in the South seas. He went with the sanction of the minister of marine as the result of a request made by the New Zealand government to the Canadian government for a loan of his services.

SEVEN FIRES IN SIX MONTHS PROVES HARD PUZZLE

London, Ont., March 12.—No less than seven times in the last six months fire has broken out in the home of C. J. Adams, 169 Alber street, and the fire department and insurance companies are investigating what has become a tantalizing puzzle. Mr. and Mrs. Adams are almost prostrated, the latter having moved to a neighbor's house in a hysterical condition.

Mr. Adams patrols the house nightly but in spite of his watchfulness fire somehow started in an attic room last night and was extinguished by the fire department with a chemical. Mr. Adams continued his vigil but soon after he had left for his place of business this morning he was notified that still another fire had been discovered in a clothes closet. Very little damage was done.

Agricultural Credits.

Ottawa, March 12.—A government bill is promised within a short time to establish a system of agricultural credits. The general purpose is to give parliamentary sanction to rural banks throughout Canada along the lines of those which exist in Quebec. The wider system of co-operative banks, etc., advocated by the western delegation of farmers is now under advisement, but it is hardly likely that a bill will be introduced at the present session.

Launch Lumber Vessel.

Long Beach, Cal., March 12.—The steel steamship Alvarado, built at a cost of \$225,000 to carry lumber between Los Angeles harbor and Columbia river points, was launched today. Miss Eleanor Hatch, 13 years old, daughter of P. E. Hatch, christened the vessel. The Long Beach W. C. T. U. endeavored to substitute water for champagne in the ceremony, but without effect. The Alvarado's lumber carrying capacity will be 1,400,000 feet. The ship's length is 250 feet.

Refused to Testify.

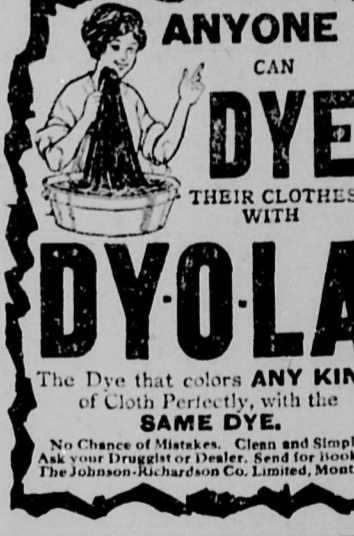

Chicago, March 12.—John W. Worthington, who was accused of wrecking the American Banking association, of which he was president, refused to testify today in an inquiry before a United States referee into the assets of the banking association. Worthington pleaded that he might incriminate himself by testifying. Counsel for the receiver, the Central Trust company, announced that an order would be sought tomorrow to compel Worthington to testify.

Increase for Teachers.

Montreal, March 12.—An increase in salary of \$100 a year to every teacher in its employ with the exception of kindergarten assistants, who will be given an extra \$50, was decided upon by the Protestant board of school commissioners today. The board employs some 450 teachers of various grades in addition to the 50 in the kindergarten classes, and an additional expenditure of about \$7500 annually will be involved.

Suffragettes Win Out.

Copenhagen, March 12.—An agreement reached today between the Socialist, radical and the moderate parties, which control majorities in both houses of parliament, assures the passage of the constitutional reform bill under the provisions of which all electoral property qualifications are abolished and suffrage is granted to women.

JOE LALLY'S SCHEME LOOKS LIKE A WINNER

Enthusiastic Meeting Held in High School Yesterday—Prominent Speakers.

Amateur lacrosse especially among the juniors was placed on an even better basis yesterday afternoon at a meeting held in the Duke of Connaught high school auditorium, which was attended by swarms of youngsters from the different schools of the city. Big men in the lacrosse world answered to their names and thrilled the youngsters to the cheering point when they spoke about the finest game in the world.

Chief interest naturally centered in the address made by Joe Lally, although the other speakers were listened to with rapt attention. Lally has a peculiar and pleasing knack of talking to the boys in a manner which instills them with the true ideals of life and the close connection that athletics has with school work.

Joe Lally Talks. The Cornwell enthusiast talked to the youngsters not as Mr. Lally, but as plain every day ordinary "Joe Lally." He wanted them to take him as such and many a boy last night retold his parents the words uttered

THE SPIN OF THE SPORT WHEEL

Big Baseball Salaries.

The payment of large bonuses to ball players reached its zenith on Wednesday when President James Gaffney of the Boston Nationals turned over a check of \$25,000 to Johnny Evers, the ex-leader of the Chicago Cubs. That Gaffney believes Evers has still some fighting material left in him is shown by the fact that the ex-Cub leader will be drawing no less than \$35,000 for the coming season, his regular salary amounting to \$10,000 a year for three years. This method of high financing brings out two points, one being that baseball is a mighty good investment in the big leagues or that organized club owners are taking the risk of sinking so much coin in salaries in order to break the back of the newly formed Federals. The first contention is that baseball is a moneymaker appears to be borne out by the statement of Charles Webb Murphy, the deposed president of the Chicago Nationals to the effect that he was now worth a million. Murphy started with practically no assets worth speaking of and unless he dickered in stocks or real estate, the American summer pastime must be profitable. The migration of Evers to Boston means the breaking up of the famous infield trio of the Cubs, Chance, Tinker and Evers. The fans do not hear "from Tinker to Evers to Chance" any longer, neither will any of the stars be playing against each other this season. Chance is leading the Highlanders and cannot possibly grab the pennant this season so that excludes him from ever meeting Evers with the Boston club. Joe Tinker is beyond the pale of organized ball and is found managing one of the Federal league teams.

Torontos vs. Victoria.

Now for the world's hockey series. Everything is in shape for the staging of the first game between the Torontos and the sextette from Victoria on Saturday night on the Toronto artificial ice. Wednesday's crushing defeat of Jimmy Gardner's Canadiens when the Flying Frenchmen were whitewashed 6-0, is an indication of the come-back spirit of the Blue Shirts and if Lester Patrick's crew is to get the Stanley cup it will be put to a fine test in the five games of the series. Every seat in the immense Toronto arena has been sold so that a crowd of over 7000 will greet the contesting teams when they take the ice.

Ernie Cotton, who has played on various amateur lacrosse teams in this city in past seasons, is now living in Victoria. Sam Lorimer, the leader of the Capitals, is after Cotton's services.

Baseball is some game when a bunch of Chinese players from the Hawaiian

islands can make a barnstorming tour of the United States and travel as far east as Cuba.

Battiste, a college star and twirler who has signed with the Portland Northwestern league team, has the right dope in connection with the infirmity of being deaf and dumb. If he ever becomes a fixture with a league club the crowd cannot hope to get his goat by a demonstration.

A third game will be required to settle the English cup argument between Manchester United and Sheffield United, the two teams again playing to a tie. Sheffield with no goals scored. Burnley eliminated Sunderland on Wednesday and will meet the winner of the Uniteds battle. Aston Villa looks to be in the final, meeting Liverpool at Birmingham on March 28.

The boys of Inman avenue school, West Burnaby, are showing the real sporting spirit. Intent to organize a baseball team the youngsters have been engaged during the past few days clearing the playground site and putting it in condition to map out a diamond.

The baseball magnates of the city will get together some evening next week and organize for the season. Bill Graham will field a Moose Team as usual, the K. of C. have drawn together a pretty nifty outfit while efforts are being made to interest the Balmorals and Electrics.

The Tangoes came back in form last night at the rink defeating the Rink Rats by the close score of 6-5. A considerable amount of money changed hands over the result, this being the last time the terpsichorean fanciers will perform.

The City eleven that will meet the B. C. E. R. on Saturday at Moody park will be selected from the following: H. Ray, Gostick, McAllister, Hunter, Barnes, Wilson, Lewis, Collier, H. S. Gray, Walker, Davis, Newsome, W. Wilson and Laird. The kick-off will take place at 3:30 with Longley handling the whistle.

Scottish Team Selected.

Glasgow, March 12.—The following players have been selected to represent the Scottish league against the English league on Saturday, March 21. Goal, Shaw, Celtic; Backs, McNair and J. Dodds, Celtic; half backs, Gordon, Glasgow Rangers, Mercer and Nellie, Heart of Midlothian; forwards, McAtae and MacEnemy, Celtic; Held, Glasgow Rangers, Croal, Falkirk, Smith, Hibernians.

RITCHIE WINS

Gains Close Decision Over Wolgast in Ten Round Mill—Came Up from Rear.

Milwaukee, Wis., March 12.—Willie Ritchie, lightweight champion, successfully defended his title here tonight when he was given the decision over Ad Wolgast, the "Michigan Bearcat," by a shade. The Californian was forced to extend himself in every round and but for his come-back in the last four rounds did he win favor from the referee. Only one knock down was scored during the ten round session, this being by Ritchie in the seventh when he floored Wolgast for the count of four.

Wolgast secured the first round by a shade, the second going to Ritchie. Round three was even with Wolgast capturing the next two. After that the tide appeared to turn, Ritchie using a left jab to advantage which gained him points. Rounds six, seven, eight and nine all counted for Ritchie, Wolgast coming back in the tenth and breaking even.

Ritchie was the first to enter the ring, climbing through the ropes at 10:15. He was greeted with a volley of cheers.

At 10:25 Tom Jones, Wolgast's manager, waved toward Wolgast, who was a hundred feet from the ring, to come along. "The Wildcat" entered the ring at 10:26, passing two feet from Ritchie, but without noticing the Californian.

At 10:31 Willie Ritchie was introduced as the lightweight champion of the world and Ad Wolgast the "Michigan Bearcat." There was no sign of cordiality in evidence between the boys, and no handshaking when the first round opened.

PLAY AT VANCOUVER

Mainland Football Association Orders Coquitlam to Make Second Journey.

Although robbed of a home game through the action of the Mainland Football association on Wednesday night in ordering the B. C. E. R.-Coquitlam replay contest to be played on the Cambie street grounds, Vancouver on Saturday afternoon, the Port City eleven will make the journey full of confidence of showing the Electrics once and for all time that the Ranchers are the better team.

The high handed manner in which the association took things in their own hands has caused no little dissatisfaction among the fans in the district as it was only last Saturday that Coquitlam played a two hour draw with the B. C. E. R. on the same grounds and it was therefore expected that the replay would be staged at the railway centre. This is the first time in the history of British Columbia football that a team has been ordered to travel after holding its opponent to a draw away from home in the first game.

The Coquitlam players sent a delegation to Vancouver yesterday seeking redress but this not being forthcoming, a resolution was introduced at a meeting held last night to declare

the game off. Wiser heads, however, prevailed and a big delegation promised to attend at Vancouver on Saturday.

ERNE JOHNSON Who will referee tonight's game at Vancouver between the Columbias and Fraser Mills.

BASKETBALL AT "Y"

Victoria Quinette Tackles Locals—Mayor Gray Will Present Cup to Hustlers.

The Victoria basketball quintette, members of the Pacific Coast league, will be the visitors at the local Y.M.C.A. this evening where they will clash with the local tossers. Much hinges on the game from a Westminister standpoint as a win would give the Royals second place in the league, with Vancouver perched on top. At the Capital City some weeks ago the Royals had little difficulty in scoring a victory and with a home court in their favor tonight a repetition should ensue.

Westminister and Victoria business men will furnish the preliminary to the main event while one of the breathing spells will be taken up with the presentation of the A. S. Mills and company trophy, won this season by the Hustlers. Mayor Gray has promised to present the shield to the Sangster boys.

"Big Smoke" Not Wanted. Stockholm, March 12.—Jack Johnson, the negro pugilist, who was to have engaged in wrestling matches with Jess Pedersen and others in Gothenburg, has been forced to leave Sweden owing to the hostile demonstrations against him.

Would Subsidize Physicians. Calgary, Alta., March 12.—President Greenfield, of the Alberta association of rural municipalities and local improvement districts, in a special address to the convention today, went after the physicians. He said the excessive charges of the medical men were beyond the ability of the average farmer to pay and advocated the subsidizing of physicians in the country so that their charges could be brought down to what the farmers considered as reasonable. He said he would recommend some such legislation to the next session of the legislature. President Greenfield was re-elected for the ensuing year.

URGES REFUND OF PANAMA CANAL TOLLS

Seattle Chamber of Commerce Memorializes Wilson to That Effect.

Seattle, March 12.—That President Wilson use his influence to have a law enacted that would refund to coastwise shippers Panama canal tolls assessed against them through the Hay-Pauncefote treaty, is urged in a resolution adopted by the trustees of the new chamber of commerce. The resolution was wired to the president. While of the belief the United States has full right to exempt coastwise shipping through its own canal, a number of the trustees who were heard on the issue declared the enforcement of the law would be hampered by serious difficulties. This, it was said, is because of the interpretation put upon the Hay-Pauncefote treaty by other nations.

The resolution, which was prepared by the committee on national affairs, of which Judge Thomas Burke is chairman, follows:
 "While still firmly believing that there is nothing in the Hay-Pauncefote treaty restricting the right of the United States to regulate its coastwise shipping as it sees fit, including the free use of its own canal, if the repeal exempting our coastwise shipping from Panama canal tolls should be carried in congress out of deference to your judgment respecting the wisdom, from an international point of view, of not asserting our full right in the premises, we now appeal to your sense of fairness and justice to lend your powerful influence for the enactment of a law refunding to the coastwise shipping the tolls exacted of them."

Injury, Not Benefit.
 "While some such measure the great canal built by the United States and to which we have looked for low freight rates for our products will be an injury instead of a benefit to some of the most important industries of the Pacific northwest, especially lumber, flour and fish, by subjecting them to an unfair and unequal competition with the products of British Columbia; for these products of British Columbia can be shipped from there in foreign vessels to Atlantic seaports for much less than we can do it from our side in American bottoms."

"Such an unequal competition will be disastrous to us. We are forbidden by law to use foreign ships between American ports on the Pacific and Atlantic, but British Columbia may ship the same products from British Columbia ports to American Atlantic ports in foreign ships. Thus by one law we are forced to pay a tax to pass through the canal while by another we are denied the right to use as cheap a shipping as our neighbors in the same trade."

"Our products, then, if carried in foreign ships must find markets in foreign countries and return cargoes of foreign goods must supply our needs; the inevitable consequence being either an embargo upon interstate traffic or dependence as heretofore upon the railroads."
 Submission at the special charter election of a bridge bond issue to provide for the construction of bridges over Lake Union and Lake Washington canal, also was recommended by the chamber in a vote by the trustees. This action resulted from a statement by Major J. B. Cavanaugh, the government engineer in charge of the work on the canal, that the lowering of Lake Washington would have to be postponed unless a suitable bridge was provided at Fremont avenue. The chamber would have each of the several proposed bridges voted on as a separate issue.

SETTLERS FROM U.S. ARRIVE EARLY

Fifteen Colorado Families Take up C. P. R. Land at Bassano, Alta.—Bring Their Effects.

Moose Jaw, March 12.—With goods and personal effects completely filling twenty box cars, fifteen Colorado families, comprising in the aggregate 79 people, passed through the city to-night on their way to Bassano, Alberta. They have come direct from Denver, via St. Paul, and upon arriving in the Alberta town will take up mixed farming on land which they have purchased from the C. P. R. in the irrigation belt near the city. They have moved up all their personal effects and in box cars were 175 horses, 15 cows, 2,000 chickens, as well as other goods belonging to the different families who are making their long trip. Included in the party are forty children, ranging in age from six months to 17 years. The party is in charge of Stewart Graham, traveling inspector of immigration, and he tonight stated that the immigration to Canada this year would be much in excess of the figures for last year for he pointed out that already many families both in the two Dakotas and other states were preparing to make their northward trek. Members of the party expressed themselves as well pleased with

Mrs. Cave-Browne-Cave
 and Miss L.R.A.M., A.R.C.M.
 MEMBERS OF THE INCORPORATED SOCIETY OF MUSICIANS.
 Lessons in Pianoforte, Violin, Singing, Voice Production, Theory (in class or privately), Harmony, Counterpoint, Musical Form and History.

 For terms, etc., apply 51 Dufferin Street. Phone 411 R.

what they had seen of Canada and felt confident that they would be able to build up good homes in the Canadian west.

They will take up beet-raising after they have got settled and if it is found profitable will erect a sugar beet factory at Bassano.

FATHER ARRIVES LATE, SO SHE WEDS SON

Marshfield, Ore., March 12.—When his father, F. H. Strain, failed to arrive at the appointed time for his wedding with Miss Artie Belle Clark, rather than see the woman disappointed William Strain, a son of the intended bridegroom, married her himself. The wedding occurred at Eckley, Curry county. A justice of the peace rode from Langlois, twenty miles away, to tie the knot and many friends of the couple were present.

EXPECT INCREASE IN APPLE SALES

Output This Year Will Greatly Exceed That of 1913—Growers Renew Contracts.

Spokane, March 12.—The North Pacific Fruit Distributors, its trustees believe, will sell two and one half times the quantity of apples in 1914 that it did in 1913. At the March meeting for this week every trustee reporting for his district, stated that the growers are highly satisfied with the first year work. Few growers have cancelled their contracts and many new ones have signed.

Growers Sign Voluntarily.
 "The campaign for growers has not been started yet and many are coming in voluntarily," said H. F. Davidson, president. "Last year we waited until May and June before signing them. It looks as though we will have two and a half times the tonnage this year that we had last. This, of course at this time of the year is only an estimate but our old growers will have much larger crops than last season and there will be a large additional tonnage from the new members."

"All of our 1913 fruit will be disposed of by April 1. We have 25 cars in storage at Niagara Falls, 10 in Chicago and a few in the west. From December to February the markets east of Chicago and north of the Ohio river were depressed. Since Feb. 20 New York markets advanced 25 to 50 cents a box and fruit is now moving much more freely than it did the two months previous."

"The depression was due to stocks which were not good keepers arriving late so that it was necessary to sell them 30 to 60 days before they should have been sold. By Feb. 15 the pipe stuff was mostly cleared out and the market has showed some advance and is now in good condition."

Genuine Co-operation Necessary.
 "I was never so thoroughly convinced of the serious necessity of genuine co-operation among the fruit growers of the northwest as since my stay in New York. I am hopeful there is a good future for the fruit grower who is well situated and can produce his crops economically. I am convinced the business can be continued on a profitable basis only through the assistance of an effective co-operative organization, such as the distributors and my judgment is that it behooves every fruit grower to give his moral support as well as his product to help maintain the organization. We all remember the disaster of 1912, when the northwest produced 15,000 cars, and that is a fair warning of what will happen when the crop is three to five times larger if the growers do not stand together, but undertake to market their product under a disorganized condition."

"I handled several cars of Spokane Jonathans for export which gave our customers excellent satisfaction being packed strictly according to grading rules and arriving in good condition. Some cars were on the road a long time and were put in storage as a test. They came out in 20 to 60 days in a wasted condition. This was not the fault of the packers but of weather conditions, and demonstrated the importance of moving such varieties as Jonathans and Wageners before the storage season opens."

LUMBER CONTRACT WILL HELP SOME

Victoria Hoo-Hoo Predicts New Era for Island Timber—Will Employ 250 Men.

Victoria, March 12.—That a new era has dawned for the lumber industry on Vancouver Island, and for British Columbia generally, is the opinion of William Gidley, who, for twenty years, has held the position of manager of the Cowichan Lumber company. In the great contract that has been awarded by the Dominion government to two island firms for the supply of lumber for the Toronto harbor works, Mr. Gidley sees the inauguration of a movement which, with the completion of the Panama canal and the resulting facility of shipment from this section to the east and the other large industrial centres of the continent, will

develop to enormous proportions within the next few years.

The immediate effect of the contract upon the industry will be considerable, in the opinion of Mr. Gidley. He states that, provided the start was made at once upon the cut, the next two years would be occupied in getting the total quantity prescribed in the contract shipped to its destination. Even at that, he asserts that it would mean the constant employment in milling and logging of over 250 men.

KODAK FILM SUIT WON BY MAN LONG DEAD

New York, March 12.—A decision upholding the patent claims of the Rev. Hannibal B. Goodwin against the Eastman Kodak company of Rochester, involving millions of dollars in royalties, was handed down by the United States circuit court of appeals here today, confirming the opinion previously handed down by Judge John R. Hazel of Buffalo.

The decision says that "the Rev. Hannibal B. Goodwin is undoubtedly the inventor and entitled to all the benefits of the basic patent on photographic films."

Goodwin died more than 13 years ago, a poor man. The profits of the Eastman Kodak company on this disputed patent have been estimated to run into the millions. If the decision is not overruled by the supreme court Goodwin's widow and two children, living in Brooklyn, will be entitled to back royalties for the time the Eastman company has, according to the decision, infringed on the patent.

For years the Rev. Hannibal Goodwin was rector of the Episcopal house of prayer at Newark. He was fond of dabbling in photography and was an amateur chemist. In 1887 he discovered a process for making photographic films and applied for a patent but the Eastman company contested his claims and it was not until 1898 that the patent office finally issued the patent.

A suit against the Eastman Kodak company was instituted. But Mr. Goodwin died while the suit was pending. Litigation was carried on by the Goodwin heirs and administrators after the inventor's death.

RISKS LIFE TO SAVE BOY BUT DOG Baffles EFFORTS

North Yakima, March 12.—Throwing off her fur coat, Mrs. H. H. Riggs, wife of a former judge of the Yakima superior court, on Tuesday plunged into the pond at the Cascade Lumber company's mill in an unsuccessful effort to save 11-year old Lawrence Stone from drowning.

The boy had been playing on the logs in the pond with two comrades and slipped into the water. Mrs. Riggs had gone to the pond with her dog to give him exercise and a swim. When she went into the water to save the boy the dog went after her and apparently believing she was in danger, tried to draw her back to the shore and impeded her efforts so that she was unable to reach the lad.

Exhausted by Struggle.
 Exhausted with her struggle with the dog which swam around her head as she made her way in the cold water to the place where she expected the boy to come to the surface, Mrs. Riggs was forced to abandon her efforts and cling to a log until two men rescued her.

The boy, whose parents have been divorced, has been living with his grandmother near Ellensburg until his father brought him to this city recently. Word was telephoned to the police station and Officer J. W. Diamond arrived at the mill pond within ten minutes of the time the lad fell in. With the help of laborers from the lumber mill he got the boy out but it had been in the water so long efforts at resuscitation were futile.

PROTEST WAR TAX ON AMERICANS IN GERMANY

Berlin, March 12.—The German-American Commercial Union has entered a protest to the German government against the imposition of the new "war tax" on American residents in Germany.

By a law passed last year in connection with the increase of the German army, all persons in Germany with an income of over \$750 and up to \$2500 a year have to pay an extra tax of one half of one per cent.

The tax increases correspondingly up to 2 per cent. on incomes of \$12,500 and over.

Several European powers are about to make a joint protest, based on a clause of the German treaties with Russia, Greece, Italy and Roumania exempting subjects of these countries from taxation levied under extraordinary conditions.

GERMAN WAS A REAL OPIUM SMUGGLER

New York, March 12.—Hugho Grobe, who says he was second officer of the German Lloyd fleet, was arrested in a saloon yesterday at 86th street and First avenue, carrying \$10,000 worth of opium in three bags.

Grobe, according to the federal authorities, is the European agent of the smuggling ring composed of Chinese and white men, who worked out a scheme for bringing in Persian opium in ships of the North German Lloyd.

They say he broke with the ring because the conspirators refused to play fair with him.

In Grobe's pocket was found a memo showing, it is alleged, that he had brought over during the past five months 1,000 pounds of opium.

Na-Dru-Co Laxatives
 are different in that they do not grip, purge nor cause nausea, nor does continued use lessen their effectiveness. You can always depend on them.

TO INVESTIGATE RECENT DEATHS IN HOSPITAL

Los Angeles, March 10.—A grand jury investigation of the recent deaths of seven county hospital patients following injection into their spinal cords of arsenical treatment for blood disease, was planned tonight for the benefit of science.

Since the remedy, an admixture of human blood with a medicine imported from Germany, is in general use, Percy V. Hammond, deputy district attorney, in charge of the proposed investigation by the county grand jury, said the inquiry would be more in aid of science than to attach a criminal charge to any person involved.

CITY OF NEW WESTMINSTER.

Court of Revision, 1914.
 NOTICE is hereby given that the first meeting of the Court of Revision for the Assessment Roll of the City of New Westminster will be held in the City Hall, New Westminster, B.C. on Thursday, April 16, 1914, at 10 a.m. All appeals against the Assessment must be in writing, and delivered to the Assessment Commissioner at least ten days previous to the sitting of the said Court of Revision. Dated at New Westminster, B.C., this 2nd day of March, 1914.
 W. A. DUNCAN, City Clerk.

LAND REGISTRY ACT.

Re the Northwest quarter of Section 14, Township 7, New Westminster District.
 A Certificate of Indefeasible Title to the above property will be issued to James E. Gubnet on the 21st day of March, 1914, unless in the meantime a valid objection thereto be made to me in writing by a person or persons claiming an estate or interest therein, or in any part thereof.
 J. C. GWYNN,
 District Registrar of Titles,
 Land Registry Office,
 New Westminster, B.C., February 16th, 1914.

The person or persons having in their custody or possession the following Title Deeds relating to the said property are requested to deliver the same to the undersigned:
 1. Crown grant to Jason Samuel Lewis, dated the 16th June, 1893.
 2. Conveyance from Jason Samuel Lewis to Linnie Jane Lewis, dated the 6th July, 1901.
 J. C. GWYNN,
 District Registrar. (2951)

CENTRAL PARK PROVINCIAL PARK BOARD.

Tenders Wanted.
 Sealed tenders will be received by the undersigned up to 8 p.m. Tuesday, March 17th, 1914, for clearing and rough grading a portion of that part of D. L. 151, known as the Agricultural Grounds, containing twelve acres, more or less, which has been marked off into seven blocks, and numbered from 1 to 7.
 Tenders may be for one or more, or all, but separate price must be named for each block.
 Plan showing measurement and area of each block, and contract forms, may be seen at the office of Mr. J. B. Todrick, Central Park.
 THOMAS SANDERSON,
 Secretary. (3065)

HOSPITAL FOR THE INSANE, ESSONDALE.

TENDERS in duplicate, endorsed "Hospital for the Insane," for the supply of clothing, dry goods, tailor's fittings, boots and shoes, shoemaker's fittings, meat, fish, groceries, coal, mattresses and bedding, fodder, drugs, etc., for use of the said institution, and the furnishing of funerals, from the 1st of April next to the 31st of March, 1915, will be received by the Honorable the Provincial Secretary until noon on Saturday, the 14th proximo.
 Lists of the articles required can be seen at the Hospital, at which place samples can also be inspected.
 All supplies to be delivered at the hospital without extra charge.
 Two sufficient sureties for the due fulfillment of each contract will be required.
 Tenders will not be considered unless made out on the forms, which can be obtained from the Bursar of the Hospital or the undersigned.
 A. CAMPBELL REDDIE,
 Deputy Provincial Secretary,
 Provincial Secretary's Office, 26th February, 1914. (3008)

LOCAL AND FOREIGN MARKETS

FEW PRICE CHANGES EXPECTED TODAY

Quotations on City Market Will Be About the Same as Last Week—Eggs May Go Lower.

Few price changes from last week are expected at the market today. There may be a further weakening in eggs on account of a large arrival last night, but this is not generally expected by the market authorities. The quotations in eggs, wholesale, are expected to run about 24 to 25 cents a dozen. Though no doubt the sellers will endeavor to hold the price five cents higher. Thirty cents will probably rule for eggs retail. Butter, retail, will run about 40 cents and poultry is expected to remain firm at 20 to 22 cents a pound live weight. There is still a large stock of spuds on hand, but no shrinkage in the charges is anticipated, nevertheless. The majority of the deals will probably be put through around \$18 a ton. The stocks in general will be about the average.

ACTIVE TRADING IN BRAZIL STOCK

Price Forced Down, But Recovers After Rally in the Afternoon—Nervous at Close.

Montreal, March 12.—On a revival of talk relative to the recent unfavorable financial situation in Brazil, prices generally on the local exchange were lower this morning. Cables from abroad showed weakness for Canadian securities on the London market, principally Brazilian Tractons.

This stock opened at 81½ on the local exchange as against 83½ on the close yesterday. Heavy trading developed as the day progressed, which forced the stock down to 80½, but during the afternoon a gradual rally developed which resulted in the stock recovering to 81¼.

In sympathy with this weakness the balance of the list sold off from ½ to 1 point. Montreal Power closing at 225, a decline of 1 point. Dominion Steel lost ½ of a point, selling at 31½. Laurentide sold at 185½, a decline of 2½ points, while Canadian Pacific lost 2½ points, selling down to 204½. Canada Cement held steady throughout the day, closing unchanged at 30½, with the preferred at 91. Shawinigan lost 2 points, closing at 137.

The market at the close was nervous, with business light in most departments.

MONTREAL STOCK MARKET.

(Quotations furnished over private wire of Sutherland & Ardagh.)

Ruling quotations on the Montreal stock market yesterday were:

	Open.	Close.

C.P.R. DROPS THREE POINTS AT NEW YORK

Other Losses Marked at Noon. But Market Closed Steady—Bonds Still Heavy.

New York, March 12.—The short interest having been reduced on the mid-week rise, the stock market sagged today. Shading of prices for steel products depressed sentiment and the list was sensitive to bear selling. Bulls were not aggressive in supporting their favorites.

Renewed foreign selling and further liquidation of low priced railroad shares operated against the market. Trading was dull throughout the morning, and only a few stocks were noticeably under pressure, but the market showed no recuperative powers. At noon losses among the prominent shares ranged from small fractions to more than a point. Bonds were heavy.

Moderate amounts of steel and

Union Pacific were sold by foreign representatives. Selling of Pennsylvania helped the downward movement of the general list. Rock Island securities all declined, the collateral bonds breaking through 40. Reduction in the American Express dividend was reflected in a drop of 4 points in the stock. United States Express also gave way 2½.

The market closed steady. European selling of Canadian Pacific continued until long after the usual time for the suspension of arbitrage business and the stock lost three points. Fractional recoveries were general in the final hour.

NEW YORK STOCK EXCHANGE.

CHANNEL TUNNEL IDEA AGAIN MOOTED

First Mile Was Completed Thirty-two Years Ago—Estimated Cost \$80,000,000.

London, March 12.—Thirty-two years ago today the first mile of the English Channel tunnel was completed. Travelers saw visions of soon being able to dodge the rough sea trip between Dover and Calais. But the invasion bogey seized the military authorities in England; parliament would not let the construction proceed.

Each successive year that the project was proposed alarmists arose to picture the French making use of the tunnel to land an army in England. Parliament regularly refused its approval, notwithstanding that the promoters devised schemes whereby the pressing on an electric button on English soil would put the tunnel out of commission in war time.

Today the first mile of tunnel is all that has been done toward boring beneath the English Channel. But the project is alive and is coming before the house of commons again, with prospects brighter than ever before. France and England are on cordial terms and the invasion bogey is no longer acute.

Engineers say that the tunneling through the impervious chalk of the channel bed could be easily accomplished by a boring machine built on the plan of a huge carpenter's bit, and the tunnel afterward lined with steel. The route is about 25 miles, which, if completed, would constitute the longest under-water tunnel in the world. The cost is estimated at about \$80,000,000.

PECULIAR ACCIDENT.

Calgary Man Starts Chewing Gum—Gets Mouthful of Fire.

Hamilton, March 12.—A peculiar accident occurred this morning at the T. H. & B. Hunter street station, and as a result John A. Denton, millinery buyer of the Price-Jones department store, Calgary, will be unable to enjoy his meals for several days to come.

Mr. Denton was a passenger on the C. P. R. train arriving here from New York at 9:45 this morning, having been in the metropolis on a purchasing trip for his firm. During the five minute stop here, Mr. Denton finished a pure havana he had been smoking and delved into his pockets for some gum. In his vest pocket he found a neatly rolled cud. Placing it in his mouth he commenced to chew on it vigorously but his jaws had not come together more than three times when emitted a shout of pain, accompanying it with much vain spluttering in his attempts to spit out the gum. People standing nearby were startled to see a flame of fire emanating from his mouth. Two of them ran to his assistance and a doctor who was on the train gave assistance. He found that Mr. Denton's mouth was very seriously burned. After receiving a soothing lotion the victim was able to explain the strange accident. He stated that in the pocket from which the gum was taken, he carried his matches. The sulphur from one of these must have imbedded itself in the gum and his teeth coming together on it, caused it to ignite.

HOW ENGLISH HOLD LIVING COST DOWN

Co-operative Societies in Rural Districts Not Only for Selling, But for Purchasing.

Most people know that in England there are a great many industrial co-operative societies, carrying on business chiefly in the large centres of population, says P. B. Walmesley, writing in the Toronto Globe. But few realize that within the last ten years there have sprung into existence all over rural England co-operative agricultural societies which, in most cases, have been promoted, or at any rate assisted, in their organization by the Agricultural Organization society.

The latter society does not exist for trading, but is a voluntary association formed for advocating the principles of co-operation amongst agriculturists, and for giving advice and assistance in the formation and organization of properly registered co-operative agricultural societies throughout England and Wales.

These agricultural societies have grown from small beginnings until they now have quite a large turnover, especially in the matter of purchase of requirements. For example, the turnover for 1912 of the Eastern Counties Farmers' Co-operative association amounted to £278,634, while the Southern Counties Agricultural Trading society turned over £121,169.

One of the latest developments is the commencement of a system of inter-trading between the agricultural and the distributive co-operative movement. There has been a growing demand in the industrial movement for agricultural produce, and the Agricultural Organization society has now two organizers whose work is to encourage a closer business relationship between the two sets of societies.

Many Conferences Held. Besides this there have been various conferences, first established at the co-operative congress, held at Newcastle-on-Tyne in 1909, and afterwards held periodically, for the purpose of ascertaining, amongst other things, the position of the agricultural co-operative societies, and how far they are able to supply the requirements of the distributive movement.

At one of the conferences it was decided to convene a meeting of buyers and sellers. This subsequently took place, the purchasers being represented by the buyers from the English and Scottish co-operative societies, and the sellers by the managers from various agricultural co-operative societies in England, Ireland and Wales. They discussed the sale of these commodities: (1) eggs, butter, cheese, bacon, pork and dead meat; (2) wheat, corn, seeds, etc., and (3) jam, fruits, fruit and market garden produce.

The discussion showed that the co-operative wholesale society was disposed to give preference to agricultural co-operative societies, but of course it was on the understanding that the conditions of delivery, quality and price did not compare unfavorably with those prevailing in the open market.

It is a curious fact that the purchases of the agricultural movement from the industrial co-operative societies are three times as large as the purchases of the industrial societies from the agricultural societies.

However, an improvement is being shown, and the city co-operator is beginning to buy more from his co-operative brother in the country.

Values of Agricultural Purchases. During the year available statistics showed that the value of the pur-

chases of the industrial movement from the agricultural co-operative societies was £38,775. The greatest developments are expected in the sale of milk and dairy products to the industrial movement. Dairy societies affiliated to the A. O. S. sold to industrial co-operative societies in 1912 milk, cheese and butter to the value of £16,476. Conferences have been held between representatives from industrial societies having dairy departments and representatives from agricultural dairy societies.

The value of eggs sold to industrial co-operative societies in 1912 was £4007, while pigs to the value of £11,500 have been sold to these societies, and the value of fruit so disposed of amounted to £4133.

Central Trading Board. Another development in this direction has been the formation of the Farmers' Central Trading Board of England and Wales. This was the outcome of the custom of holding regular meetings of the managers of the agricultural trading societies. The board will give representation to committees of societies, and arrange for all trading societies affiliated with the A. O. S. to be represented. Societies will be able to bulk their orders through the board, and already a start has been made in the purchase of binder twine on favorable terms.

Some of the work of the board will be the consideration of inter-trading between agricultural societies and the distributive co-operative movement.

It will thus be seen that a commencement has been made of direct trading between the country agricultural producer and the city industrial producer and distributor which may later on have a great influence on the cost of living by allowing each worker free access to the products of the other.

WALTER WAS DEAF BUT HE WAS ALSO DRUNK

Even Officer Johnson, whose voice is no whispering, woodland zephyr when raised in debate, had some difficulty conveying to the mind of Walter Camp in police court yesterday morning the fact that he was charged with having been drunk. Hard of hearing isn't the term to apply to Walter; he's so deaf it would take a foghorn blowing in his ear to tell him dinner was ready. Finally, after repeated trials, Walter supposed that he might have been drunk, but he balked at pleading guilty, so the evidence was taken. When the testimony had been given it had to be admitted that Walter was drunk yesterday, so drunk, in fact, that he had to lie down several times to keep himself from spinning off into space and doing the comet act through the boundless heavens. Two-fifty and costs for Walter.

Then came Jimmy Campbell, Magistrate Edmonds hasn't decided yet whether Jimmy was playing off crazy or merely hovering on the very edge of that complaint which is technically known as the D. T.'s.

"Drunk, broke, square with the world, belong to Vancouver, work at nights—all right, I guess," Jimmy reeled off in answer to the drunk charge as he leaned against the side of the dock in the posture of Abe Martin. His worship took another look at James and then set down two-fifty and costs opposite his name.

Enoch Whister and Dan Ryan got as wet as they could inside on Wednesday evening and then went down to the river and fell in to complete the job. They didn't deliberately fall into the river. They aimed for their boat, but somebody moved the dock and they hit the cold chuck. As Enoch has been here eight years and this was his first appearance in court he was allowed to go, but Dan, as an old offender, drew the usual two and a half, plus costs.

Nota Singh sorrowfully admitted that he had assumed the white man's burden along with the rest and he and his countryman, Taza Singh, were asked to pay \$2.50 each for the privilege of loading below the plimsol mark with hooch.

Joe Wood was a plain, ordinary drunk and added his \$2.50 to the civic treasury.

TORONTO'S PARK SYSTEM TO BE AMERICA'S BEST

Toronto, March 12.—This city will have a park system second to none on the American continent, according to Parks Commissioner Chambers, if the plans now in mind are carried out. The commissioner was one of the speakers at the first annual banquet of the parks department, held last evening in the W. C. T. U. dining hall at the exhibition grounds. He mentioned that Toronto now has 2,000 acres of park lands, and referred briefly to proposed extensions. The forty-two mile boulevard which is to encircle the city was one of the important improvements that would be made within the next few years. Seven new playgrounds would be established this year, and numerous extensions of the parks and recreation areas were planned.

Confesses to Murder.

Cleveland, O., March 12.—Police preferred a charge tonight of first degree murder against Frank Sticka, who was arrested today in connection with the killing of Mrs. Anna Podogil. Sticka, they said, had confessed Sticka's father informed the police that his son was insane and that the prisoner's dead mother formerly was an inmate of an asylum. The killing of Mrs. Podogil, who was housekeeper for the elder Sticka, was brutal. She was tied to a bed post Wednesday evening and slowly hacked to death.

What are Your Windows for?

Windows are not merely openings to admit light and air. They show the most artistic touch of the builder, either inside or out.

The artistic effect is often spoiled by the hangings, which should blend with the other furnishings and walls.

There have been many different styles of drapery used, but nothing is more dainty than the perfectly plain hanging.

Scrim, Voil es, Marquisettes or Nets, are all most suitable and come in such a variety of patterns, colors and weaves that any color scheme can be carefully followed.

Plain Scrim; white, cream or **25c TO 40c** ecru. Per yard
Fancy Borders; pink, blue, fawn, green or red. Per yard **35c TO 60c**
Voiles and Marquisettes; hemstitched or plain; with colored borders. **35c, 40c, 50c**
Bungalow Nets; white or cream; designs suitable for any window. Per yard at 20c, 25c, **50c** 35c, 45c and
